FOREWORD

In order to facilitate recruitment of competent manpower, retain, develop, train and promote them on the basis of merit, A Career Guideline becomes an important tool in management of human resource.

The development of these Career Guidelines for Kenya Institute of Primate Research (KIPRE) was guided by government policies and the relevant circulars and once implemented, the Guidelines are expected to empower the staff at KIPRE. They will motivate staff at KIPRE in the Research Agenda culminating in the production of drugs, vaccines and therapies to improve human health and therefore accelerate attainment of UHC.

The Career Guidelines are a basis for staff Career growth and this will in turn develop a workforce that is result oriented raising the level of output and impact in our society.

I plead with all the stakeholders to work together for effective implementation of these Career Guidelines.

Signed by: _____ **Dated: _____**
PROF. JOSEPHAT MULIMBA
CHAIRPERSON OF THE BOARD,
KENYA INSTITUTE OF PRIMATE RESEARCH

PREFACE

This Career Guideline has been developed to support service delivery, commitments and obligations of the Kenya Institute of Primate Research (KIPRE) with the main aim of achieving the mandate.

KIPRE aims at improving human health through development of drugs, vaccines and therapies and to achieve this, Career Guidelines that ensure specific qualifications, skills

A number of issues have affected human resource capacity at KIPRE among them being brain drain where retaining well trained researchers at the institution becomes a big challenge. These Career Guidelines will motivate staff for good retention and ensure career progression that is fulfilling to the staff which in turn will result to productivity in the organization.

It is my hope that through this Career Guideline coupled with KIPRE strategic plan, performance contracting and performance appraisal, KIPRE will motivate staff for impactful results as per its mandate. In conclusion, KIPRE endeavours to have and maintain a conducive work environment that recognizes diversity, personal and professional growth for its entire staff.

In conclusion, KIPRE endeavours to have and maintain a conducive work environment that recognizes diversity, personal and professional growth for its entire staff.

Signed by: _____ **Dated:** _____

DR. PETER GICHUHI MWETHERA, PhD, MBS
ACTING DIRECTOR GENERAL
KENYA INSTITUTE OF PRIMATE RESEARCH

1.0 SECTION ONE: INTRODUCTION

1.1 Aims and Objectives

(i) To provide for a well-defined career structure, which will attract, motivate and facilitate retention of qualified and experienced staff in the Institute.

(ii) To establish distinct levels of responsibilities in the grading structure and set standards for advancement to higher grades based on professional competence, specialization, knowledge, experience, proven ability, diligence, and drive as reflected in work performance and results.

(iii) To establish standards for recruitment, training, and advancement within the career structures through the acquisition of professional qualifications and requisite competencies.

(iv) To ensure appropriate career planning and succession management.

1.2 Responsibility for Administration

The Director General/Chief Executive Officer will administer these Guidelines. In administering the guidelines, the DG/CEO in consultation with the Board of Directors will ensure that the provisions of the Guidelines are strictly observed for fair and equitable treatment of officers and also, ensure that officers are confirmed in their appointment after completion of their probation period.

1.3 Training Scope

In administering the Guidelines, the Director General/Chief Executive Officer will ensure that appropriate induction, mentoring, training opportunities, tools, and facilities are provided to assist serving officers to acquire the necessary additional qualifications/specialization and experience required for both efficient performances of their duties and advancement within the career structure. The officers should also be encouraged to undertake training privately for self-development.

1.4 Provision of Posts

A Career Guideline does not constitute authority for creation of post(s). Any additional post(s) required under the new grading structure should be submitted to the Board for consideration and approval.

1.5 Serving Officers

Serving Officers will adopt and convert as appropriate to the new grading structure and designations provided in the Career Guidelines though they may not have the requisite minimum qualifications and/or experience specified for the present grade. However, for advancement to higher grades, the officers must have the minimum required qualifications and/or experience prescribed for those grades.

1.6 Incremental Credit

Incremental credits for approved experience acquired after obtaining the prescribed minimum qualifications for the grade may be awarded at the rate of one increment for each completed year of approved experience provided the maximum of the grade is not exceeded. In awarding incremental credits, any period of service or experience stipulated as the basic appointment specification or promotion to a particular grade will be excluded.

1.7 Advancement within the Career Guidelines

It is emphasized that the qualifications and/or any other conditions set out in these Career Guidelines are the minimum requirements entitling an officer for consideration for appointment and/or promotion to higher grades. In addition, advancement from one grade to another will also depend on:

(i) Merit and ability as reflected in work performance and results;
(ii) Existence of a vacancy within the authorized establishment; and
(iii) The approval of the Board of Directors for staff promotion provided the candidate is suitable for promotion in every respect.

1.8 Grades Categorized as Common Establishment

This refers to two or more grades that are combined in a grading structure, normally at the lowest level of a given cadre to facilitate the advancement of officers without the need to increase the number of approved posts at those levels. This is a good measure to control growth in numbers of personnel without hindering the advancement of staff. However, even in common establishment posts, serving officers will be required to fulfill all the requirements for advancement to the next grade as stipulated in these Career Guidelines.

1.9 Direct Appointment

Direct appointment refers to the appointment of officers from outside the Institute. The point of entry is determined by qualification(s) and experience. A direct appointment will be made at various levels within the Grading Structures. In exceptional cases, however, direct appointments from the open market may be made beyond these grades by the Board on the recommendation of the Chief Executive Officer, provided the candidates possess the minimum qualifications and experience required for appointment to the grade. Direct entrants at the higher levels should have equivalent experience as serving officers, if not more.

1.10 Recognized Qualifications

Recognized qualifications will be those attained from recognized Institutions and Institutes and the Government approved Examination Bodies. These will include, among others:

(i) Recognized Universities and Institutions;
(ii) Kenya National Examinations Council (KNEC);
(iii) Other bodies empowered by Law to administer examination; and
(iv) Any other accredited institutions by the Commission for University Education (CUE) or the relevant Government Departments as examining bodies.

1.11 Implementation of the Career Guidelines

These Career Guidelines will become operational with effect from the date of approval by the Board and the relevant government agency and shall supersede any other existing Guidelines. On implementation, all serving officers will automatically become members of respective Career Guidelines.

1.12 Job and Appointment Specifications

These Career Guidelines cater for various Cadres whose Job and Person Specifications are stipulated in the rest of this document.

2.0 CAREER GUIDELINES FOR STAFF OF KENYA INSTITUTE OF PRIMATE RESEARCH (KIPRE)

2.1 CAREER GUIDELINE FOR DIRECTOR GENERAL/CHIEF EXECUTIVE OFFICER

(a) Job Purpose

The Director General is the Chief Executive Officer of the Institute and responsible to the Board for the day-to-day management of the affairs of the Institute.

(b) Functions

The DG/CEO is responsible for the following functions:

(i) Be the Accounting officer of the Institute;
(ii) Serve as the link between the Board and Management;
(iii) Be the spokesperson of the organization and responsible for stakeholder management and the enhancement of the corporate image of the organization;
(iv) Be responsible for the execution and communication of the Board's strategies decision and policies;
(v) Manage the budget of the Institute and ensure that its funds are properly expended and accounted for;
(vi) Spearhead mobilization of resources to support implementation of the Institute's programmes;
(vii) Promote the use ICT to enhance service delivery to the Institute;
(viii) Spearhead development and implementation of effective performance management systems;
(ix) Provide regular, thorough and prompt communication to the Board on key technical financial and administrative matters;
(x) Ensure development , implementation and review of the Institute's risk management framework;
(xi) Ensure that the organization has effective management structure including succession plan;
(xii) Promote corporate Environmental, Social and Governance (ESG) programmes;
(xiii) Promote National values and principles of public service in the Institute;
(xiv) Provide strategic leadership in accordance with the mandate of the Institute's legal framework;
(xv) Ensure implementation and fulfilment of the policies, programs and agreed performance targets and service standards of the Institute;

(xvi) Oversee the implementation of applicable Research standards;
(xvii) Oversee the activities of the Institute's resources and ensure they are optimally utilized and fully accounted for in line with existing laws and regulations;
(xviii) Ensure continuous improvement in the quality, value of services to all research activities in the Institute;
(xix) Provide Guidance and spearhead research activities in the institute in line with the best research practices globally;
(xx) Lead in development of medical products by the Institute;
(xxi) Foster and maintain a conducive work environment;
(xxii) Enhance corporate culture that promotes ethical practices and good corporate governance;
(xxiii) Maintain effective collaboration and partnerships with organs of Government and Government agencies, county Governments, international organizations, private sector, non-governmental organization and other Stakeholders; and
(xxiv) Advise on Biomedical and preclinical Research for development of Health products.

(c) Grading Structure and Scope

The Career Guidelines establishes one (1) grade of Director General designated and graded a follows: -

S/No.	DESIGNATION	KIP GRADE
1.	Director General / Chief Executive Officer	1

(d) Recognized qualifications.

The following are the recognized qualifications for the purpose of this Career Guideline:

(i) Bachelors Degree Biomedical Sciences or equivalent qualification from a recognized Institution.
(ii) Master's Degree Biomedical Sciences or other or equivalent qualification from a recognized Institution.
(iii) Doctorate degree in Biomedical Sciences or other related scientific qualification from a recognized Institution.
(iv) At least fifteen (15) years relevant work experience ten (10) years of which have been in a senior management position.

(v) Evidence of at least thirty (30) publication in refereed journals.
(vi) Attracted Funding not less than Kshs 100 million.
(vii) Membership to a professional body and in good standing where applicable;
(viii) Leadership course lasting not less than four (4) weeks from a recognized Institution
(ix) Proficiency in Computer Applications.
(x) Fulfilling the requirements of Chapter Six of the Constitution

JOB AND PERSON SPECIFICATION

DIRECTOR GENERAL / CHIEF EXECUTIVE OFFICER, GRADE KIP 1

(a) Job Specification

Duties and Responsibilities at this level will entail:

(i) Being the Accounting officer of the Institute;
(ii) Serving as the link between the Board and Management;
(iii) Being the spokesperson of the organization and responsible for stakeholder management and the enhancement of the corporate image of the organization;
(iv) Being responsible for the execution and communication of the Board's strategies decision and policies;
(v) Managing the budget of the Institute and ensure that its funds are properly expended and accounted for;
(vi) Spearheading mobilization of resources to support implementation of the Institute's programmes;
(vii) Promoting the use ICT to enhance service delivery to the Institute;
(viii) Spearheading development and implementation of effective performance management systems;
(ix) Providing regular, thorough and prompt communication to the Board on key technical financial and administrative matters;
(x) Ensuring development , implementation and review of the Institute's risk management framework;
(xi) Ensuring that the organization has effective management structure including succession plan;
(xii) Promoting corporate Environmental, Social and Governance (ESG) programmes;
(xiii) Promoting National values and principles of public service in the Institute;

(xiv) Providing strategic leadership in accordance with the mandate of the Institute's legal framework;
(xv) Ensuring implementation and fulfilment of the policies, programs and agreed performance targets and service standards of the Institute;
(xvi) Overseeing the implementation of applicable Research standards;
(xvii) Overseeing the activities of the Institute's resources and ensure they are optimally utilized and fully accounted for in line with existing laws and regulations;
(xviii) Ensuring continuous improvement in the quality, value of services to all research activities in the Institute;
(xix) Providing Guidance and spearhead research activities in the institute in line with the best research practices globally;
(xx) Leading in development of medical products by the Institute;
(xxi) Fostering and maintaining a conducive work environment;
(xxii) Enhancing corporate culture that promotes ethical practices and good corporate governance;
(xxiii) Maintaining effective collaboration and partnerships with organs of Government and Government agencies, county Governments, international organizations, private sector, non-governmental organization and other Stakeholders; and
(xxiv) Advising on Biomedical and preclinical Research for development of Health products.

(b) Person Specifications

For appointment to this grade a candidate must have:

(i) At least fifteen (15) years relevant work experience ten (10) years of which have been in a senior management position.
(ii) Bachelor's Degree Biomedical Sciences or equivalent qualification from a recognized Institution.
(iii) Master's Degree Biomedical Sciences or equivalent qualification from a recognized Institution.
(iv) Doctorate Degree in Biomedical Sciences or equivalent qualification from a recognized Institution.
(v) Evidence of at least Twenty (20) publication in refereed journals.
(vi) Attracted Funding not less than Kshs 100 million.
(vii) Membership to a professional body and in good standing where applicable.
(viii) Leadership course lasting not less than four (4) weeks from a recognized Institution

(ix) Proficiency in Computer Applications.
(x) Fulfilling the requirements of Chapter Six of the Constitution

(c) Key competencies and skills

- Knowledge and a clear understanding of the health sector.
- Analytical and decision-making abilities.
- Creativity and innovation.
- Problem solving.
- Ability to mobilize and efficiently utilize resources.
- Interpersonal relations.
- Leadership and managerial.
- Policy implementation.
- Demonstrate high integrity.
- Good understanding of the public service processes and procedures.

NAIROBI

2.2 CAREER GUIDELINE FOR DIRECTOR, RESEARCH AND PRODUCT DEVELOPMENT

(a) Job Purpose

The Director will be responsible for all research activities and drive them towards innovations leading to product development and commercialization. The holder will work closely with other directorates in execution of the KIPRE mandate.

(b) Functions

The Director, Training and Product Development will be responsible for the following key functions.

(i) Oversee and coordinate all administrative roles for the Directorate;
(ii) Supervise, coordinate, formulate, implement and review of policies, strategies and guidelines on all Biomedical and Preclinical Research matters;
(iii) Lead in resource mobilisation for the Directorate;
(iv) Oversee strategy on basic, pre-clinical and translational research using non-human primates and other experimental animals in liaison with the relevant government agencies;
(v) Guide in the development of early warning systems for emerging and re-emerging diseases;
(vi) Oversee laboratory biosafety and biosecurity plans to manage the identified risks with respect to fieldwork and lab-based activities at the Institute;
(vii) Oversee surveillance and monitoring of zoonotic diseases, including those that may pose a threat to human health by monitoring animal and environment to identify and track disease outbreaks;
(viii) Supervise the development of new diagnostic tests and tools and conduct research to improve diagnostics for infectious diseases and allowing platforms for health information exchange, streamline diagnostic workflows and improve access to health care.
(ix) Supervise pre-clinical and clinical studies to evaluate the safety and efficacy of bacteriophage (phage) therapy in different infection contexts and patient populations.
(x) Guide on Antimicrobial Resistance (AMR) surveillance necessary for national advocacy on antimicrobial use and stewardship.
(xi) Review of Directorate budgets, allocate resources and ensure efficient use of resources;
(xii) Implement Directorate work plan, staff performance, discipline, monitoring and evaluation and reporting;
(xiii) Guide studies on non-human primate conservation biology and primatology;

(xiv) Coordinate the establishment and maintenance of a national non-human primate database on census, research affiliations, and geo-spatial distribution of non-human and related zoonotic diseases;

(xv) Oversee research on venom and antivenom including snake bite disease;

(xvi) Oversee sub-national and national data and statistics on snakebite trends, patterns and distribution to guide decision making processes;

(xvii) Supervise snakebite advocacy and social mobilization activities including behavioral change components;

(xviii) Supervise preclinical efficacy and safety tests of new antivenoms and those available in the market, and other biologics such as tetanus and rabies vaccines;

(xix) Coordinate basic and pre-clinical research on reproductive health, infectious and non-communicable diseases using non-human primates;

(xx) Oversee development and characterization for both non-human primate and other experimental animal models for priority diseases in Kenya;

(xxi) Coordinate research in Human African Trypanosomiasis disease;

(xxii) Guide in research fundraising activities; and

(xxiii) Supervise dissemination of scientific findings through publications, conferences, seminars and workshops.

(xxiv) Oversee research on health technologies, drug & vaccine discovery and development and pre-clinical pharmacology & medicinal chemistry

(xxv) Supervise innovative drug delivery and molecular design strategies for targeting infectious and noninfectious diseases;

(xxvi) Oversee the development and characterization of non-human primate as models for use in drug discovery and development, delivery, and toxicology in Kenya;

(xxvii) Oversee preclinical validation of traditional knowledge-based products with claimed healing for efficacy using monkeys as models

(xxviii) Supervise field research on primatology and wildlife ecology with focus on species behavioral ecology (Nutrition, Sociobiology & endocrinology), evolution, conservation and management;

(xxix) Guide on establishment and maintenance of a national non-human primate database on their diversity (taxonomy), population status, and geo-spatial distribution for effective prioritization of research, conservation and management;

(xxx) Oversee in-situ health monitoring of primate populations and other wildlife and support the zoonosis surveillance activities for purposes of developing early warning systems and preparedness to respond to potential disease outbreaks and threats to endemic and critically endangered primate and other species;

(xxxi) Play national advisory role on matters of primate conservation & management including mitigation of human-nonhuman primate conflicts or interaction threats;

(xxxii) Oversee studies on impacts of climate change on biodiversity (including primates and other species) and local communities and develop and implement sustainable conservation initiatives or climate actions to promote climate change response in terms of mitigation, adaptation and resilience;

(xxxiii) Guide on development of policies, processes and guidelines on innovation and incubation management

(xxxiv) Coordinate incubation and acceleration services to institute startups and spin-offs, including access to funding, mentorship, networking, and other support services.

(xxxv) Guide on the development of strategies for the research and management of the reproductive health research programs, knowledge generation and capacity building programs;

(xxxvi) Supervise reproductive disease surveillance in Kenya to obtain data on the current trends of reproductive diseases and current intervention strategies;

(xxxvii) Oversee the development and characterization of both non-human primate and other experimental animal models for infectious and for emerging and re-emerging diseases

(xxxviii) Oversee research in non-communicable diseases for intervention and prevention strategies using non-human primates (NHPs) and other experimental models

(xxxix) Guide on the development of strategies for the management and prevention of the non-communicable diseases, knowledge generation and capacity building programs;

(xl) Oversee laboratory quality assurance services;

(xli) Coordinate collection, analysis and interpretation of biological and health science data across multiple research entities in the institute.

(xlii) Supervise the design of various new computational tools for bioinformatics and determine an effective data analysis framework.

(c) Grading Structure and Scope

The Career Guideline establishes one (1) grade of Director, Research and Product Development who will be designated and graded as follows:

S/No	DESIGNATION	KIP GRADE
1.	Director, Research and Product Development	2

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this Career Guideline:

(i) Bachelor's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Doctorate degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Evidence of at least twenty (20) publications in refereed journals
(v) Attracted research Funding of not less than Kshs 80 million
(vi) Leadership course lasting not less than four (4) weeks from a recognized institution
(vii) Membership to a professional body and in good standing where applicable;
(viii) Proficiency in Computer Applications.
(ix) Fulfil the requirements of Chapter Six of the constitution 2010;

JOB AND PERSON SPECIFICATION

DIRECTOR, RESEARCH AND PRODUCT DEVELOPMENT, GRADE KIP 2

(a) Job Specification

Duties and Responsibilities at this level will entail:

(i) Overseeing and coordinating all administrative roles for the Directorate;
(ii) Supervising the coordination, formulation, implementation and review of policies, strategies and guidelines on all Biomedical and Preclinical Research matters;
(iii) Leading in resource mobilisation for the Directorate;
(iv) Overseeing strategy on basic, pre-clinical and translational research using non-human primates and other experimental animals in liaison with the relevant government agencies;
(v) Guiding in the development of early warning systems for emerging and re-emerging diseases;

(vi) Overseeing laboratory biosafety and biosecurity plans to manage the identified risks with respect to fieldwork and lab-based activities at the Institute;

(vii) Overseeing surveillance and monitoring of zoonotic diseases, including those that may pose a threat to human health by monitoring animal and environment to identify and track disease outbreaks;

(viii) Supervising the development of new diagnostic tests and tools and conduct research to improve diagnostics for infectious diseases and allowing platforms for health information exchange, streamline diagnostic workflows and improve access to health care.

(ix) Supervising pre-clinical and clinical studies to evaluate the safety and efficacy of bacteriophage (phage) therapy in different infection contexts and patient populations.

(x) Guiding on Antimicrobial Resistance (AMR) surveillance necessary for national advocacy on antimicrobial use and stewardship.

(xi) Reviewing of Directorate budgets, allocate resources and ensure efficient use of resources;

(xii) Implementing Directorate work plan, staff performance, discipline, monitoring and evaluation and reporting;

(xiii) Guiding studies on non-human primate conservation biology and primatology;

(xiv) Coordinating the establishment and maintenance of a national non-human primate database on census, research affiliations, and geo-spatial distribution of non-human and related zoonotic diseases;

(xv) Overseeing research on venom and anti-venom including snake bite disease;

(xvi) Overseeing sub-national and national data and statistics on snakebite trends, patterns and distribution to guide decision making processes;

(xvii) Supervising snakebite advocacy and social mobilization activities including behavioral change components;

(xviii) Supervising preclinical efficacy and safety tests of new antivenoms and those available in the market, and other biologics such as tetanus and rabies vaccines;

(xix) Coordinating basic and pre-clinical research on reproductive health, infectious and non-communicable diseases using non-human primates;

(xx) Overseeing development and characterization for both non-human primate and other experimental animal models for priority diseases in Kenya;

(xxi) Coordinating research in Human African Trypanosomiasis disease;

(xxii) Guiding in research fundraising activities; and

(xxiii) Supervising dissemination of scientific findings through publications, conferences, seminars and workshops.

(xxiv) Overseeing research on health technologies, drug & vaccine discovery and development and pre-clinical pharmacology & medicinal chemistry

(xxv) Supervising innovative drug delivery and molecular design strategies for targeting infectious and noninfectious diseases;

(xxvi) Overseeing the development and characterization of non-human primate as models for use in drug discovery and development, delivery, and toxicology in Kenya;

(xxvii) Overseeing preclinical validation of traditional knowledge-based products with claimed healing for efficacy using monkeys as models

(xxviii) Supervising field research on primatology and wildlife ecology with focus on species behavioral ecology (Nutrition, Sociobiology & endocrinology), evolution, conservation and management;

(xxix) Guiding on establishment and maintenance of a national non-human primate database on their diversity (taxonomy), population status, and geo-spatial distribution for effective prioritization of research, conservation and management;

(xxx) Overseeing in-situ health monitoring of primate populations and other wildlife and support the zoonosis surveillance activities for purposes of developing early warning systems and preparedness to respond to potential disease outbreaks and threats to endemic and critically endangered primate and other species;

(xxxi) Playing a national advisory role on matters of primate conservation & management including mitigation of human-nonhuman primate conflicts or interaction threats;

(xxxii) Overseeing studies on impacts of climate change on biodiversity (including primates and other species) and local communities and develop and implement sustainable conservation initiatives or climate actions to promote climate change response in terms of mitigation, adaptation and resilience;

(xxxiii) Guiding on development of policies, processes and guidelines on innovation and incubation management

(xxxiv) Coordinating incubation and acceleration services to institute startups and spin-offs, including access to funding, mentorship, networking, and other support services.

(xxxv) Guiding on the development of strategies for the research and management of the reproductive health research programs, knowledge generation and capacity building programs;

(xxxvi) Supervising reproductive disease surveillance in Kenya to obtain data on the current trends of reproductive diseases and current intervention strategies;

(xxxvii) Overseeing the development and characterization of both non-human primate and other experimental animal models for infectious and for emerging and re-emerging diseases

(xxxviii) Overseeing research in non-communicable diseases for intervention and prevention strategies using non-human primates (NHPs) and other experimental models

(xxxix) Guiding on the development of strategies for the management and prevention of the non-communicable diseases, knowledge generation and capacity building programs;

(xl) Overseeing laboratory quality assurance services;

(xli) Coordinating collection, analysis and interpretation of biological and health science data across multiple research entities in the institute.

(xlii) Supervising the design of various new computational tools for bioinformatics and determine an effective data analysis framework.

(b) Person Specification

For appointment to this grade a candidate must have:

(i) At least fifteen (15) years relevant work experience, five (5) years of which must have been in senior management position in the Public or Private sector;
(ii) Bachelor's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Doctorate degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(v) Evidence of at least twenty (20) publications in refereed journals
(vi) Attracted research Funding of not less than Kshs 80 million
(vii) Leadership course lasting not less than four (4) weeks from a recognized institution
(viii) Membership to a professional body and in good standing where applicable;
(ix) Proficiency in Computer Applications.
(x) Fulfil the requirements of Chapter Six of the constitution 2010;

(c) Key Skills and Competencies

- Leadership skills.
- Communication skills.
- Mentorship Skills.
- Problem solving.
- Strategic thinking.
- Conflict management.
- Interpersonal skills.
- Organizational skills.
- Negotiation skills.
- Team building

2.3 CAREER GUIDELINE FOR DIRECTOR ANIMAL SCIENCE, WELFARE AND ETHICS

(a) Job Purpose

The Director Animal Science, Welfare and Ethics shall ensure that all issues of animal sciences, welfare and ethics are adhered to both local and international standards. The holder will ensure that there is provision of experimental animals for research and national and international needs.

(b) Functions

The Director, Animal Science, Welfare and Ethics will be responsible for the following key functions.

(i) Oversee and coordinate all administrative roles for the Directorate;
(ii) Supervise the coordination, formulation, implementation and review of policies, strategies and guidelines on animals sciences, breeding, welfare and ethics;
(iii) Lead in resource mobilisation for the Directorate;
(iv) Supervise the development and implementation of ethical guidelines for establishing and enforcing ethical standards and guidelines for animal care and welfare;
(v) Provide scientific advice and guidance to researchers, veterinarians and other stakeholders on animal related research, testing and breeding;
(vi) Ensure proper compliance on animal related research, treatment, testing, husbandry and breeding;
(vii) Oversee and regulate the acquisition and breeding of animals for research, testing and educational purposes;
(viii) Oversee management of animal colonies;
(ix) Ensure compliance with local, national and international regulation related to animal welfare and ethics;
(x) Advise and participate in establishing ethical review boards and committees responsible for approving research protocols involving animals;
(xi) Review of Directorate budgets, allocate resources and ensure efficient use of resources;
(xii) Implement Directorate work plan, staff performance, discipline, monitoring and evaluation and reporting;
(xiii) Advise on design and maintenance of animal facilities to meet national and international standards;
(xiv) Promote the use of Positive Reinforcement Techniques (PRT) and environmental enrichment of animals;
(xv) Identify opportunities for innovation and improvement in ethical animal handling practices;
(xvi) Facilitate training and capacity building animals sciences, breeding, welfare and ethics to veterinarians, researchers and other stakeholders;

(xvii) Oversee the maintenance and updating animal health, research, breeding, welfare and ethics database;
(xviii) Oversee the organization of conferences, seminars and workshops to disseminate research findings related to laboratory animals;
(xix) Oversee collaborative and contract research on laboratory animals.

(c) Grading Structure and scope

The Career Guidelines establishes one (1) grade of Director, Animal Science, Welfare and Ethics who will be designated and graded a follows: -

S/No.	DESIGNATION	KIP GRADE
1.	Director, Animal Science, Welfare and Ethics	2

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this Career Guideline:

(i) Bachelor's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Doctorate degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Evidence of at least twenty (20) publications in refereed journals
(v) Attracted research Funding of not less than Kshs 80 million
(vi) Leadership course lasting not less than four (4) weeks from a recognized institution
(vii) Membership to a professional body and in good standing where applicable;
(viii) Proficiency in Computer Applications.
(ix) Fulfil the requirements of Chapter Six of the constitution 2010;

JOB AND PERSON SPECIFICATION

DIRECTOR, ANIMAL SCIENCE, WELFARE AND ETHICS, GRADE KIP 2

(a) Job Specification

Duties and Responsibilities at this level will entail:

(i) Overseeing and coordinating all administrative roles for the Directorate;
(ii) Supervising the coordination, formulation, implementation and review of policies, strategies and guidelines on animals sciences, breeding, welfare and ethics;
(iii) Leading in resource mobilisation for the Directorate;
(iv) Overseeing the development and implementation of ethical guidelines for establishing and enforcing ethical standards and guidelines for animal care and welfare;
(v) Providing scientific advice and guidance to researchers, veterinarians and other stakeholders on animal related research, testing and breeding;
(vi) Ensuring proper compliance on animal related research, treatment, testing, husbandry and breeding;
(vii) Overseeing and regulating the acquisition and breeding of animals for research, testing and educational purposes;
(viii) Overseeing management of animal colonies;
(ix) Ensuring compliance with local, national and international regulation related to animal welfare and ethics;
(x) Reviewing of Directorate budgets, allocate resources and ensure efficient use of resources;
(xi) Implementing Directorate work plan, staff performance, discipline, monitoring and evaluation and reporting;
(xii) Participating in establishing ethical review boards and committees responsible for approving research protocols involving animals;
(xiii) Advising on design and maintenance of animal facilities to meet national and international standards;
(xiv) Overseeing the use of Positive Reinforcement Techniques (PRT) and environmental enrichment of animals;
(xv) Identifying opportunities for innovation and improvement in ethical animal handling practices;
(xvi) Enabling the training and capacity building in animals sciences, breeding, welfare and ethics;
(xvii) Overseeing the maintenance and update of animal health, research, breeding, welfare and ethics database;
(xviii) Overseeing the organization of conferences, seminars and workshops to disseminate research findings related to laboratory animals;
(xix) Overseeing collaborative and contract research on laboratory animals;

(b) Person Specification

For appointment to this grade a candidate must have:

(i) At least fifteen (15) years relevant work experience, five (5) years of which must have been in senior management position in the Public or Private sector;
(ii) Bachelor's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Doctorate degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(v) Evidence of at least twenty (20) publications in refereed journals
(vi) Attracted research Funding of not less than Kshs 80 million
(vii) Leadership course lasting not less than four (4) weeks from a recognized institution
(viii) Membership to a professional body and in good standing where applicable;
(ix) Proficiency in Computer Applications.
(x) Fulfil the requirements of Chapter Six of the constitution 2010;

(c) Key Skills and Competencies

- Leadership skills.
- Communication skills.
- Mentorship Skills.
- Problem solving.
- Strategic thinking.
- Conflict management.
- Interpersonal skills.
- Organizational skills.
- Negotiation skills.
- Team building

2.4 CAREER GUIDELINE FOR DIRECTOR CAPACITY BUILDING, PARTNERSHIPS AND GRANTS MANAGEMENT

(a) Job Purpose

The Director is responsible for coordinating all core activities in the directorate including capacity building, grant management, innovation and incubation, resource and knowledge management, partnerships and other income generation activities.

(b) Functions

The Director, Capacity Building, partnerships and Grants Management be responsible for the following key functions:

(i) Oversee and coordinate all administrative roles for the Directorate;
(ii) Supervise the coordination, formulation, implementation and review of policies, strategies and guidelines on all capacity building, partnership and grants management matters;
(iii) Lead in resource mobilisation for the Directorate;
(iv) Develop framework for engagements on Incubation and commercialization of products
(v) Manage the Institute's intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
(vi) Assess and offer training to scientists, researchers and healthcare professionals in the biomedical field.
(vii) Ensure the institution complies with all applicable laws, regulations, and funder requirements.
(viii) Develop and submit grant proposals, budgets, and reports to funding agencies, ensuring that all requirements are met and that the organization's interests are represented.
(ix) Ensure that grant-funded projects align with the organization's overall strategy;
(x) Review of Directorate budgets, allocate resources and ensure efficient use of resources;
(xi) Implement Directorate work plan, staff performance, discipline, monitoring and evaluation and reporting;
(xii) Guide on the establishment of an innovation and incubation centre linking research and industry in the health products value chain.
(xiii) Execute partnership and grant agreements.
(xiv) Guide on the establishment of an incubation centre linking research and industry in the health products value chain;
(xv) Monitor the performance of partnerships and grants.
(xvi) Provide support and guidance to institute stakeholders on entrepreneurial skills and best practices, including business development, marketing, fundraising, and product development

(xvii) Negotiate licenses for clients' IP rights, drafting license agreements, and monitoring compliance with those agreements.
(xviii) Guide the entry of KIPRE into partnerships and collaborations with other similar institutions or professional organizations locally and internationally
(xix) Facilitate KIPRE in the development and submission of proposals.
(xx) Provide support and guidance to institute stakeholders on funding opportunities and grant applications, including identifying and pursuing grant opportunities, developing grant proposals, and managing grant projects
(xxi) Provide resource and knowledge management services including accessioning of all new books, classification and cataloging of the same and keeping custody of relevant literature, information, equipment and documentation for the institute.

(c) Grading Structure and scope

The Career Guidelines establishes one (1) grade of Director, Capacity Building, Partnerships and Grants Management who will be designated and graded a follow:

DESIGNATION	KIP GRADE
Director, Capacity Building, Partnerships and Grants Management	2

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this Career Guideline:

(i) Bachelor's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Doctorate degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Evidence of at least twenty (20) publications in refereed journals

(v) Attracted research Funding of not less than Kshs 80 million
(vi) Leadership course lasting not less than four (4) weeks from a recognized institution
(vii) Membership to a professional body and in good standing where applicable;
(viii) Proficiency in Computer Applications.
(ix) Fulfil the requirements of Chapter Six of the constitution 2010;

JOB AND PERSON SPECIFICATION

DIRECTOR, CAPACITY BUILDING, PARTNERSHIPS AND GRANTS MANAGEMENT, GRADE KIP 2

(a) Job Specification

Duties and Responsibilities at this level will entail:

(i) Overseeing and coordinating all administrative roles for the Directorate;
(ii) Supervising the coordination, formulation, implementation and review of policies, strategies and guidelines on all capacity building, partnership and grants management matters;
(iii) Leading in resource mobilisation for the Directorate;
(iv) Developing framework for engagements on Incubation and commercialization of products
(v) Managing the Institute's intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
(vi) Assessing and offering training to scientists, researchers and healthcare professionals in the biomedical field.
(vii) Ensuring the institution complies with all applicable laws, regulations, and funder requirements.
(viii) Developing and submitting grant proposals, budgets, and reports to funding agencies, ensuring that all requirements are met and that the organization's interests are represented.
(ix) Ensuring that grant-funded projects align with the organization's overall strategy;
(x) Reviewing of Directorate budgets, allocate resources and ensure efficient use of resources;
(xi) Implementing Directorate work plan, staff performance, discipline, monitoring and evaluation and reporting;
(xii) Guiding on the establishment of an innovation and incubation centre linking research and industry in the health products value chain.
(xiii) Executing partnership and grant agreements.
(xiv) Guiding on the establishment of an incubation centre linking research and industry in the health products value chain;
(xv) Monitoring the performance of partnerships and grants.

(xvi) Providing support and guidance to institute stakeholders on entrepreneurial skills and best practices, including business development, marketing, fundraising, and product development
(xvii) Negotiating licenses for clients' IP rights, drafting license agreements, and monitoring compliance with those agreements.
(xviii) Guiding the entry of KIPRE into partnerships and collaborations with other similar institutions or professional organizations locally and internationally
(xix) Facilitating KIPRE in the development and submission of proposals.
(xx) Providing support and guidance to institute stakeholders on funding opportunities and grant applications, including identifying and pursuing grant opportunities, developing grant proposals, and managing grant projects;
(xxi) Providing resource and knowledge management services including accessioning of all new books, classification and cataloging of the same and keeping custody of relevant literature, information, equipment and documentation for the institute.

(b) Person Specification

For appointment to this grade a candidate must have:

(i) At least fifteen (15) years relevant work experience, five (5) years of which must have been in senior management position in the Public or Private sector;
(ii) Bachelor's Degree in any of the following disciplines: - Biomedical Sciences, Medicine and Surgery, Dentistry, Veterinary, Pharmacy, Public Health, Environmental, Conservation biology, Primatology, Anthropology or equivalent qualification from a recognized Institution.
(iii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Medicine and Surgery, Dentistry, Veterinary, Pharmacy, Public Health, Environmental, Conservation Biology, Primatology, Anthropology or equivalent qualification from a recognized Institution.
(iv) Doctorate degree in any of the following disciplines: - Biomedical Sciences, Medicine and Surgery, Dentistry, Veterinary, Pharmacy, Public Health, Environmental, Conservation Biology, Primatology, Anthropology or equivalent qualification from a recognized Institution.
(v) Evidence of at least fifteen (15) publications in refereed journals
(vi) Attracted research Funding of not less than Kshs 80 million
(vii) Leadership course lasting not less than four (4) weeks from a recognized institution
(viii) Membership to a professional body and in good standing where applicable;
(ix) Proficiency in Computer Applications.
(x) Fulfil the requirements of Chapter Six of the constitution 2010;

(c) Key Skills and Competencies

- Leadership skills.
- Communication skills.
- Mentorship Skills.
- Problem solving.
- Strategic thinking.
- Conflict management.
- Interpersonal skills.
- Organizational skills.
- Negotiation skills.
- Team building

2.5 CAREER GUIDELINE FOR DIRECTOR CORPORATE SERVICES

(a) Job Purpose

The Director is responsible for coordinating all core activities in the directorate including of Human Resource Management & Development, Administration, Corporate Communication and Information Communications Technology.

(b) Functions

The Director, Corporate Services will be responsible for the following key functions:

(i) Coordinate the formulation, implementation and review of policies, strategies, plans, procedures and manuals for Information Communication Technology, Human Resource & Administration and Corporate Communications;
(ii) Coordinate human resource training and development programmes;
(iii) Oversee development and implementation of performance management system;
(iv) Ensure compliance with Human Resource and Administration statutory and regulatory requirements;
(v) Coordinate and oversee the implementation of the recommendation of work environment surveys;
(vi) Provide systems and operational procedures including Financial management information, internal controls and accounting;
(vii) Manage and control the Institute's finances; and advice Chief Executive Officer appropriately;
(viii) Participate in development and implementation of the Institute's short- and long-term operation plans;
(ix) Ensure compliance with internal and external reporting requirements including accurate production of financial and non-financial data;
(x) Plan and ensure efficient and effective use of the Institute's finances;
(xi) Oversee development and implementation of finance and accounts policies, strategies, standards and procedures;

(xii) Formulate the financial policy of the Institute to ensure optimal utilization of funds, and rational potential uses of those funds against the cost of alternative potential sources;
(xiii) Maintain and constantly review the Institute's revenue and expenditure streams;
(xiv) Prepare timely and accurate financial reports in compliance with the law and statutory and regulatory requirements;
(xv) Monitor creditors and ensure that payments are processed in good time;
(xvi) Ensure financial records are kept according to laid down financial policies and standards;
(xvii) Ensure timely submission of statutory reports to the relevant authorities;
(xviii) Oversee management of outsourced administrative services;
(xix) Coordinate provision of ICT services;
(xx) Coordinate Corporate Communication services and Customer Care;
(xxi) Ensure effective branding and visibility of the Institute;
(xxii) Coordinate the Institutes Social Responsibilities (CSR) of the Institute;
(xxiii) Oversee library services;
(xxiv) Oversee the records management;
(xxv) Implement the Board's strategic objectives on Human Resource Management and Administration;
(xxvi) Develop and manage staff welfare schemes;
(xxvii) Establish and maintain a catalogue of all KIPRE assets and properties;
(xxviii) Advice the Institute on all Information Communication Technology matters;
(xxix) Formulate, implement and maintain information technology policies, procedures and systems;
(xxx) Provide strategic leadership, advice and direction in the areas of Corporate Communication, Customer Care, Media Relations and Management, Crisis Communication, Customer Service and Experience, Service delivery, CSR among others; and
(xxxi) Provide advisory and support to other Directorate/Divisions/Sections on development and implementation of communication programmes.

(c) Grading Structure and scope

The Career Guidelines establishes one (1) grade of Director, Corporate Services who will be designated and graded a follow:

S/No	DESIGNATION	KIP GRADE
1.	Director, Corporate Services	2

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this Career Guideline:

(i) Bachelors degree in any of the following disciplines: - Economics, Human Resource Management, Business Management/Administration, Public Administration, ICT, Corporate Communications, Social Sciences or equivalent qualification from a recognized institution;
(ii) Masters degree in any of the following disciplines: - Business Administration, Public Administration, Economics, Human Resource Management, ICT, Corporate Communications, Social Sciences or equivalent qualification from a recognized institution;
(iii) Leadership course lasting not less than four (4) weeks from a recognized institution
(iv) Membership to a professional body and in good standing where applicable;
(v) Proficiency in Computer Applications.
(vi) Fulfil the requirements of Chapter Six (6) of the constitution 2010.

JOB AND PERSON SPECIFICATION

DIRECTOR, CORPORATE SERVICES, GRADE KIP 2

(a) Job Specification

Duties and Responsibilities at this level will entail:

(i) Coordinating the formulation, implementation and review of policies, strategies, plans, procedures and manuals for Information Communication Technology, Human Resource & Administration and Corporate Communications;
(ii) Coordinating human resource training and development programmes;
(iii) Overseeing development and implementation of performance management system;
(iv) Ensuring compliance with Human Resource and Administration statutory and regulatory requirements;
(v) Coordinating and overseeing the implementation of the recommendation of work environment surveys;
(vi) Providing systems and operational procedures including Financial management information, internal controls and accounting;
(vii) Managing and controlling the Institute's finances; and advice Chief Executive Officer appropriately;
(viii) Participating in development and implementation of the Institute's short- and long-term operation plans;
(ix) Ensuring compliance with internal and external reporting requirements including accurate production of financial and non-financial data;
(x) Planning and ensuring efficient and effective use of the Institute's finances;

(xi) Overseeing development and implementation of finance and accounts policies, strategies, standards and procedures;
(xii) Formulating the financial policy of the Institute to ensure optimal utilization of funds, and rational potential uses of those funds against the cost of alternative potential sources;

(xxix) Formulating, implementing and maintaining information technology policies, procedures and systems;
(xxx) Providing strategic leadership, advice and direction in the areas of Corporate Communication, Customer Care, Media Relations and Management, Crisis Communication, Customer Service and Experience, Service delivery, CSR among others; and
(xxxi) Providing advisory and support to other Directorates/Divisions/Sections on development and implementation of communication programmes.

(b) Person Specification

For appointment to this grade a candidate must have:

(i) At least fifteen (15) years relevant work experience five (5) of which have been in a senior management;
(ii) Bachelors degree in any of the following disciplines: - Economics, Human Resource Management, Business Management/Administration, Public

Administration, ICT, Corporate Communications, Social Sciences or equivalent qualification from a recognized institution;

(iii) Masters degree in any of the following disciplines: - Business Administration, Public Administration, Economics, Human Resource Management, ICT, Corporate Communications, Social Sciences or equivalent qualification from a recognized institution;

(iv) Leadership course lasting not less than four (4) weeks from a recognized institution

(v) Membership to a professional body and in good standing where applicable;

(vi) Proficiency in Computer Applications.

(vii) Fulfil the requirements of Chapter Six (6) of the constitution 2010.

(c) Key Skills and Competencies

- Leadership skills.
- Communication skills.
- Mentorship Skills.
- Problem solving.
- Strategic thinking.
- Conflict management.
- Interpersonal skills.
- Organizational skills.
- Negotiation skills.
- Team building

SECRETARY STATE CORPORATIONS ADVISORY COMMITTEE P.O. BOX 45 - 00200 NAIROBI

2.6 CAREER GUIDELINE FOR DEPUTY DIRECTOR, INFECTIOUS DISEASES AND ONE HEALTH

(a) Job Purpose

The Deputy Director is responsible for administrative management and coordination of research activities, mentoring junior staff, and contributing to the development of research programs at the Infectious and One Health Division while reporting to the Director of Research and Product Development.

(b) Functions

The Deputy Director, Infectious Disease and One Health Division will responsible for the following key functions:

(i) Oversee and coordinate all administrative roles for the Division;
(ii) Coordinate, formulate, implement and review policies, strategies and guidelines on Infectious Diseases and One Health matters;
(iii) Lead in resource mobilisation for the Division;
(iv) Carry out basic, pre-clinical, translational research in infectious and emerging diseases using non-human primates (NHPs) and other experimental animals;
(v) Supervise research in Virology, Microbiology, Parasitology and Vector Biology; Immunology and Vaccine Development; Zoonotic Biosurveillance and Disease Ecology; and Climate & Health
(vi) Coordinate surveys of infections in human-livestock-wildlife-environment interface that will contribute to early warning systems for the presence of emerging and re-emerging diseases and for policy formulation;
(vii) Guide scientific findings through publications, conferences, seminars and workshops;
(viii) Support identification of active molecules and development of vaccines, diagnostics and drugs for viral, bacterial, mycology and parasites;
(ix) Manage a reference diagnostic lab (supplementing government efforts), specifically for emerging and re-emerging infectious diseases while contributing to public health communication and outreach efforts;
(x) Supervise the collection of drug-resistant bacteria from different sources, locally and globally, which will be used as a priority list in the isolation of bacterio-phages (phages) for Antimicrobial Resistance Intervention/management.
(xi) Supervise the development and characterization of both non-human primate and other experimental animal models for infectious and for emerging and re-emerging diseases in Kenya;
(xii) Oversee national non-human primate database on census, research affiliations, and geo-spatial distribution of non-human and related zoonotic diseases;
(xiii) Review of Division budgets, allocate resources and ensure efficient use of resources;

(xiv) Implement Division work plan, staff performance, discipline, monitoring and evaluation and reporting;
(xv) Oversee reproductive disease surveillance in Kenya to obtain data on the current trends of emerging and re-emerging infectious diseases and current intervention strategies;
(xvi) Manage research data on emerging and re-emerging infectious to inform policy;
(xvii) Supervise capacity building in the area of emerging and re-emerging infectious;
(xviii) Formulate research fundraising strategies;
(xix) Guide on disseminating scientific findings through publications, conferences, seminars and workshops.
(xx) Supervise studies on mechanisms of infection/pathogenicity of different diseases in non-human primate animal models.
(xxi) Guide on Identification of active molecules and development of vaccines and molecules for viral, bacterial, mycology and parasites.

(c) Grading Structure and Scope

The Career Guideline establishes one (1) grade of Deputy Director, Infectious Diseases and One Health Division who will be designated and graded as follows:

S/No	DESIGNATION	KIP GRADE
1.	Deputy Director, Infectious Diseases and One Health	3

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this career guideline:

(i) Bachelor's Degree in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine,

Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iv) Membership to a professional body and in good standing where applicable;
(v) Evidence of at least fifteen (15) publications in refereed journals;
(vi) Leadership course lasting not less than four (4) weeks from a recognized institution
(vii) Proficiency in Computer Applications.
(viii) Fulfil the requirements of Chapter Six of the constitution 2010.

JOB AND PERSON SPECIFICATIONS

DEPUTY DIRECTOR, INFECTIOUS DISEASES AND ONE HEALTH - JOB GRADE KIP 3

(a) Job Specification

2.7 CAREER GUIDELINE FOR DEPUTY DIRECTOR, REPRODUCTIVE HEALTH AND BIOLOGY

(a) Job Purpose

The Deputy Director is responsible for administrative management and coordination of research activities, mentoring junior staff, and contributing to the development of research programs at the Reproductive Health and Biology Division while reporting to the Director of Research and Product Development.

(b) Functions

The Deputy Director Reproductive Health and Biology Division will be responsible for the following key.

(i) Oversee and coordinate all administrative roles for the Division;
(ii) Coordinate, formulate, implement and review policies, strategies and guidelines on reproductive health and biology;
(iii) Lead in resource mobilisation for the Division;
(iv) Oversee basic, pre-clinical, translational research in reproductive health and biology using non-human primates (NHPs) and other experimental animals;
(v) Coordinate the development and characterization of both non-human primate and other experimental animal models for priority reproductive health diseases in Kenya;
(vi) Supervise assisted reproductive technology programs
(vii) Coordinate provision of endocrinology services
(viii) Support the development of strategies for the management of the reproductive health research programs, knowledge generation and capacity building programs;
(ix) Supervise surveillance of reproductive disease in Kenya to obtain data on the current trends of reproductive diseases and current intervention strategies;
(x) Guide research data for use on reproductive health to inform policy;
(xi) Guide in the development of capacity building in the area of reproductive health and biology;
(xii) Oversee research fundraising activities;
(xiii) Review Division budgets, allocate resources and ensure efficient use of resources;
(xiv) Implement Division work plans, staff performance, discipline, monitoring and evaluation and reporting;
(xv) (xi)Guide dissemination of scientific findings through publications, conferences, seminars and workshops.
(xvi) Supervise epidemiological studies on sexually transmitted infections including drug resistance microbes;

(xvii) Supervise the developments of innovative treatments for reproductive diseases and disorders
(xviii) Supervise pre-clinical drug trials for endometriosis, subfertility/infertility and other reproductive diseases and disorders.
(xix) Guide studies on fetal development and pregnancy loss.
(xx) Supervise studies on reproductive cancers
(xxi) Oversee research on metabolic disorders associated with reproductive system

(c) Grading Structure and Scope

The Career Guideline establishes one (1) grade of Deputy Director, Reproductive Health and Biology Division who will be designated and graded as follows:

S/No	DESIGNATION	KIP GRADE
1.	Deputy Director, Reproductive Health and Biology	3

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this career guideline:

(i) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Membership to a professional body and in good standing where applicable;
(v) Evidence of at least fifteen (15) publications in refereed journals;
(vi) Leadership course lasting not less than four (4) weeks from a recognized institution

(vii) Proficiency in Computer Applications.
(viii) Fulfil the requirements of Chapter Six of the constitution 2010.

JOB AND PERSON SPECIFICATIONS

(ii) Coordinating, formulating, implementing and reviewing policies, strategies and guidelines on reproductive health and biology;
(iii) Leading in resource mobilisation for the Division;
(iv) Overseeing basic, pre-clinical, translational research in reproductive health and biology using non-human primates (NHPs) and other experimental animals;
(v) Coordinating the development and characterization of both non-human primate and other experimental animal models for priority reproductive health diseases in Kenya;
(vi) Supervising assisted reproductive technology programs
(vii) Coordinating provision of endocrinology services
(viii) Supporting the development of strategies for the management of the reproductive health research programs, knowledge generation and capacity building programs;
(ix) Supervising surveillance of reproductive disease in Kenya to obtain data on the current trends of reproductive diseases and current intervention strategies;
(x) Guiding research data for use on reproductive health to inform policy;
(xi) Guiding in the development of capacity building in the area of reproductive health and biology;
(xii) Overseeing research fundraising activities;
(xiii) Reviewing Division budgets, allocate resources and ensure efficient use of resources;
(xiv) Implementing Division work plans, staff performance, discipline, monitoring and evaluation and reporting;
(xv) Guiding dissemination of scientific findings through publications, conferences, seminars and workshops.
(xvi) Supervising epidemiological studies on sexually transmitted infections including drug resistance microbes;
(xvii) Supervising the developments of innovative treatments for reproductive diseases and disorders
(xviii) Supervising pre-clinical drug trials for endometriosis, subfertility/infertility and other reproductive diseases and disorders.
(xix) Guiding studies on fetal development and pregnancy loss.

(xx) Supervising studies on reproductive cancers
(xxi) Overseeing research on metabolic disorders associated reproductive system

(b) Person Specifications

For appointment to this grade, an officer must have:

(i) At least twelve (12) years relevant work experience, five (5) years of which must have been in senior management position in the Public or Private sector;
(ii) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(v) Membership to a professional body and in good standing where applicable;
(vi) Evidence of at least fifteen (15) publications in refereed journals;
(vii) Leadership course lasting not less than four (4) weeks from a recognized institution
(viii) Proficiency in Computer Applications.
(ix) Fulfil the requirements of Chapter Six of the constitution 2010.

(c) Key Skills and Competencies

- Leadership skills.
- Communication skills.
- Mentorship Skills.
- Problem solving.
- Conflict management.
- Interpersonal skills.
- Organizational skills.
- Negotiation skills.
- Team building.

2.8 CAREER GUIDELINE FOR DEPUTY DIRECTOR, KENYA SNAKEBITE RESEARCH AND INTERVENTION

(a) Job Purpose

The Deputy Director is responsible for administrative management and coordination of research activities, mentoring junior staff, and contributing to the development of research programs at the Kenya Snakebite Research and Intervention Division while reporting to the Director of Research and Product Development.

(b) Functions

The Deputy Director Kenya Snakebite Research and Intervention Division will be responsible for the following key functions.

(i) Oversee and coordinate all administrative roles for the Division;
(ii) Coordinate, formulate, implement and review policies, strategies and guidelines on venomous bites, venom standards, antivenom research and development, venomous animals and insects biology and conservation, snakebite epidemiology, public health and clinical management;
(iii) Lead in resource mobilisation for the Division;
(iv) Maintain and update sub-national and national database on snakebite epidemiology and distribution of snakes;
(v) Assess the socioeconomic burden of snakebite at the community, health facility, county and national level;
(vi) Oversee disease modelling to predict risk maps of venomous bites and assess the effectiveness of interventions;
(vii) Prepare Division budgets, allocate resources and ensure efficient use of resources;
(viii) Implement interventions to ensure timely access to antivenom and treatment;
(ix) Provide information and technical assistance on diagnosis, treatment and management of snakebite envenomation;
(x) Conduct clinical studies on snakebite pathophysiology and pathology and other venomous bites;
(xi) Conduct pre-clinical and clinical trials of antivenoms and other therapeutics for venomous bites;
(xii) Support venomous bites clinical treatment and trial centres;
(xiii) Develop and implement evidence-based treatment protocols for venomous bites management;
(xiv) Participate in development of training curricula and materials on matters pertaining venomous bites;
(xv) Implement Division work plans, staff performance, discipline, monitoring and evaluation and reporting;
(xvi) Develop new antivenoms and other therapies to improve the efficacy, safety and affordability;

(xvii) Analyse clinical data on venomous bites;
(xviii) Prepare Division budgets, allocate resources and ensure efficient use of resources;
(xix) Prepare grant proposals to secure funding;
(xx) Partner with relevant stakeholders on clinical sciences of venomous bites.
(xxi) Execute outreach programs on venomous bites and related matters;
(xxii) Implement interventions to ensure timely access to antivenom and treatment;
(xxiii) Facilitate preclinical efficacy and quality control of antivenoms, and other therapeutics;
(xxiv) Develop new antivenoms and other therapies to improve the efficacy, safety and affordability;
(xxv) Conduct clinical studies on snakebite pathophysiology and pathology and other venomous bites;
(xxvi) Conduct pre-clinical and clinical trials of antivenoms and other therapeutics for venomous bites;
(xxvii) Oversee compliance with regulatory requirements and industry standards for product development;
(xxviii) Provide information to guide diagnosis, treatment and management of snakebite envenomation;
(xxix) Manage and support venomous bites clinical treatment and trial centres;
(xxx) Conduct research on snake biology, other venomous animals and insects and venom;
(xxxi) Coordinate conservation strategy to protect endangered snakes and other venomous animals and insects;
(xxxii) Coordinate social mobilisation, behavioral change, training and capacity building on all aspects of venomous bites;
(xxxiii) Conduct conferences, seminars and workshops to disseminate research findings related to venomous bites;
(xxxiv) Partner with relevant stakeholders on matters venomous bites;

(c) Grading Structure and Scope

The Career Guideline establishes one (1) grade of Deputy Director, Kenya Snakebite Research and Intervention Division who will be designated and graded as follows:

S/No	DESIGNATION	KIP GRADE
1.	Deputy Director, Kenya Snakebite Research and Intervention Division	3

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this career guideline:

(i) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iii) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iv) Membership to a professional body and in good standing where applicable;

(v) Evidence of at least fifteen (15) publications in refereed journals;

(vi) Leadership course lasting not less than four (4) weeks from a recognized institution

(vii) Proficiency in Computer Applications.

(viii) Fulfil the requirements of Chapter Six of the constitution 2010.

JOB AND PERSON SPECIFICATIONS

DEPUTY DIRECTOR, KENYA SNAKEBITE RESEARCH AND INTERVENTION DIVISION - JOB GRADE KIP 3

(a) Job Specifications

Duties and responsibilities at this level will entail:

(i) Overseeing and coordinating all administrative roles for the Division;

(ii) Coordinating, formulating, implementing and reviewing policies, strategies and guidelines on venomous bites, venom standards, antivenom research and development, venomous animals and insects biology and conservation, snakebite epidemiology, public health and clinical management;

(iii) Leading in resource mobilisation for the Division;

(iv) Maintaining and updating sub-national and national database on snakebite epidemiology and distribution of snakes;

(v) Assessing the socioeconomic burden of snakebite at the community, health facility, county and national level;

(vi) (Overseeing disease modelling to predict risk maps of venomous bites and assess the effectiveness of interventions;
(vii) Preparing Division budgets, allocate resources and ensure efficient use of resources;
(viii) Assisting in formulation, implementation and reviewing policies, strategies and guidelines on snakebite clinical management;
(ix) Implementing interventions to ensure timely access to antivenom and treatment;
(x) Providing information and technical assistance on diagnosis, treatment and management of snakebite envenomation;
(xi) Conducting clinical studies on snakebite pathophysiology and pathology and other venomous bites;
(xii) Conducting pre-clinical and clinical trials of antivenoms and other therapeutics for venomous bites;
(xiii) Supporting venomous bites clinical treatment and trial centres;
(xiv) Developing and implementing evidence-based treatment protocols for venomous bites management;
(xv) Participating in Development of training curricula and materials on matters pertaining venomous bites;
(xvi) Implementing Division work plans, staff performance, discipline, monitoring and evaluation and reporting;
(xvii) Developing new antivenoms and other therapies to improve the efficacy, safety and affordability;
(xviii) Analyzing clinical data on venomous bites;
(xix) Preparing Division budgets, allocate resources and ensure efficient use of resources;
(xx) Preparing grant proposals to secure funding;
(xxi) Partnering with relevant stakeholders on clinical sciences of venomous bites.
(xxii) Executing outreach programs on venomous bites and related matters;
(xxiii) Implementing interventions to ensure timely access to antivenom and treatment;
(xxiv) Facilitating preclinical efficacy and quality control of antivenoms, and other therapeutics;
(xxv) Developing new antivenoms and other therapies to improve the efficacy, safety and affordability;
(xxvi) Conducting clinical studies on snakebite pathophysiology and pathology and other venomous bites;
(xxvii) Conducting pre-clinical and clinical trials of antivenoms and other therapeutics for venomous bites;
(xxviii) Overseeing compliance with regulatory requirements and industry standards for product development;
(xxix) Providing information to guide diagnosis, treatment and management of snakebite envenomation;
(xxx) Managing and supporting venomous bites clinical treatment and trial centres;

(xxxi) Conducting research on snake biology, other venomous animals and insects and venom;
(xxxii) Coordinating conservation strategy to protect endangered snakes and other venomous animals and insects;
(xxxiii) Coordinating social mobilization, behavioral change, training and capacity building on all aspects of venomous bites;
(xxxiv) Conducting conferences, seminars and workshops to disseminate research findings related to venomous bites;
(xxxv) Partnering with relevant stakeholders on matters venomous bites;

(b) Person Specifications

For appointment to this grade, an officer must have:

(i) At least twelve (12) years relevant work experience, five (5) years of which must have been in senior management position in the Public or Private sector;
(ii) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(v) Membership to a professional body and in good standing where applicable;
(vi) Evidence of at least fifteen (15) publications in refereed journals;
(vii) Leadership course lasting not less than four (4) weeks from a recognized institution
(viii) Proficiency in Computer Applications.
(ix) Fulfil the requirements of Chapter Six of the constitution 2010.

(c) Key Skills and Competencies

- Leadership skills.
- Communication skills.
- Mentorship Skills.
- Problem solving.

- Conflict management.
- Interpersonal skills.
- Organizational skills.
- Negotiation skills.
- Team building.

2.9 CAREER GUIDELINE FOR DEPUTY DIRECTOR, NON-COMMUNICABLE DISEASES

(a) Job Purpose

The Deputy Director is responsible for administrative management and coordination of research activities, mentoring junior staff, and contributing to the development of research programs at the Non-Communicable Diseases Division while reporting to the Director of Research and Product Development.

(b) Functions

The Deputy Director, Non-Communicable Diseases Division will be responsible for the following key functions:

(i) Oversee and coordinate all administrative roles for the Division;
(ii) Coordinate, formulate, implement and review policies, strategies and guidelines on Non-Communicable diseases;
(iii) Lead in resource mobilisation for the Division;
(iv) Conduct basic, pre-clinical, translational research in non-communicable diseases for intervention and prevention strategies using non-human primates (NHPs) as models for the diseases;
(v) Undertake research in Neurosciences, Cancer, Genetic, Metabolic and chronic respiratory diseases, Drug discovery, development and delivery, Cardiovascular, regenerative, exercise and sports sciences;
(vi) Implement Division work plans, staff performance, discipline, monitoring and evaluation and reporting;
(vii) Prepare Division budgets, allocate resources and ensure efficient use of resources;
(viii) Develop and characterize both non-human primate and other experimental animal models for priority non-communicable diseases in Kenya;
(ix) Support the development of strategies for the management and prevention of the non-communicable diseases research programs, knowledge generation and capacity building programs;
(x) Conduct non-communicable disease surveillance in Kenya to obtain data on the current trends of non-communicable diseases and current intervention strategies;
(xi) Provide research data on non-communicable disease to inform policy;
(xii) Conduct capacity building in the area of non-communicable diseases in liaison with other Government agencies & programs;
(xiii) Participate in research fundraising activities; and
(xiv) Disseminate scientific findings through publications, conferences, seminars and workshops.

(c) Grading Structure and Scope

The Career Guideline establishes one (1) grade of Deputy Director, Non-Communicable Diseases who will be designated and graded as follows:

S/No	DESIGNATION	KIP GRADE
1.	Deputy Director, Non-Communicable Diseases	3

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this career guideline:

(i) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iii) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iv) Membership to a professional body and in good standing where applicable;

(v) Evidence of at least fifteen (15) publications in refereed journals;

(vi) Leadership course lasting not less than four (4) weeks from a recognized institution

(vii) Proficiency in Computer Applications.

(viii) Fulfil the requirements of Chapter Six of the constitution 2010.

JOB AND PERSON SPECIFICATIONS

DEPUTY DIRECTOR NON-COMMUNICABLE DISEASES - JOB GRADE KIP 3

(a) Job Specifications

Duties and responsibilities at this level will entail:

(i) Overseeing and coordinating all administrative roles for the Division;
(ii) Coordinating, formulating, implementing and reviewing policies, strategies and guidelines on Non-Communicable diseases;
(iii) Leading in resource mobilisation for the Division;
(iv) Conducting basic, pre-clinical, translational research in non-communicable diseases for intervention and prevention strategies using non-human primates (NHPs) as models for the diseases;
(v) Undertaking research in Neurosciences, Cancer, Genetic, Metabolic and chronic respiratory diseases, Drug discovery, development and delivery, Cardiovascular, regenerative, exercise and sports sciences;
(vi) Implementing Division work plans, staff performance, discipline, monitoring and evaluation and reporting;
(vii) Preparing Division budgets, allocate resources and ensure efficient use of resources;
(viii) Developing and characterizing both non-human primate and other experimental animal models for priority non-communicable diseases in Kenya;
(ix) Supporting the development of strategies for the management and prevention of the non-communicable diseases research programs, knowledge generation and capacity building programs;
(x) Conducting non-communicable disease surveillance in Kenya to obtain data on the current trends of non-communicable diseases and current intervention strategies;
(xi) Providing research data on non-communicable disease to inform policy;
(xii) Conducting capacity building in the area of non-communicable diseases in liaison with other Government agencies & programs;

PROSECRETARY STATE CORPORATIONS ADVISORY COMMITTEE P.O. BOX 62445 - 00200 NAIROBI

2.10 CAREER GUIDELINE FOR DEPUTY DIRECTOR, EVOLUTIONARY ECOLOGY, CONSERVATION AND ECOSYSTEM HEALTH DIVISION

(a) Job Purpose

The Deputy Director is responsible for administrative management and coordination of research activities, mentoring junior staff, and contributing to the development of research programs at the Evolutionary ecology, conservation and ecosystem health Division while reporting to the Director of Research and Product Development.

(b) Functions

The Deputy Director Evolutionary Ecology, Conservation and Ecosystem Health Division will be responsible for the following key Functions.

(i) Oversee and coordinate all administrative roles for the Division;
(ii) Coordinate, formulate, implement and review policies, strategies and guidelines on evolutionary ecology, conservation & ecosystem health matters;
(iii) Lead in resource mobilisation for the Division;
(iv) Undertake field research on primatology and wildlife ecology with focus on species behavioral ecology (Nutrition, Sociobiology & endocrinology), evolution, conservation and management;
(v) Undertake baseline surveys on non-human primates and other biodiversity for the purpose of documentation as well as monitoring & evaluation of efficacy of our conservation strategies;
(vi) Implement Division work plans, staff performance, discipline, monitoring and evaluation and reporting;
(vii) Prepare Division budgets, allocate resources and ensure efficient use of resources;
(viii) Establish and maintain a national non-human primate database on their diversity (taxonomy), population status, and geo-spatial distribution for effective prioritization of research, conservation and management;
(ix) Undertake in-situ health monitoring of primate populations and other wildlife and support the zoonosis surveillance activities for purposes of developing early warning systems and preparedness to respond to potential disease outbreaks and threats to endemic and critically endangered primate and other species;
(x) Contribute data to inform policy on matters of primate conservation & management including mitigation of human-nonhuman primate conflicts or interaction threats;
(xi) Monitor the impacts of climate change on biodiversity (including primates and other species) and local communities and develop and implement sustainable conservation initiatives or climate actions to promote climate change response in terms of mitigation, adaptation and resilience;

(xii) Undertake research and monitoring of human-nonhuman primates-wildlife interactions and associated impacts to local communities and species themselves to promote informed risks mitigation, minimize socio-economic losses (from crop raiding, livestock depredation, and loss of life) and potential risk of zoonotic diseases;

(xiii) Undertake animal capture, invasive sample collection, or translocation for purpose of research or populations or species conservation and management

(xiv) Offer behavioral expertise to biomedical programs undertaking captive behavioral monitoring or for captive behavioral welfare advice under the directorate of Animal Sciences, Welfare and Ethics in effort to support institutional compliance with animal welfare and ethical guidelines in captivity.

(xv) Implement Division work plans, staff performance, discipline, monitoring and evaluation and reporting;

(xvi) Prepare Division budgets, allocate resources and ensure efficient use of resources;

(xvii) Provide technical advice based on in-situ behavioral studies and monitoring of primates on ideal enrichment requirements as well as wise and ethical use of problem animals for research to improve human health;

(xviii) Enhance training and capacity building in the field of primatology and biodiversity, support community pro-conservation alternative livelihoods and conduct outreach programs on environment, primate conservation education, biodiversity and climate change;

(xix) Provide guidance and institutional support in establishment and management of field site research stations to support both Sectional and institutional field research on conservation and zoonosis agenda;

(xx) Undertake anthropological (including ethno-primatology and ethnobotany) studies that inform primates and other wildlife conservation, ecosystem health and public health;

(xxi) Disseminate scientific findings through publications, conferences, seminars and workshops.

(c) Grading Structure and Scope

The Career Guideline establishes one (1) grade of Deputy Director, Evolutionary Ecology, Conservation and Ecosystem Health Division who will be designated and graded as follows:

S/No	DESIGNATION	KIP GRADE
1.	Deputy Director, Evolutionary Ecology, Conservation and Ecosystem Health Division	3

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this career guideline:

(i) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Membership to a professional body and in good standing where applicable;
(v) Evidence of at least fifteen (15) publications in refereed journals;
(vi) Leadership course lasting not less than four (4) weeks from a recognized institution
(vii) Proficiency in Computer Applications.
(viii) Fulfil the requirements of Chapter Six of the constitution 2010.

JOB AND PERSON SPECIFICATIONS

DEPUTY DIRECTOR, EVOLUTIONARY ECOLOGY, CONSERVATION AND ECOSYSTEM HEALTH DIVISION - JOB GRADE KIP 3

(a) Job Specification

Duties and responsibilities at this level will entail:

(i) Overseeing and coordinating all administrative roles for the Division;
(ii) Coordinating, formulating, implementing and reviewing policies, strategies and guidelines on evolutionary ecology, conservation & ecosystem health matters;
(iii) Leading in resource mobilisation for the Division;
(iv) Undertaking field research on primatology and wildlife ecology with focus on species behavioral ecology (Nutrition, Sociobiology & endocrinology), evolution, conservation and management;

(v) Undertaking baseline surveys on non-human primates and other biodiversity for the purpose of documentation as well as monitoring & evaluation of efficacy of our conservation strategies;

(vi) Establishing and maintaining a national non-human primate database on their diversity (taxonomy), population status, and geo-spatial distribution for effective prioritization of research, conservation and management;

(vii) Undertaking in-situ health monitoring of primate populations and other wildlife and support the zoonosis surveillance activities for purposes of developing early warning systems and preparedness to respond to potential disease outbreaks and threats to endemic and critically endangered primate and other species;

(viii) Contributing data to inform policy on matters of primate conservation & management including mitigation of human-nonhuman primate conflicts or interaction threats;

(ix) Monitoring the impacts of climate change on biodiversity (including primates and other species) and local communities and develop and implement sustainable conservation initiatives or climate actions to promote climate change response in terms of mitigation, adaptation and resilience;

(x) Undertaking research and monitoring of human-nonhuman primates-wildlife interactions and associated impacts to local communities and species themselves to promote informed risks mitigation, minimize socio-economic losses (from crop raiding, livestock depredation, and loss of life) and potential risk of zoonotic diseases;

(xi) Undertaking animal capture, invasive sample collection, or translocation for purpose of research or populations or species conservation and management

(xii) Offering behavioral expertise to biomedical programs undertaking captive behavioral monitoring or for captive behavioral welfare advice under the directorate of Animal Sciences, Welfare and Ethics in effort to support institutional compliance with animal welfare and ethical guidelines in captivity.

(xiii) Implementing Division work plans, staff performance, discipline, monitoring and evaluation and reporting;

(xiv) Preparing Division budgets, allocate resources and ensure efficient use of resources;

(xv) Providing technical advice based on in-situ behavioral studies and monitoring of primates on ideal enrichment requirements as well as wise and ethical use of problem animals for research to improve human health;

(xvi) Enhancing training and capacity building in the field of primatology and biodiversity, support community pro-conservation alternative livelihoods and conduct outreach programs on environment, primate conservation education, biodiversity and climate change;

(xvii) Providing guidance and institutional support in establishment and management of field site research stations to support both Sectional and institutional field research on conservation and zoonosis agenda;
(xviii) Undertaking anthropological (including ethno-primatology and ethnobotany) studies that inform primates and other wildlife conservation, ecosystem health and public health;
(xix) Disseminating scientific findings through publications, conferences, seminars and workshops.

(b) Person Specification

For appointment to this grade, an officer must have:

(i) At least twelve (12) years relevant work experience, five (5) years of which must have been in senior management position in the Public or Private sector;
(ii) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(v) Membership to a professional body and in good standing where applicable;
(vi) Evidence of at least fifteen (15) publications in refereed journals;
(vii) Leadership course lasting not less than four (4) weeks from a recognized institution
(viii) Proficiency in Computer Applications.
(ix) Fulfil the requirements of Chapter Six of the constitution 2010.

(c) Key Skills and Competence

- Leadership skills.
- Communication skills.

- Mentorship Skills.
- Problem solving.
- Conflict management.
- Interpersonal skills.

2.11 CAREER GUIDELINE FOR DEPUTY DIRECTOR, VETERINARY CLINICAL AND DIAGNOSTICS SERVICES

(a) Job Purpose

The Deputy Director is responsible for administrative management and coordination of veterinary, clinical, diagnostic and pathology services, mentoring junior staff, and contributing to the development and provision of quality and relevant programs and services at the Veterinary, Clinical and Diagnostic Division while reporting to the Director of Animal Science, Welfare and Ethics.

(b) Functions

(i) Oversee and coordinate all administrative roles for the Division;
(ii) Coordinate, formulate, implement and review policies, strategies and guidelines on veterinary, clinical, diagnostic and pathology services;
(iii) Lead in resource mobilisation for the Division;
(iv) Develop and implement policies and procedures for laboratory animal clinical care, safety and quality control;
(v) Ensure compliance with national, regional and international regulations for animal clinical care and welfare;
(vi) Maintain and update accurate clinical database on laboratory animals treatment, surgeries, tests and health histories;
(vii) Oversee the ordering and maintenance of animal medical supplies and equipment;
(viii) Conduct routine and experimental surgeries and related procedures;
(ix) Provide training and capacity building to technicians, veterinarians, and other researchers on laboratory animal medicine, veterinary medicine and surgery and diagnostics;
(x) Ensure advances in laboratory animal medicine, veterinary medicine and surgery and related technologies and diagnostics;
(xi) Implement Division work plan, staff performance, discipline, monitoring and evaluation and reporting;
(xii) Prepare Division budgets, allocate resources and ensure efficient use of resources;
(xiii) Execute outreach programs in laboratory animal medicine, surgery and diagnostics;
(xiv) Oversee collaborative and contract research on laboratory animals;
(xv) Supervise the running of the Diagnostic laboratory;
(xvi) Oversee necropsy and histopathology to researchers and the animal facility.

(xvii) Train, supervise and maintain proficiency and develop clinical, pathological and research diagnostic skills;

(c) Grading Structure and Scope

The Career Guideline establishes one (1) grade of Deputy Director, Veterinary Clinical and Diagnostics Services who will be designated and graded as follows:

S/No	DESIGNATION	KIP GRADE
1.	Deputy Director, Veterinary Clinical and Diagnostics Services	3

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this career guideline:

(i) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iii) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iv) Membership to a professional body and in good standing where applicable;

(v) Evidence of at least fifteen (15) publications in refereed journals;

(vi) Leadership course lasting not less than four (4) weeks from a recognized institution

(vii) Proficiency in Computer Applications.

(viii) Fulfil the requirements of Chapter Six of the constitution 2010.

JOB AND PERSON SPECIFICATIONS

DEPUTY DIRECTOR VETERINARY CLINICAL AND DIAGNOSTICS SERVICES - JOB GRADE KIP 3

(a) Job Specifications

Duties and responsibilities at this level will entail:

(i) Overseeing and coordinating all administrative roles for the Division;
(ii) Coordinating, formulating, implementing and reviewing policies, strategies and guidelines on veterinary, clinical, diagnostic and pathology services;
(iii) Leading in resource mobilisation for the Division;
(iv) Developing and implementing policies and procedures for laboratory animal clinical care, safety and quality control;
(v) Ensuring compliance with national, regional and international regulations for animal clinical care and welfare;
(vi) Maintaining and updating accurate clinical database on laboratory animals treatment, surgeries, tests and health histories;
(vii) Overseeing the ordering and maintenance of animal medical supplies and equipment;
(viii) Conducting routine and experimental surgeries and related procedures;
(ix) Providing training and capacity building to technicians, veterinarians, and other researchers on laboratory animal medicine, veterinary medicine and surgery and diagnostics;
(x) Ensuring advances in laboratory animal medicine, veterinary medicine and surgery and related technologies and diagnostics;
(xi) Implementing Division work plan, staff performance, discipline, monitoring and evaluation and reporting;
(xii) Preparing Division budgets, allocate resources and ensure efficient use of resources;
(xiii) Executing outreach programs in laboratory animal medicine, surgery and diagnostics;
(xiv) Overseeing collaborative and contract research on laboratory animals;
(xv) Supervising the running of the Diagnostic laboratory;
(xvi) Overseeing necropsy and histopathology to researchers and the animal facility.
(xvii) Training, supervising and maintaining proficiency and develop clinical, pathological and research diagnostic skills;

(b) Person Specifications

For appointment to this grade, an officer must have:

(i) At least twelve (12) years relevant work experience, five (5) years of which must have been in senior management position in the Public or Private sector;

(ii) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iv) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(v) Membership to a professional body and in good standing where applicable;

(vi) Evidence of at least fifteen (15) publications in refereed journals;

(vii) Leadership course lasting not less than four (4) weeks from a recognized institution

(viii) Proficiency in Computer Applications.

(ix) Fulfil the requirements of Chapter Six of the constitution 2010.

(c) Key Skills and Competencies

- Leadership skills.
- Communication skills.
- Mentorship Skills.
- Problem solving.
- Conflict management.
- Interpersonal skills.
- Organizational skills.
- Negotiation skills.
- Team building.

2.12 CAREER GUIDELINE FOR DEPUTY DIRECTOR, NATIONAL LABORATORY ANIMAL BREEDING DIVISION

(a) Job Purpose

The Deputy Director is responsible for administrative management and coordination of National Laboratory Animal Breeding services and programmes and mentoring junior staff, while reporting to the Director of Animal Science, Welfare and Ethics.

(b) Functions

(i) Oversee and coordinate all administrative roles for the Division;
(ii) Coordinate, formulate, implement and review policies, strategies and guidelines on laboratory animal breeding;
(iii) Lead in resource mobilisation for the Division;
(iv) Supervise the acquisition and breeding of animals for research, testing and educational purposes;
(v) Oversee development and implementation of a national NHPs and other lab animals breeding policy
(vi) Provide high quality and enough laboratory animals for research;
(vii) Implement Division work plan, staff performance, discipline, monitoring and evaluation and reporting;
(viii) Prepare Division budgets, allocate resources and ensure efficient use of resources;
(ix) Ensure research animals have adequate access to quality and healthy diet
(x) Oversee the development of quality infrastructure for improving animal productivity and breeding that ensure the physical and psychological of animals are not constrained, e.g. by poor cage design and size may affect the growth and development of animals.
(xi) Supervise the provision of nutritional requirements, environmental needs and disease risks of the laboratory animals that are allocated to researchers are properly taken care of
(xii) Supervise capture and translocation of either endangered or problem NHPs for conservation, management, research and establishment of breeding colonies;
(xiii) Oversee provision of healthcare by working closely with division of Veterinary Clinical and Diagnostic services
(xiv) Supervise the development of superior germplasm for improving animal productivity through in vitro fertilization and other assisted reproductive technology
(xv) Oversee production post F2 generation NHPs for research purposes

(xvi) Guide on production of well-documented genetically characterized population of laboratory animals

(xvii) Supervise the breeding of specific pathogen-free animals (S.P.F.) and another to germ free animals.

(c) Grading Structure and Scope

The Career Guideline establishes one (1) grade of Deputy Director, National Laboratory Animal Breeding, who will be designated and graded as follows:

S/No	DESIGNATION	KIP GRADE
1.	Deputy Director, National Laboratory Animal Breeding.	3

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this career guideline:

(i) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iii) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iv) Membership to a professional body and in good standing where applicable;

(v) Evidence of at least fifteen (15) publications in refereed journals;

(vi) Leadership course lasting not less than four (4) weeks from a recognized institution

(vii) Proficiency in Computer Applications.

(viii) Fulfil the requirements of Chapter Six of the constitution 2010.

JOB AND PERSON SPECIFICATIONS

DEPUTY DIRECTOR, NATIONAL LABORATORY ANIMAL BREEDING - JOB GRADE KIP 3

(a) Job Specifications

Duties and responsibilities at this level will entail:

(i) Overseeing and coordinating all administrative roles for the Division;
(ii) Coordinating, formulating, implementing and reviewing policies, strategies and guidelines on laboratory animal breeding;
(iii) Leading in resource mobilisation for the Division;
(iv) Supervising the acquisition and breeding of animals for research, testing and educational purposes;
(v) Overseeing development and implementation of a national NHPs and other lab animals breeding policy
(vi) Providing high quality and enough laboratory animals for research;
(vii) Implement Division work plan, staff performance, discipline, monitoring and evaluation and reporting;
(viii) Prepare Division budgets, allocate resources and ensure efficient use of resources;
(ix) Ensuring research animals have adequate access to quality and healthy diet
(x) Overseeing the development of quality infrastructure for improving animal productivity and breeding that ensure the physical and psychological of animals are not constrained, e.g. by poor cage design and size may affect the growth and development of animals.
(xi) Supervising the provision of nutritional requirements, environmental needs and disease risks of the laboratory animals that are allocated to researchers are properly taken care of
(xii) Supervising capture and translocation of either endangered or problem NHPs for conservation, management, research and establishment of breeding colonies;
(xiii) Overseeing provision of healthcare by working closely with division of Veterinary Clinical and Diagnostic services
(xiv) Supervising the development of superior germplasm for improving animal productivity through in vitro fertilization and other assisted reproductive technology
(xv) Overseeing production post F2 generation NHPs for research purposes
(xvi) Guide on production of well-documented genetically characterized population of laboratory animals
(xvii) Supervising the breeding of specific pathogen-free animals (S.P.F.) and another to germ free animals.

(b) Person Specifications

For appointment to this grade, an officer must have:

(i) At least twelve (12) years relevant work experience, five (5) years of which must have been in senior management position in the Public or Private sector;
(ii) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(v) Membership to a professional body and in good standing where applicable;
(vi) Evidence of at least fifteen (15) publications in refereed journals;
(vii) Leadership course lasting not less than four (4) weeks from a recognized institution
(viii) Proficiency in Computer Applications.
(ix) Fulfil the requirements of Chapter Six of the constitution 2010.

(c) Key Skills and Competencies

- Leadership skills.
- Communication skills.
- Mentorship Skills.
- Problem solving.
- Conflict management.
- Interpersonal skills.
- Organizational skills.
- Negotiation skills.
- Team building.

2.13 CAREER GUIDELINE FOR DEPUTY DIRECTOR, WELFARE AND ETHICS

(a) Job Purpose

The Deputy Director is responsible for administrative management and coordination of national capacity building and regulation of animal welfare, ethical use and care of non-human primates and other experimental animals in laboratory settings and mentoring junior staff, while reporting to the Director of Animal Science, Welfare and Ethics.

(b) Functions

(i) Oversee and coordinate all administrative roles for the Division;
(ii) Coordinate, formulate, implement and review policies, strategies and guidelines on animals welfare and ethics;
(iii) Lead in resource mobilisation for the Division;
(iv) Regulate the acquisition and breeding of animals for research, testing and educational purposes;
(v) Formulating national laboratory animal welfare and ethics policies, in consultation with relevant stakeholders;
(vi) Contribute to national and international guidelines for animal welfare care and use standards
(vii) Supervise the training of veterinarians, scientists, and animal care personnel on best practices in environmental enrichment
(viii) Provide secretariat to Institutional Scientific Ethics and Review Committee (ISERC)
(ix) Implement Division work plan, staff performance, discipline, monitoring and evaluation and reporting;
(x) Prepare Division budgets, allocate resources and ensure efficient use of resources;
(xi) Supervise the establishment of a structured positive reinforcement training (PRT) program at KIPRE; including physical and food enrichment, social housing to the animals
(xii) Supervise animal social groups through management of animal behavior
(xiii) Supervise animal husbandry practices for captive animals
(xiv) Ensure maintenance of local and international accreditations
(xv) Guide on good practices for caring and rehabilitating rescued animals
(xvi) Supervise field animal behavioral studies and enhance proper ethics and welfare practices.

(c) Grading Structure and Scope

The Career Guideline establishes one (1) grade of Deputy Director, Welfare and Ethics, who will be designated and graded as follows:

S/No	DESIGNATION	KIP GRADE
1.	Deputy Director, Welfare and Ethics	3

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this career guideline:

(i) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iii) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iv) Membership to a professional body and in good standing where applicable;

(v) Evidence of at least fifteen (15) publications in refereed journals;

(vi) Leadership course lasting not less than four (4) weeks from a recognized institution

(vii) Proficiency in Computer Applications.

(viii) Fulfil the requirements of Chapter Six of the constitution 2010.

JOB AND PERSON SPECIFICATIONS

DEPUTY DIRECTOR WELFARE AND ETHICS - JOB GRADE KIP 3

(a) Job Specifications

Duties and responsibilities at this level will entail:

(i) Overseeing and coordinating all administrative roles for the Division;
(ii) Coordinating, formulating, implementing and reviewinhg policies, strategies and guidelines on animals welfare and ethics;
(iii) Leading in resource mobilisation for the Division;
(iv) Regulating the acquisition and breeding of animals for research, testing and educational purposes;
(v) Formulating national laboratory animal welfare and ethics policies, in consultation with relevant stakeholders;
(vi) Contributing to national and international guidelines for animal welfare care and use standards
(vii) Supervising the training of veterinarians, scientists, and animal care personnel on best practices in environmental enrichment
(viii) Providing secretariat to Institutional Scientific Ethics and Review Committee (ISERC);
(ix) Implement Division work plan, staff performance, discipline, monitoring and evaluation and reporting;
(x) Prepare Division budgets, allocate resources and ensure efficient use of resources;
(xi) Supervising the establishment of a structured positive reinforcement training (PRT) program at KIPRE; including physical and food enrichment, social housing to the animals
(xii) Supervising animal social groups through management of animal behavior
(xiii) Supervising animal husbandry practices for captive animals
(xiv) Ensuring maintenance of local and international accreditations
(xv) Guiding on good practices for caring and rehabilitating rescued animals
(xvi) Supervising field animal behavioral studies and enhance proper ethics and welfare practices.

(b) Person Specifications

For appointment to this grade, an officer must have:

(i) At least twelve (12) years relevant work experience, five (5) years of which must have been in senior management position in the Public or Private sector;
(ii) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iv) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(v) Membership to a professional body and in good standing where applicable;

(vi) Evidence of at least fifteen (15) publications in refereed journals;

(vii) Leadership course lasting not less than four (4) weeks from a recognized institution

(viii) Proficiency in Computer Applications.

(ix) Fulfil the requirements of Chapter Six of the constitution 2010.

(c) Key Skills and Competencies

- Leadership skills.
- Communication skills.
- Mentorship Skills.
- Problem solving.
- Conflict management.
- Interpersonal skills.
- Organizational skills.
- Negotiation skills.
- Team building.

2.14 CAREER GUIDELINE FOR DEPUTY DIRECTOR, INNOVATION, INCUBATION AND MARKETING DIVISION

(a) Job Purpose

The Deputy Director is responsible for coordinating all core activities in relation to KIPRE's innovations and intellectual property assets as well as oversee technology transfer arrangements. In addition, they are also responsible for building and maintaining relationships with key industry stakeholders, including customers, partners, suppliers, and other organizations to promote advancement of professional knowledge, skills and expertise of the institute.

(b) Functions

The Deputy Director Innovation, Incubation and Marketing Division will be responsible for the following key functions.

(i) Oversee and coordinate all administrative roles for the Division;
(ii) Coordinate, formulate, implement and review policies, strategies and guidelines on innovation, incubation and marketing matters;
(iii) Lead in resource mobilisation for the Division;
(iv) Establish and maintain an incubation centre linking research and industry.
(v) Guide on development of policies, processes and guidelines on innovation and incubation management
(vi) Provide incubation and acceleration services to institute start-ups and spin-offs, including access to funding, mentorship, networking, and other support services.
(vii) Participate in research fundraising activities and organize events to identify, expose and reward innovators.
(viii) Identify opportunities for commercialization of research results, patent licensing, and spin-off creation.
(ix) Develop policies, processes and guidelines for Licensing and Contract management at KIPRE;
(x) Implement Division work plan, staff performance, discipline, monitoring and evaluation and reporting;
(xi) Prepare Division budgets, allocate resources and ensure efficient use of resources;
(xii) Develop and negotiate licensing agreements for the commercialization of intellectual property assets generated by the institute, including patents, industrial designs, copyrights, trademarks / trade names, trade secrets, and other forms of intellectual property rights.
(xiii) Review and analyze license agreements to ensure compliance with intellectual property law, institute policies, and other legal and regulatory requirements.

(xiv) Facilitate acquisition of local research permits and develop relevant research agreements such as material transfer agreements (MTAs), Prior informed consent and memorandum of association.
(xv) Conduct campaign management for marketing initiatives arising from research activities.
(xvi) Produce marketing and promotional materials for KIPRE products and services.
(xvii) Create marketing content providing search engine optimization for website.
(xviii) Conduct customer and market research and oversee vendors and agencies.

(c) Grading Structure and Scope

The Career Guideline establishes one (1) grade of Deputy Director, Innovation, Incubation and Marketing Division who will be designated and graded as follows:

S/No	DESIGNATION	KIP GRADE
1.	Deputy Director, Innovation, Incubation and Marketing Division	3

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this career guideline:

(i) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Membership to a professional body and in good standing where applicable;
(v) Evidence of at least fifteen (15) publications in refereed journals;
(vi) Leadership course lasting not less than four (4) weeks from a recognized institution
(vii) Proficiency in Computer Applications.
(viii) Fulfil the requirements of Chapter Six of the constitution 2010.

JOB AND PERSON SPECIFICATIONS

DEPUTY DIRECTOR, INNOVATION, INCUBATION AND MARKETING DIVISION - JOB GRADE KIP 3

(a) Job Specification

Duties and responsibilities at this level will entail:

(i) Overseeing and coordinating all administrative roles for the Division;
(ii) Coordinating, formulating, implementing and reviewing policies, strategies and guidelines on innovation, incubation and marketing matters;
(iii) Leading in resource mobilisation for the Division;
(iv) Establishing and maintaining an incubation centre linking research and industry.
(v) Guiding on development of policies, processes and guidelines on innovation and incubation management
(vi) Providing incubation and acceleration services to institute start-ups and spin-offs, including access to funding, mentorship, networking, and other support services.
(vii) Participating in research fundraising activities and organize events to identify, expose and reward innovators.
(viii) Identifying opportunities for commercialization of research results, patent licensing, and spin-off creation.
(ix) Developing policies, processes and guidelines for Licensing and Contract management at KIPRE;
(x) Implement Division work plan, staff performance, discipline, monitoring and evaluation and reporting;
(xi) Prepare Division budgets, allocate resources and ensure efficient use of resources;
(xii) Developing and negotiating licensing agreements for the commercialization of intellectual property assets generated by the institute, including patents, industrial designs, copyrights, trademarks / trade names, trade secrets, and other forms of intellectual property rights.
(xiii) Reviewing and analyzing license agreements to ensure compliance with intellectual property law, institute policies, and other legal and regulatory requirements.
(xiv) Facilitating acquisition of local research permits and develop relevant research agreements such as material transfer agreements (MTAs), Prior informed consent and memorandum of association.
(xv) Conducting campaign management for marketing initiatives arising from research activities.
(xvi) Producing marketing and promotional materials for KIPRE products and services.
(xvii) Creating marketing content providing search engine optimization for website.
(xviii) Conducting customer and market research and oversee vendors and agencies.

(b) Person Specifications

For appointment to this grade, an officer must have:

(i) At least twelve (12) years relevant work experience, five (5) years of which must have been in senior management position in the Public or Private sector;
(ii) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(v) Membership to a professional body and in good standing where applicable;
(vi) Evidence of at least fifteen (15) publications in refereed journals;
(vii) Leadership course lasting not less than four (4) weeks from a recognized institution
(viii) Proficiency in Computer Applications.
(ix) Fulfil the requirements of Chapter Six of the constitution 2010.

(c) Key Skills and Competencies

- Leadership skills.
- Communication skills.
- Mentorship Skills.
- Problem solving.
- Conflict management.
- Interpersonal skills.
- Organizational skills.
- Negotiation skills.
- Team building.

2.15 CAREER GUIDELINE FOR DEPUTY DIRECTOR, TRAINING AND CAPACITY BUILDING

(a) Job Purpose

The Deputy Director is responsible for coordinating all core activities in relation to KIPRE's training and capacity building while reporting to the Director Capacity Building, Partnerships and Grants Management.

(b) Functions

(i) Oversee and coordinate all administrative roles for the Division;
(ii) Coordinate, formulate, implement and review policies, strategies and guidelines on training and capacity building matters;
(iii) Lead in resource mobilisation for the Division;
(iv) Oversee development of short biomedical courses that meet the needs of professionals and students in the biomedical field with relevance to KIPRE mandates.
(v) Develop and implement the institute's training and capacity building strategy programs.
(vi) Guide development of educational programs that align with the KIPRE's research objectives
(vii) Design, Evaluate and deliver effective training programs
(viii) Supervise development and management of partnerships with stakeholders including industry, government, non-profit organizations, and other research institutions to advance the institute's research and innovation objectives.
(ix) Implement Division work plan, staff performance, discipline, monitoring and evaluation and reporting;
(x) Prepare Division budgets, allocate resources and ensure efficient use of resources;
(xi) Guide and support researchers, staff, and students on partnership development and management, including partnership agreement negotiation, project management, and communication strategies.
(xii) Stay up-to-date on the latest training and development trends
(xiii) Guide on mechanisms for information, data storage, analysis and knowledge dissemination.

(c) Grading Structure and Scope

The Career Guideline establishes one (1) grade of Deputy Director, Training and Capacity Building who will be designated and graded as follows:

S/No	DESIGNATION	KIP GRADE
1.	Deputy Director, Training and Capacity Building	3

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this career guideline:

(i) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iii) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iv) Membership to a professional body and in good standing where applicable;

(v) Evidence of at least fifteen (15) publications in refereed journals;

(vi) Leadership course lasting not less than four (4) weeks from a recognized institution

(vii) Proficiency in Computer Applications.

(viii) Fulfil the requirements of Chapter Six of the constitution 2010.

JOB AND PERSON SPECIFICATIONS

DEPUTY DIRECTOR TRAINING AND CAPACITY BUILDING - JOB GRADE KIP 3

(a) Job Specifications

Duties and responsibilities at this level will entail:

(i) Overseeing and coordinating all administrative roles for the Division;

(ii) Coordinating, formulating, implementing and reviewing policies, strategies and guidelines on training and capacity building matters;

(iii) Leading in resource mobilisation for the Division;

(iv) Overseeing development of short biomedical courses that meet the needs of professionals and students in the biomedical field.
(v) Developing and implementing the institute's training and capacity building strategy programs.
(vi) Guiding development of educational programs.
(vii) Designing, evaluating and delivering effective training programs
(viii) Supervising development and management of partnerships with stakeholders including industry, government, non-profit organizations, and other research institutions to advance the institute's research and innovation objectives.
(ix) Implementing Division work plan, staff performance, discipline, monitoring and evaluation and reporting;
(x) Preparing Division budgets, allocate resources and ensure efficient use of resources;
(xi) Guiding and supporting researchers, staff, and students on partnership development and management, including partnership agreement negotiation, project management, and communication strategies.
(xii) Staying up-to-date on the latest training and development trends
(xiii) Guiding on mechanisms for information, data storage, analysis and knowledge dissemination.

(b) Person Specifications

For appointment to this grade, an officer must have:

(i) At least twelve (12) years relevant work experience, five (5) years of which must have been in senior management position in the Public or Private sector;
(ii) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(v) Membership to a professional body and in good standing where applicable;
(vi) Evidence of at least fifteen (15) publications in refereed journals;

(vii) Leadership course lasting not less than four (4) weeks from a recognized institution
(viii) Proficiency in Computer Applications.
(ix) Fulfil the requirements of Chapter Six of the constitution 2010.

(c) Key Skills and Competencies

- Leadership skills.
- Communication skills.
- Mentorship Skills.
- Problem solving.
- Conflict management.
- Interpersonal skills.
- Organizational skills.
- Negotiation skills.
- Team building.

2.16 CAREER GUIDELINE FOR DEPUTY DIRECTOR, PARTNERSHIPS AND GRANTS MANAGEMENT

(a) Job Purpose

The Deputy Director is responsible for coordinating all core activities in relation to KIPRE's partnerships and grants management while reporting to the Director Capacity Building, Partnerships and Grants Management.

(b) Functions

(i) Oversee and coordinate all administrative roles for the Division;

(ii) Coordinate, formulate, implement and review policies, strategies and guidelines on all partnerships and grants management matters;

(iii) Lead in resource mobilisation for the Division;

(iv) Implement Division work plan, staff performance, discipline, monitoring and evaluation and reporting;

(v) Prepare Division budgets, allocate resources and ensure efficient use of resources;

(vi) Develop and manage partnerships with stakeholders including industry, government, non-profit organizations, and other research institutions to advance the institute's research and innovation objectives.

(vii) Management of the grants program for the institute.

(viii) Monitors and evaluates the performance of partnerships and grants, and prepares regular reports for internal and external stakeholders.

(ix) Identify and pursue grant opportunities from various funding sources, including foundations, governments, and international organizations.

(x) Assist the finance department on the institutional budget process on grant funding.

(xi) Represent the institution to grantors and other stakeholders

(xii) Negotiate contracts, monitor compliance with grant terms and conditions, and ensure timely and accurate financial and narrative reporting.

(xiii) Conduct due diligence on behalf of the institution on potential partners and grantees to ensure that they meet the institutional standards for integrity, accountability, and fiscal responsibility.

(xiv) Contribute to the organization's strategic planning process by identifying new partnership and grant opportunities,

(xv) Maintains a database of partner and grant information, and shares knowledge and best practices across the institution to improve collaboration and learning.

(xvi) Advice on how to leverage resources to achieve the organization's goals.

(xvii) Provide guidance and support to researcher scientists, and students on partnership development and management, including partnership agreement negotiation, project management, and communication strategies.
(xviii) Preparation of contractual and non-disclosure agreements between collaborating partners.
(xix) Identify collaborations that will influence grants policy changes to cultivate funding opportunities.
(xx) Represent the institute on capacity building and grant related committees and working groups
(xxi) Develop and implement policies and procedures for managing conflicts of interest and ensuring ethical conduct in partnership activities, including disclosure requirements and conflict resolution mechanisms.
(xxii) Negotiate and manage KIPRE Research scientist grant contracts.
(xxiii) Assess collaborative and negotiate favorable terms, in managing grants risk.
(xxiv) Identify relevant funding opportunities for research scientists and provide information on funding sources, application requirements, and deadlines.
(xxv) Support Research scientists in developing grant proposals, including providing guidance on proposal structure, content, and budget development.
(xxvi) Monitor grant performance and compliance.
(xxvii) Coordinating and reviewing grant proposals to ensure they meet the funding agency's requirements development and submission of core institutional grant calls.
(xxviii) Maintain records of grant submissions, awards, and progress reports to ensure compliance with funding agency requirements
(xxix) Collaborate with internal and external stakeholders to develop interdisciplinary research projects that can be funded through grants.
(xxx) Develop and implement policies and procedures for managing grants, including tracking and reporting grant expenditures, managing subcontractors and collaborators, and ensuring compliance with funding agency requirements.
(xxxi) Monitor changes in funding agency policies and regulations and provide guidance to institute researchers on how to comply with these changes.
(xxxii) Manage sub-awards and subcontractors, including ensuring compliance with funding agency requirements and managing payment schedules.

(c) Grading Structure and Scope

The Career Guideline establishes one (1) grade of Deputy Director, Partnerships and Grants Management who will be designated and graded as follows:

S/No	DESIGNATION	KIP GRADE
1.	Deputy Director, Partnership and Grants Management	3

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this career guideline:

(i) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iii) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iv) Membership to a professional body and in good standing where applicable;

(v) Evidence of at least fifteen (15) publications in refereed journals;

(vi) Leadership course lasting not less than four (4) weeks from a recognized institution

(vii) Proficiency in Computer Applications.

(viii) Fulfil the requirements of Chapter Six of the constitution 2010.

JOB AND PERSON SPECIFICATIONS

DEPUTY DIRECTOR, PARTNERSHIPS AND GRANTS MANAGEMENT - JOB GRADE KIP 3

(a) Job Specifications

Duties and responsibilities at this level will entail:

(i) Overseeing and coordinating all administrative roles for the Division;

(ii) Coordinating, formulating, implementing and reviewing policies, strategies and guidelines on all partnerships and grants management matters;

(iii) Leading in resource mobilisation for the Division;

(iv) Implementing Division work plan, staff performance, discipline, monitoring and evaluation and reporting;
(v) Preparing Division budgets, allocate resources and ensure efficient use of resources;
(vi) Developing and managing partnerships with stakeholders including industry, government, non-profit organizations, and other research institutions to advance the institute's research and innovation objectives.
(vii) Managing of the grants program for the institute.
(viii) Monitoring and evaluating the performance of partnerships and grants, and prepares regular reports for internal and external stakeholders.
(ix) Identifying and pursuing grant opportunities from various funding sources, including foundations, governments, and international organizations.
(x) Assisting the finance department on the institutional budget process on grant funding.
(xi) Representing the institution to grantors and other stakeholders
(xii) Negotiating contracts, monitor compliance with grant terms and conditions, and ensure timely and accurate financial and narrative reporting.
(xiii) Conducting due diligence on behalf of the institution on potential partners and grantees to ensure that they meet the institutional standards for integrity, accountability, and fiscal responsibility.
(xiv) Contributing to the organization's strategic planning process by identifying new partnership and grant opportunities,
(xv) Maintaining a database of partner and grant information, and shares knowledge and best practices across the institution to improve collaboration and learning.
(xvi) Advising on how to leverage resources to achieve the organization's goals.
(xvii) Providing guidance and support to researcher scientists, and students on partnership development and management, including partnership agreement negotiation, project management, and communication strategies.
(xviii) Preparing contractual and non-disclosure agreements between collaborating partners.
(xix) Identifying collaborations that will influence grants policy changes to cultivate funding opportunities.
(xx) Representing the institute on capacity building and grant related committees and working groups
(xxi) Developing and implementing policies and procedures for managing conflicts of interest and ensuring ethical conduct in partnership activities, including disclosure requirements and conflict resolution mechanisms.
(xxii) Negotiating and managing KIPRE Research scientist grant contracts.
(xxiii) Assessing collaborative and negotiate favorable terms, in managing grants risk.
(xxiv) Identifying relevant funding opportunities for research scientists and provide information on funding sources, application requirements, and deadlines.
(xxv) Supporting Research scientists in developing grant proposals, including providing guidance on proposal structure, content, and budget development.
(xxvi) Monitoring grant performance and compliance.

(xxvii) Coordinating and reviewing grant proposals to ensure they meet the funding agency's requirements development and submission of core institutional grant calls.
(xxviii) Maintaining records of grant submissions, awards, and progress reports to ensure compliance with funding agency requirements
(xxix) Collaborating with internal and external stakeholders to develop interdisciplinary research projects that can be funded through grants.
(xxx) Developing and implement policies and procedures for managing grants, including tracking and reporting grant expenditures, managing subcontractors and collaborators, and ensuring compliance with funding agency requirements.
(xxxi) Monitoring changes in funding agency policies and regulations and provide guidance to institute researchers on how to comply with these changes.
(xxxii) Managing sub-awards and subcontractors, including ensuring compliance with funding agency requirements and managing payment schedules.

(b) Person Specifications

For appointment to this grade, an officer must have:

(i) At least twelve (12) years relevant work experience, five (5) years of which must have been in senior management position in the Public or Private sector;
(ii) Bachelor's Degree in any of the following disciplines: Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(v) Membership to a professional body and in good standing where applicable;
(vi) Evidence of at least fifteen (15) publications in refereed journals;
(vii) Leadership course lasting not less than four (4) weeks from a recognized institution
(viii) Proficiency in Computer Applications.
(ix) Fulfil the requirements of Chapter Six of the constitution 2010.

(c) Key Skills and Competencies

- Leadership skills.
- Communication skills.
- Mentorship Skills.
- Problem solving.
- Conflict management.
- Interpersonal skills.
- Organizational skills.
- Negotiation skills.
- Team building.

2.17 CAREER GUIDELINE FOR ASSISTANT DIRECTOR, RESEARCH

(a) Job purpose

The job holders are responsible for administrative management and coordination of research activities, mentoring junior staff, and contributing to the development of research programs at the Section level and reporting to the relevant Deputy Director.

(b) Functions

Assistant Directors, Research may be deployed to the following functional areas:

1. Research and Product Development
2. Animal Science, Welfare & Ethics and
3. Capacity Building, Partnerships & Grants Management.

The duties and responsibilities at this level will entail: -

1. Research and Product Development

(i) Oversee and coordinate all administrative roles for the Section;
(ii) Coordinate, formulate, implement and review policies, strategies and guidelines on all biomedical, preclinical and clinical research matters;
(iii) Lead in resource mobilization for the Section;
(iv) Participate in strategy implementation on basic, pre-clinical and translational research using non-human primates and other experimental animals in liaison with the relevant government agencies;
(v) Undertake laboratory biosafety and biosecurity plans for identified risks with respect to fieldwork and lab-based activities at the Institute;
(vi) Supervise the development of new diagnostic tests and tools and conduct research to improve diagnostics for infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(vii) Participate in pre-clinical and clinical studies to evaluate the safety and efficacy of Research products for infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(viii) Supervise research collaborations with national and international research partners on infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(ix) Develop and review of research procedures and protocols in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(x) Establish advocacy on priority research areas including infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(xi) Review of section budgets, allocate resources and ensure efficient use of resources;

(xii) Implement section work plan, staff performance, discipline, monitoring and evaluation and reporting;

(xiii) Develop and characterize both non-human primate and other experimental animal models for priority diseases;

(xiv) Coordinate research in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(xv) Support research fundraising activities in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(xvi) Disseminate scientific findings through publications, conferences, seminars and workshops.

(xvii) Coordinate research on drug & vaccine discovery, antivenom research & development, health technologies and development of health products

(xviii) Undertake preclinical & clinical validation of traditional knowledge-based natural products with claimed healing for efficacy using non-human primates and other experimental animals;

(xix) Participate in conservation strategies to protect and conserve non-human primates, snakes and other priority conservation animals;

(xx) Undertake establishment and maintenance of a national database on non-human primate, snakes and other priority conservation animals containing their diversity (taxonomy), population status, and geo-spatial distribution for effective prioritization of research, conservation and management;

(xxi) Undertake studies on impacts of climate change on biodiversity (including non-human primates and other species), local communities and disease patterns and initiate mitigation strategies;

(xxii) Coordinate incubation and acceleration services to institute startups and spin-offs, including access to funding, mentorship, networking, and other support services.

(xxiii) Coordinate laboratory quality assurance services;

(xxiv) Coordinate collection, analysis and interpretation of biological and health science data across multiple research entities in the institute;

(xxv) Support the designing of new computational tools for bioinformatics;

(xxvi) Assemble and prepare data structures and data analysis frameworks.

2. Animal Science, Welfare & Ethics

(i) Oversee and coordinate all administrative roles for the Section;
(ii) Coordinate, formulate, implement and review policies, strategies and guidelines on animals sciences, breeding, welfare and ethics;
(iii) Lead in resource mobilization for the Section;
(iv) Review ethical guidelines for establishing and enforcing ethical standards and guidelines for animal care and welfare;
(v) Provide scientific advice and guidance to researchers, veterinarians and other stakeholders on animal related research, testing and breeding;
(vi) Enable proper compliance on animal related research, treatment, testing, husbandry and breeding;
(vii) Regulate the acquisition and breeding of animals for research, testing and educational purposes;
(viii) Support management of animal colonies;
(ix) Ensure compliance with local, national and international regulation related to animal welfare and ethics;
(x) Review of section budgets, allocate resources and ensure efficient use of resources;
(xi) Implement section work plan, staff performance, discipline, monitoring and evaluation and reporting;
(xii) Support the establishment of ethical review boards and committees responsible for approving research protocols involving animals;
(xiii) Review designs and maintenance of animal facilities to meet national and international standards;
(xiv) Participate in the use of Positive Reinforcement Techniques (PRT) and environmental enrichment of animals;
(xv) Enable innovation and improvement in ethical animal handling practices;
(xvi) Support training and capacity building animals sciences, breeding, welfare and ethics to veterinarians, researchers and other stakeholders;
(xvii) Supervise the maintenance of animal health, research, breeding, welfare and ethics database;
(xviii) Participate in organization of conferences, seminars and workshops to disseminate research findings related to laboratory animals;
(xix) Support collaborative and contract research on laboratory animals;

3. Capacity Building, Partnerships & Grants Management.

(i) Oversee and coordinate all administrative roles for the Section;
(ii) Coordinate, formulate, implement and review policies, strategies and guidelines on all capacity building, partnership and grants management matters;
(iii) Lead in resource mobilization for the Section;

(iv) Review framework for engagements on incubation and commercialization of products;
(v) Undertake the management of the Institute's intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
(vi) Develop of an Institutional database on the Institute's intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
(vii) Review training and capacity building materials for researchers and other stakeholders;
(viii) Perform training and capacity building to researchers and other staff in the biomedical field;
(ix) Support institutional compliance with all applicable laws and regulations on good financial grants management and funder requirements;
(x) Review of section budgets, allocate resources and ensure efficient use of resources;
(xi) Implement section work plan, staff performance, discipline, monitoring and evaluation and reporting;
(xii) Undertake the development and submission of grant proposals, budgets, and reports to funding agencies;
(xiii) Align grant-funded projects with the organization's overall strategy;
(xiv) Support the establishment of an innovation and incubation centre linking research and industry in the health products value chain;
(xv) Support the development of partnerships and monitoring the performance of partnerships and grants;
(xvi) Develop technical information for product marketing;
(xvii) Undertake product training to stakeholders;
(xviii) Negotiate licenses on institutional Intellectual property rights, drafting license agreements, and monitoring compliance with those agreements;
(xix) Provide resource and knowledge management services including accessioning of all new books, classification and cataloging of the same and keeping custody of relevant literature, information, equipment and documentation for the institute.

(c) Grading Structure / Scope

The Career Guideline establishes one (1) grade of Assistant Director, Research who will be designated and graded as follows:

S/No	DESIGNATION	KIP GRADE
1.	Assistant Director, Research	4

(d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this career guideline:

(i) Bachelor's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iii) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iv) Evidence of at least five (5) publications in refereed journals.

(v) Membership to a professional body and in good standing where applicable;

(vi) Management course lasting not less than four (4) weeks from a recognized institution

(vii) Proficiency in Computer Applications.

(viii) Fulfil the requirements of Chapter Six (6) of the constitution 2010.

JOB AND PERSON SPECIFICATIONS

ASSISTANT DIRECTOR, RESEARCH – KIP GRADE 4

(a) Job Specifications

The duties and responsibilities at this level will entail: -

1. Research and Product Development

(i) Overseeing and coordinating all administrative roles for the Section;

(ii) Coordinating, formulating, implementing and reviewing policies, strategies and guidelines on all biomedical, preclinical and clinical research matters;

(iii) Leading in resource mobilization for the Section;

(iv) Participating in strategy implementation on basic, pre-clinical and translational research using non-human primates and other experimental animals in liaison with the relevant government agencies;

(v) Undertaking laboratory biosafety and biosecurity plans for identified risks with respect to fieldwork and lab-based activities at the Institute;

(vi) Supervising the development of new diagnostic tests and tools and conduct research to improve diagnostics for infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(vii) Participating in pre-clinical and clinical studies to evaluate the safety and efficacy of Research products for infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(viii) Supervising research collaborations with national and international research partners on infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(ix) Developing and reviewing of research procedures and protocols in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(x) Establishing advocacy on priority research areas including infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(xi) Reviewing of section budgets, allocate resources and ensure efficient use of resources;

(xii) Implementing section work plan, staff performance, discipline, monitoring and evaluation and reporting;

(xiii) Developing and characterising both non-human primate and other experimental animal models for priority diseases;

(xiv) Coordinating research in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(xv) Supporting research fundraising activities in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(xvi) Disseminating scientific findings through publications, conferences, seminars and workshops.

(xvii) Coordinating research on drug & vaccine discovery, antivenom research & development, health technologies and development of health products

(xviii) Undertaking preclinical & clinical validation of traditional knowledge-based natural products with claimed healing for efficacy using non-human primates and other experimental animals;

(xix) Participating in conservation strategies to protect and conserve non-human primates, snakes and other priority conservation animals;

(xx) Undertaking establishment and maintenance of a national database on non-human primate, snakes and other priority conservation animals containing their diversity (taxonomy), population status, and geo-spatial distribution for effective prioritization of research, conservation and management;

(xxi) Undertaking studies on impacts of climate change on biodiversity (including non-human primates and other species), local communities and disease patterns and initiate mitigation strategies;

(xxii) Coordinating incubation and acceleration services to institute startups and spin-offs, including access to funding, mentorship, networking, and other support services.

(xxiii) Coordinating laboratory quality assurance services;

(xxiv) Coordinating collection, analysis and interpretation of biological and health science data across multiple research entities in the institute;

(xxv) Supporting the designing of new computational tools for bioinformatics;

(xxvi) Assembling and preparing data structures and data analysis frameworks.

2. Animal Science, Welfare & Ethics

(i) Overseeing and coordinating all administrative roles for the Section;

(ii) Coordinating, formulating, implementing and reviewing policies, strategies and guidelines on animals sciences, breeding, welfare and ethics;

(iii) Leading in resource mobilisation for the Section;

(iv) Reviewing ethical guidelines for establishing and enforcing ethical standards and guidelines for animal care and welfare;

(v) Providing scientific advice and guidance to researchers, veterinarians and other stakeholders on animal related research, testing and breeding;

(vi) Enabling proper compliance on animal related research, treatment, testing, husbandry and breeding;

(vii) Regulating the acquisition and breeding of animals for research, testing and educational purposes;

(viii) Supporting management of animal colonies;

(ix) Ensuring compliance with local, national and international regulation related to animal welfare and ethics;

(x) Reviewing of section budgets, allocate resources and ensure efficient use of resources;

(xi) Implementing section work plans, staff performance, discipline, monitoring and evaluation and reporting;

(xii) Supporting the establishment of ethical review boards and committees responsible for approving research protocols involving animals;

(xiii) Reviewing designs and maintenance of animal facilities to meet national and international standards;
(xiv) Participating in the use of Positive Reinforcement Techniques (PRT) and environmental enrichment of animals;
(xv) Enabling innovation and improvement in ethical animal handling practices;
(xvi) Supporting training and capacity building animals sciences, breeding, welfare and ethics to veterinarians, researchers and other stakeholders;
(xvii) Supervising the maintenance of animal health, research, breeding, welfare and ethics database;
(xviii) Participating in organization of conferences, seminars and workshops to disseminate research findings related to laboratory animals;
(xix) Supporting collaborative and contract research on laboratory animals;

3. Capacity Building, Partnerships & Grants Management.

(i) Overseeing and coordinating all administrative roles for the Section;
(ii) Coordinating, formulating, implementing and reviewing policies, strategies and guidelines on all capacity building, partnership and grants management matters;
(iii) Leading in resource mobilisation for the Section;
(iv) Reviewing framework for engagements on incubation and commercialization of products;
(v) Undertaking the management of the Institute's intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
(vi) Developing of an Institutional database on the Institute's intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
(vii) Reviewing training and capacity building materials for researchers and other stakeholders;
(viii) Performing training and capacity building to researchers and other staff in the biomedical field;
(ix) Supporting institutional compliance with all applicable laws and regulations on good financial grants management and funder requirements;
(x) Reviewing of section budgets, allocate resources and ensure efficient use of resources;
(xi) Implementing section work plan, staff performance, discipline, monitoring and evaluation and reporting;
(xii) Undertaking the development and submission of grant proposals, budgets, and reports to funding agencies;
(xiii) Aligning grant-funded projects with the organization's overall strategy;

(xiv) Supporting the establishment of an innovation and incubation centre linking research and industry in the health products value chain;
(xv) Supporting the development of partnerships and monitoring the performance of partnerships and grants;
(xvi) Developing technical information for product marketing;
(xvii) Undertaking product training to stakeholders;
(xviii) Negotiating licenses on institutional Intellectual property rights, drafting license agreements, and monitoring compliance with those agreements;
(xix) Providing resource and knowledge management services including accessioning of all new books, classification and cataloging of the same and keeping custody of relevant literature, information, equipment and documentation for the institute.

(b) Person Specifications

For appointment to this grade, an officer must have:

(i) At least ten (10) years relevant work experience, four (4) years of which must have been in senior management position in the Public or Private sector;
(ii) Bachelor's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Doctorate in any of the following disciplines:- Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(v) Attracted research Funding of not less than Kshs 10 million
(vi) Evidence of at least five (5) publications in refereed journals.
(vii) Membership to a professional body and in good standing where applicable;
(viii) Management course lasting not less than four (4) weeks from a recognized institution
(ix) Proficiency in Computer Applications.
(x) Fulfil the requirements of Chapter Six (6) of the constitution 2010.

(c) Key Skills and Competencies

- Strategic thinking
- Analytical skills
- Critical Thinking
- Communication and reporting skills
- Leadership skills
- Mentorship skills
- Research fundraising skills
- Interpersonal and negotiation skills
- Team player

2.18 CAREER GUIDELINE FOR RESEARCH SCIENTISTS

(a) Job Purpose

This cadre is responsible for conducting research and disseminating the research results through publications, conferences, workshops, seminars and policy briefs; research fundraising; research capacity building; seeking new scientific knowledge and translating research into products/applications that address the core mandate of the Institution for the benefit of the country. Research Scientists may be deployed to research centres and scientific programs, build Partnerships and Collaborations, Research Regulations, Biosafety and Bio-security and coordination of pre-clinical & clinical studies using non-human primates and other experimental animals in the country.

(b) Functions

Research Scientists may be deployed to the following functional areas:

1. Research and Product Development
2. Animal Science, Welfare & Ethics and
3. Capacity Building, Partnerships & Grants Management.

1. Research and Product Development

(i) Coordinate formulation, implementation and review of policies, strategies and guidelines on all Biomedical and Preclinical Research matters;

(ii) Oversee strategy on basic, pre-clinical and translational research using non-human primates and other experimental animals in liaison with the relevant government agencies;

(iii) Guide in the development of early warning systems for emerging and re-emerging diseases;

(iv) Oversee laboratory biosafety and biosecurity plans to manage the identified risks with respect to fieldwork and lab-based activities at the Institute;

(v) Oversee surveillance and monitoring of zoonotic diseases, including those that may pose a threat to human health by monitoring animal and environment to identify and track disease outbreaks;

(vi) Supervise the development of new diagnostic tests and tools and conduct research to improve diagnostics for infectious diseases and allowing platforms for health information exchange, streamline diagnostic workflows and improve access to health care.

(vii) Supervise pre-clinical and clinical studies to evaluate the safety and efficacy of bacteriophage (phage) therapy in different infection contexts and patient populations.

(viii) Guide on Antimicrobial Resistance (AMR) surveillance necessary for national advocacy on antimicrobial use and stewardship.

(ix) Guide studies on non-human primate conservation biology and primatology;
(x) Coordinate the establishment and maintenance of a national non-human primate database on census, research affiliations, and geo-spatial distribution of non-human and related zoonotic diseases;
(xi) Oversee research on venom and anti-venom including snake bite disease;
(xii) Oversee sub-national and national data and statistics on snakebite trends, patterns and distribution to guide decision making processes;
(xiii) Supervise snakebite advocacy and social mobilization activities including behavioral change components;
(xiv) Supervise preclinical efficacy and safety tests of new antivenoms and those available in the market, and other biologics such as tetanus and rabies vaccines;
(xv) Coordinate basic and pre-clinical research on reproductive health, infectious and non-communicable diseases using non-human primates;
(xvi) Oversee development and characterization for both non-human primate and other experimental animal models for priority diseases in Kenya;
(xvii) Coordinate research in Human African Trypanosomiasis disease;
(xviii) Guide in research fundraising activities; and
(xix) Supervise dissemination of scientific findings through publications, conferences, seminars and workshops.
(xx) Oversee research on health technologies, drug & vaccine discovery and development and pre-clinical pharmacology & medicinal chemistry
(xxi) Supervise innovative drug delivery and molecular design strategies for targeting infectious and noninfectious diseases;
(xxii) Oversee the development and characterization of non-human primate as models for use in drug discovery and development, delivery, and toxicology in Kenya;
(xxiii) Oversee preclinical validation of traditional knowledge-based products with claimed healing for efficacy using monkeys as models
(xxiv) Supervise field research on primatology and wildlife ecology with focus on species behavioral ecology (Nutrition, Sociobiology & endocrinology), evolution, conservation and management;
(xxv) Guide on establishment and maintenance of a national non-human primate database on their diversity (taxonomy), population status, and geo-spatial distribution for effective prioritization of research, conservation and management;
(xxvi) Oversee in-situ health monitoring of primate populations and other wildlife and support the zoonosis surveillance activities for purposes of developing early warning systems and preparedness to respond to potential disease outbreaks and threats to endemic and critically endangered primate and other species;

(xxvii) Play national advisory role on matters of primate conservation & management including mitigation of human-nonhuman primate conflicts or interaction threats;

(xxviii) Oversee studies on impacts of climate change on biodiversity (including primates and other species) and local communities and develop and implement sustainable conservation initiatives or climate actions to promote climate change response in terms of mitigation, adaptation and resilience;

(xxix) Guide on development of policies, processes and guidelines on innovation and incubation management

(xxx) Coordinate incubation and acceleration services to institute startups and spin-offs, including access to funding, mentorship, networking, and other support services.

(xxxi) Guide on the development of strategies for the research and management of the reproductive health research programs, knowledge generation and capacity building programs;

(xxxii) Supervise reproductive disease surveillance in Kenya to obtain data on the current trends of reproductive diseases and current intervention strategies;

(xxxiii) Oversee the development and characterization of both non-human primate and other experimental animal models for infectious and for emerging and re-emerging diseases

(xxxiv) Oversee research in non-communicable diseases for intervention and prevention strategies using non-human primates (NHPs) and other experimental models

(xxxv) Guide on the development of strategies for the management and prevention of the non-communicable diseases, knowledge generation and capacity building programs;

(xxxvi) Oversee laboratory quality assurance services;

(xxxvii) Coordinate collection, analysis and interpretation of biological and health science data across multiple research entities in the institute.

(xxxviii) Supervise the design of various new computational tools for bioinformatics and assemble and prepare data structures and determine an effective data analysis framework.

2. Animal Science, Welfare & Ethics

(i) Coordinate formulation, implementation and review of policies, strategies and guidelines on animals sciences, breeding, welfare and ethics;

(ii) Develop and implement ethical guidelines for establishing and enforcing ethical standards and guidelines for animal care and welfare;

(iii) Provide scientific advice and guidance to researchers, veterinarians and other stakeholders on animal related research, testing and breeding;

(iv) Ensure proper compliance on animal related research, treatment, testing, husbandry and breeding;
(v) Oversee and regulate the acquisition and breeding of animals for research, testing and educational purposes;
(vi) Oversee management of animal colonies;
(vii) Ensure compliance with local, national and international regulation related to animal welfare and ethics;
(viii) Participate in establishing ethical review boards and committees responsible for approving research protocols involving animals;
(ix) Advice on design and maintenance of animal facilities to meet national and international standards;
(x) Promote the use of Positive Reinforcement Techniques (PRT) and environmental enrichment of animals;
(xi) Identify opportunities for innovation and improvement in ethical animal handling practices;
(xii) Facilitate training and capacity building animals sciences, breeding, welfare and ethics to veterinarians, researchers and other stakeholders;
(xiii) Maintain and update animal health, research, breeding, welfare and ethics database;
(xiv) Conduct conferences, seminars and workshops to disseminate research findings related to laboratory animals;
(xv) Oversee collaborative and contract research on laboratory animals;

3. Capacity Building, Partnerships & Grants Management.

(i) Coordinate formulation, implementation and review of policies, strategies and guidelines on all capacity building, partnership and grants management matters;
(ii) Develop framework for engagements on Incubation and commercialization of products
(iii) Manage the Institute's intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
(iv) Assess and offer training to scientists, researchers and healthcare professionals in the biomedical field.
(v) Ensure the institution complies with all applicable laws, regulations, and funder requirements.
(vi) Participating in the development of grant proposals, budgets, and reports to funding agencies;
(vii) Ensure that grant-funded projects align with the organization's overall strategy
(viii) Guide on the establishment of an innovation and incubation centre linking research and industry in the health products value chain.
(ix) Executing partnership and grant agreements.

(x) Guide on the establishment of an incubation centre linking research and industry in the health products value chain;
(xi) Monitoring the performance of partnerships and grants.
(xii) Provide support and guidance to institute stakeholders on entrepreneurial skills and best practices, including business development, marketing, fundraising, and product development
(xiii) Negotiating licenses for clients' IP rights, drafting license agreements, and monitoring compliance with those agreements.
(xiv) Guide the entry of KIPRE into partnerships and collaborations with other similar institutions or professional organizations locally and internationally
(xv) Facilitate KIPRE in the development and submission of proposals.
(xvi) Provide support and guidance to institute stakeholders on funding opportunities and grant applications, including identifying and pursuing grant opportunities, developing grant proposals, and managing grant projects
(xvii) Provide resource and knowledge management services including accessioning of all new books, classification and cataloguing of the same and keeping custody of relevant literature, information, equipment and documentation for the institute.

(c) Grading Structure and Scope

The Career Guidelines establishes five (5) grades for Research Scientists designated and graded as follows:

S/No	RESEARCH DESIGNATION	KIP GRADE
1.	Assistant Research Scientist	7
2.	Research Scientist	6
3.	Senior Research Scientist	5
4.	Principal Research Scientist	4
5.	Senior Principal Research Scientist	3
6.	Chief Research Scientist	2

Note: *The grades of Research Scientist, KIP 7 & Senior Research Scientist, Grades KIP 6 will form a common establishment for the purpose of this Career Guideline.*

(d) Recognized Qualifications

The following are the Recognized Qualification for the purpose of this career guideline:

(i) Bachelor's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary

Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(ii) Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iii) Doctorate degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iv) Membership to a relevant professional body, where applicable.

(v) Valid practicing licenses where applicable.

(vi) Leadership course lasting not less than four (4) weeks from a recognized Institution;

(vii) Management course lasting not less than four (4) weeks from a recognized Institution.

(viii) Supervisory course lasting not less than two (2) weeks from a recognized Institution.

(ix) Proficiency in computer application.

(x) Fulfill the requirements of Chapter Six (6) of the Constitution.

JOB AND PERSON SPECIFICATIONS

I. ASSISTANT RESEARCH SCIENTIST, GRADE KIP 7

This is the entry and training grade for degree holders in this cadre. An officer at this level will work under guidance and supervision of a senior officer.

(a) Job Specifications

The duties and responsibilities will entail assisting in: -

1. Research and Product Development

(i) Performing basic, pre-clinical and translational research using non-human primates and other experimental animals in liaison with the relevant government agencies;

(ii) Undertaking laboratory biosafety and biosecurity plans for identified risks with respect to fieldwork and lab-based activities at the Institute;

(iii) Implementing research in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(iv) Supporting research on drug & vaccine discovery, antivenom research & development, traditional medicine/natural products, health technologies and development of health products

(v) Undertaking conservation strategies to protect and conserve non-human primates, snakes and other priority conservation animals;

(vi) Undertaking studies on impacts of climate change on biodiversity (including non-human primates and other species), local communities and disease patterns and initiate mitigation strategies;

(vii) Collecting, analyzing and interpreting of biological and health science data across multiple research entities in the institute;

(viii) Supporting the designing of new computational tools for bioinformatics and assembling and preparing data structures and determining an effective data analysis framework.

2. Animal Science, Welfare & Ethics

(i) Implementing policies, strategies and guidelines on animals sciences, breeding, welfare and ethics;

(ii) Executing ethical guidelines for establishing and enforcing ethical standards and guidelines for animal care and welfare;

(iii) Carrying out duties on proper compliance of animal related research, treatment, testing, husbandry and breeding;

(iv) Breeding of animals for research, testing and educational purposes;

(v) Undertaking duties on the establishment of ethical review boards and committees responsible for approving research protocols involving animals;

(vi) Designing and assessing animal facilities to meet national and international standards;

(vii) Undertaking the use of Positive Reinforcement Techniques (PRT) and environmental enrichment of animals

(viii) Handling animals during routine and experimental procedures;

(ix) Updating databases for animal health, research, breeding, welfare and ethics;

3. Capacity Building, Partnerships & Grants Management.

(i) Implementing policies, strategies and guidelines on all capacity building, partnership and grants management matters;

(ii) Participating in development of frameworks for engagements on incubation and commercialization of products;

(iii) Supporting updating of the Institutional database on intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
(iv) Supporting the preparation of training and capacity building materials for researchers and other stakeholders;
(v) Participating in the development of grant proposals, budgets, and reports to funding agencies;
(vi) Supporting development of technical information for product marketing;
(vii) Assisting in product training to stakeholders;
(viii) Assisting in monitoring the performance of partnerships and grants;

(b) Person Specification

For appointment to this grade, a candidate must have: -

(i) Bachelor's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(ii) Membership to a professional body and in good standing where applicable;
(iii) Proficiency in Computer Applications;
(iv) Fulfil the requirements of Chapter Six (6) of the constitution.

(c) Key Skills and Competencies

- Communication and reporting skills
- Interpersonal skills
- Team player

II. RESEARCH SCIENTIST, JOB GRADE, KIP 6

(a) Job Specifications

The duties and responsibilities of the officer will entail: -

1. Research and Product Development

(i) Performing basic, pre-clinical and translational research using non-human primates and other experimental animals in liaison with the relevant government agencies;
(ii) Undertaking laboratory biosafety and biosecurity measures for identified risks with respect to fieldwork and lab-based activities at the Institute;

(iii) Undertaking pre-clinical and clinical studies to evaluate the safety and efficacy of Research products for infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(iv) Undertaking advocacy on priority research areas including infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(v) Implementing research in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(vi) Participating in development and review of research procedures and protocols in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(vii) Disseminating of scientific findings through publications, conferences, seminars and workshops.

(viii) Supporting research on drug & vaccine discovery, antivenom research & development, traditional medicine/natural products, health technologies and development of health products

(ix) Undertaking conservation strategies to protect and conserve non-human primates, snakes and other priority conservation animals;

(x) Supporting the maintenance of a national database on non-human primate, snakes and other priority conservation animals containing their diversity (taxonomy), population status, and geo-spatial distribution for effective prioritization of research, conservation and management;

(xi) Assisting in studies on impacts of climate change on biodiversity (including non-human primates and other species), local communities and disease patterns and initiate mitigation strategies;

(xii) Undertaking laboratory quality assurance services;

(xiii) Collecting, analyzing and interpreting of biological and health science data across multiple research entities in the institute;

(xiv) Supporting the designing of new computational tools for bioinformatics;

(xv) Assembling and preparing data structures and data analysis frameworks.

2. Animal Science, Welfare & Ethics

(i) Implementing policies, strategies and guidelines on animals sciences, breeding, welfare and ethics;

(ii) Executing ethical guidelines for establishing and enforcing ethical standards and guidelines for animal care and welfare;

(iii) Ensuring compliance with the standards and guidelines for animal related research, treatment, testing and breeding;
(iv) Acquiring and breeding of animals for research, testing and educational purposes;
(v) Reporting on compliance with local, national and international regulation related to animal welfare and ethics;
(vi) Providing Secretariat services to ethical review boards / committees;
(vii) Designing and assessing animal facilities to meet national and international standards;
(viii) Undertaking the use of Positive Reinforcement Techniques (PRT) and environmental enrichment of animals;
(ix) Handling animals during routine and experimental procedures;
(x) Updating animal health, research, breeding, welfare and ethics databases;
(xi) Participating in dissemination of research finding in conferences, seminars and workshops related to laboratory animals;

3. Capacity Building, Partnerships & Grants Management.

(i) Implementing and reviewing policies, strategies and guidelines on all capacity building, partnership and grants management matters;
(ii) Participating in development of frameworks for engagements on incubation and commercialization of products;
(iii) Updating Institutional database on the Institute's intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
(iv) Preparing training and capacity building materials for researchers and other stakeholders;
(v) Participating in the development of grant proposals, budgets, and reports to funding agencies;
(vi) Monitoring the performance of partnerships and grants;
(vii) Developing technical information for product marketing;
(viii) Undertaking product training to stakeholders;

(b) Person Specification

For appointment to this grade, a candidate must have:-

(i) At least four (4) years' work experience as a Research Scientist or comparable position in the Public or Private sector;
(ii) Bachelor's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

(iii) Membership to a professional body and in good standing where applicable;
(iv) Proficiency in Computer Applications;
(v) Fulfill the requirements of Chapter Six (6) of the constitution 2010.

(c) Key Skills and Competencies

- Planning and organizational skills
- Communication and reporting skills
- Interpersonal skills
- Team player
- Creativity and innovativeness
- Critical thinking skills

III. SENIOR RESEARCH SCIENTIST, JOB GRADE KIP 5

(a) Job Specifications

The duties and responsibilities of the officer will entail: -

1. Research and Product Development

(i) Implementing and reviewing policies, strategies and guidelines on all Biomedical and Preclinical Research matters;
(ii) Undertaking strategy on basic, pre-clinical and translational research using non-human primates and other experimental animals in liaison with the relevant government agencies;
(iii) Implementing laboratory biosafety and biosecurity plans for identified risks with respect to fieldwork and lab-based activities at the Institute;
(iv) Implementing pre-clinical and clinical studies to evaluate the safety and efficacy of Research products for infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(v) Supporting research collaborations with national and international research partners on infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(vi) Performing advocacy on priority research areas including infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(vii) Developing and characterizing both non-human primate and other experimental animal models for priority diseases;

(viii) Implementing research in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(ix) Developing and reviewing of research procedures and protocols in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(x) Disseminating of scientific findings through publications, conferences, seminars and workshops.

(xi) Performing research on drug & vaccine discovery, antivenom research & development, traditional medicine/natural products, health technologies and development of health products

(xii) Participating in conservation strategies to protect and conserve non-human primates, snakes and other priority conservation animals;

(xiii) Undertaking maintenance of a national database on non-human primate, snakes and other priority conservation animals containing their diversity (taxonomy), population status, and geo-spatial distribution for effective prioritization of research, conservation and management;

(xiv) Performing studies on impacts of climate change on biodiversity (including non-human primates and other species), local communities and disease patterns and initiate mitigation strategies;

(xv) Undertaking laboratory quality assurance services;

(xvi) collecting, analyzing and interpreting of biological and health science data across multiple research entities in the institute;

(xvii) Designing of new computational tools for bioinformatics;

(xviii) Assembling and preparing data structures and data analysis frameworks.

2. Animal Science, Welfare & Ethics

(i) Implementing and reviewing policies, strategies and guidelines on animals sciences, breeding, welfare and ethics;

(ii) Implementing ethical guidelines for establishing and enforcing ethical standards and guidelines for animal care and welfare;

(iii) Supporting compliance with the standards and guidelines for animal related research, treatment, testing and breeding;

(iv) Supporting the acquisition and breeding of animals for research, testing and educational purposes;

(v) Performing duties on proper compliance with local, national and international regulation related to animal welfare and ethics;

(vi) Providing Secretariat services to ethical review boards / committees;

(vii) Designing and assessing animal facilities to meet national and international standards;

(viii) Undertaking the use of Positive Reinforcement Techniques (PRT) and environmental enrichment of animals;
(ix) Supporting innovation and improvement in ethical animal handling practices;
(x) Undertaking training and capacity building animals sciences, breeding, welfare and ethics to veterinarians, researchers and other stakeholders;
(xi) Undertaking the maintenance of animal health, research, breeding, welfare and ethics database;
(xii) Participating in organization of conferences, seminars and workshops to disseminate research findings related to laboratory animals;
(xiii) Undertaking collaborative and contract research on laboratory animals;

3. Capacity Building, Partnerships & Grants Management.

(i) Implementing and reviewing policies, strategies and guidelines on all capacity building, partnership and grants management matters;
(ii) Developing frameworks for engagements on incubation and commercialization of products;
(iii) Supporting development of an Institutional database on the Institute's intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
(iv) Supporting preparation of training and capacity building materials for researchers and other stakeholders;
(v) Establishing Institute's intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
(vi) Undertaking training and capacity building to researchers and other staff in the biomedical field;
(vii) Supporting institutional compliance with all applicable laws and regulations on good financial grants management and funder requirements;
(viii) Assisting in the development and submission of grant proposals, budgets, and reports to funding agencies;
(ix) Undertaking duties on the establishment of an innovation and incubation centre linking research and industry in the health products value chain;
(x) Undertaking duties on the development of partnerships and monitoring the performance of partnerships and grants;
(xi) Developing technical information for product marketing;
(xii) Undertaking product training to stakeholders;
(xiii) Assisting in negotiating licenses on institutional Intellectual property rights, drafting license agreements, and monitoring compliance with those agreements;
(xiv) Assisting in providing resource and knowledge management services including accessioning of all new books, classification and cataloging of the same and

keeping custody of relevant literature, information, equipment and documentation for the institute.

(b) Person Specification

For appointment to this grade, a candidate must have: -

(i) At least eight (8) years' relevant work experience, three (3) years' of which must have been in supervisory role in the Public or Private sector;
(ii) Bachelors Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Masters Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Membership to a professional body and in good standing where applicable;
(v) Management course lasting not less than four (4) weeks from a recognized Institution;
(vi) Proficiency in Computer Applications; and
(vii) Fulfill the requirements of Chapter Six (6) of the constitution.

(c) Key Skills and Competencies

- Strategic thinking
- Creativity and innovativeness
- Analytical skills
- Communication and reporting skills
- Leadership skills
- Mentorship skills
- Research fundraising skills
- Interpersonal and negotiation skills
- Team player

IV. PRINCIPAL RESEARCH SCIENTIST - JOB GRADE, KIP 4

(a) Job Specifications

The duties and responsibilities at this level will entail: -

1. Research and Product Development

(i) Formulating, implementing and reviewing policies, strategies and guidelines on all Biomedical and Preclinical Research matters;
(ii) Participating in strategy implementation on basic, pre-clinical and translational research using non-human primates and other experimental animals in liaison with the relevant government agencies;
(iii) Undertaking laboratory biosafety and biosecurity plans for identified risks with respect to fieldwork and lab-based activities at the Institute;
(iv) Supervising the development of new diagnostic tests and tools and conduct research to improve diagnostics for infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(v) Participating pre-clinical and clinical studies to evaluate the safety and efficacy of Research products for infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(vi) Supervising research collaborations with national and international research partners on infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(vii) Developing and reviewing of research procedures and protocols in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(viii) Establishing advocacy on priority research areas including infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(ix) Reviewing Division budgets, allocate resources and ensure efficient use of resources;
(x) Implementing Division work plan, staff performance, discipline, monitoring and evaluation and reporting;
(xi) Developing and characterizing both non-human primate and other experimental animal models for priority diseases;
(xii) Coordinating research in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(xiii) Supporting research fundraising activities in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(xiv) Disseminating of scientific findings through publications, conferences, seminars and workshops.

(xv) Coordinating research on drug & vaccine discovery, antivenom research & development, health technologies and development of health products

(xvi) Undertaking preclinical & clinical validation of traditional knowledge-based natural products with claimed healing for efficacy using non-human primates and other experimental animals;

(xvii) Participating in conservation strategies to protect and conserve non-human primates, snakes and other priority conservation animals;

(xviii) Undertaking establishment and maintenance of a national database on non-human primate, snakes and other priority conservation animals containing their diversity (taxonomy), population status, and geo-spatial distribution for effective prioritization of research, conservation and management;

(xix) Undertaking studies on impacts of climate change on biodiversity (including non-human primates and other species), local communities and disease patterns and initiate mitigation strategies;

(xx) Coordinating incubation and acceleration services to institute startups and spin-offs, including access to funding, mentorship, networking, and other support services.

(xxi) Coordinating laboratory quality assurance services;

(xxii) Coordinating collection, analysis and interpretation of biological and health science data across multiple research entities in the institute;

(xxiii) Supporting the designing of new computational tools for bioinformatics;

(xxiv) Assembling and preparing data structures and data analysis frameworks.

2. Animal Science, Welfare & Ethics

(i) Formulating, implementing and reviewing policies, strategies and guidelines on animals sciences, breeding, welfare and ethics;

(ii) Reviewing ethical guidelines for establishing and enforcing ethical standards and guidelines for animal care and welfare;

(iii) Providing scientific advice and guidance to researchers, veterinarians and other stakeholders on animal related research, testing and breeding;

(iv) Enabling proper compliance on animal related research, treatment, testing, husbandry and breeding;

(v) Regulating the acquisition and breeding of animals for research, testing and educational purposes;

(vi) Supporting management of animal colonies;

(vii) Ensuring compliance with local, national and international regulation related to animal welfare and ethics;

(viii) Supporting the establishment of ethical review boards and committees responsible for approving research protocols involving animals;

(ix) Reviewing designs and maintenance of animal facilities to meet national and international standards;

(x) Participating in the use of Positive Reinforcement Techniques (PRT) and environmental enrichment of animals;
(xi) Enabling innovation and improvement in ethical animal handling practices;
(xii) Supporting training and capacity building animals sciences, breeding, welfare and ethics to veterinarians, researchers and other stakeholders;
(xiii) Supervising the maintenance of animal health, research, breeding, welfare and ethics database;
(xiv) Participating in organization of conferences, seminars and workshops to disseminate research findings related to laboratory animals;
(xv) Supporting collaborative and contract research on laboratory animals;

3. Capacity Building, Partnerships & Grants Management.

(i) Formulating, implementing and reviewing policies, strategies and guidelines on all capacity building, partnership and grants management matters;
(ii) Reviewing framework for engagements on incubation and commercialization of products;
(iii) Undertaking the management of the Institute's intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
(iv) Developing of an Institutional database on the Institute's intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
(v) Reviewing training and capacity building materials for researchers and other stakeholders;
(vi) Performing training and capacity building to researchers and other staff in the biomedical field;
(vii) Supporting institutional compliance with all applicable laws and regulations on good financial grants management and funder requirements;
(viii) Undertaking the development and submission of grant proposals, budgets, and reports to funding agencies;
(ix) Aligning grant-funded projects with the organization's overall strategy;
(x) Supporting the establishment of an innovation and incubation centre linking research and industry in the health products value chain;
(xi) Supporting the development of partnerships and monitoring the performance of partnerships and grants;
(xii) Developing technical information for product marketing;
(xiii) Undertaking product training to stakeholders;
(xiv) Negotiating licenses on institutional Intellectual property rights, drafting license agreements, and monitoring compliance with those agreements;
(xv) Providing resource and knowledge management services including accessioning of all new books, classification and cataloging of the same and keeping custody

of relevant literature, information, equipment and documentation for the institute.

(b) Person Specification

For appointment to this grade, a candidate must have: -

(i) At least ten (10) years relevant work experience, four (4) years of which must have been in supervisory role in the Public or Private sector;
(ii) Bachelors Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Masters Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Doctorate Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(v) Attracted research Funding of not less than Kshs 10 million
(vi) Evidence of at least five (5) publications in refereed journals.
(vii) Membership to a professional body and in good standing where applicable;
(viii) Management course lasting not less than four (4) weeks from a recognized institution
(ix) Proficiency in Computer Applications.
(x) Fulfil the requirements of Chapter Six (6) of the constitution 2010.

(c) Key Skills and Competencies

- Strategic thinking
- Analytical skills
- Critical Thinking
- Communication and reporting skills
- Leadership skills
- Mentorship skills
- Research fundraising skills
- Interpersonal and negotiation skills
- Team player

V. SENIOR PRINCIPAL RESEARCH SCIENTIST – JOB GRADE, KIP 3

(a) Job Specifications

The duties and responsibilities of the officer will entail: -

1. Research and Product Development

(i) Formulating, implementing and reviewing policies, strategies and guidelines on all Biomedical and Preclinical Research matters;
(ii) Preparing Division budgets, allocate resources and ensure efficient use of resources;
(iii) Implementing Division work plan, staff performance, discipline, monitoring and evaluation and reporting;
(iv) Ensuring strategy implementation on basic, pre-clinical and translational research using non-human primates and other experimental animals in liaison with the relevant government agencies;
(v) Implementing laboratory biosafety and biosecurity plans for identified risks with respect to fieldwork and lab-based activities at the Institute;
(vi) Coordinating the development of new diagnostic tests and tools and conduct research to improve diagnostics for infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(vii) Supervising and reviewing of research procedures and protocols in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(viii) Supervising pre-clinical and clinical studies to evaluate the safety and efficacy of Research products for infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(ix) Initiating research collaborations with national and international research partners on infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(x) Undertaking advocacy on priority Research areas including infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;
(xi) Developing and characterizing both non-human primate and other experimental animal models for priority diseases;

(xii) Coordinating research in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(xiii) Supporting research fundraising activities in infectious diseases & One Health, non-communicable diseases, snakebite diseases, reproductive health diseases and / or conservation Biology and other priority research areas;

(xiv) Disseminating of scientific findings through publications, conferences, seminars and workshops.

(xv) Coordinating research on drug & vaccine discovery, antivenom research & development, health technologies and development of health products

(xvi) Undertaking preclinical & clinical validation of traditional knowledge-based natural products with claimed healing for efficacy using non-human primates and other experimental animals;

(xvii) Coordinating conservation strategies to protect and conserve non-human primates, snakes and other priority conservation animals;

(xviii) Coordinating establishment and maintenance of a national database on non-human primate, snakes and other priority conservation animals containing their diversity (taxonomy), population status, and geo-spatial distribution for effective prioritization of research, conservation and management;

(xix) Undertaking studies on impacts of climate change on biodiversity (including non-human primates and other species), local communities and disease patterns and initiate mitigation strategies;

(xx) Coordinate incubation and acceleration services to institute startups and spin-offs, including access to funding, mentorship, networking, and other support services.

(xxi) Coordinating laboratory quality assurance services;

(xxii) Coordinating collection, analysis and interpretation of biological and health science data across multiple research entities in the institute;

(xxiii) Supporting the designing of new computational tools for bioinformatics;

(xxiv) Assembling and preparing data structures and data analysis frameworks.

2. Animal Science, Welfare & Ethics

(i) Formulating, implementing and reviewing policies, strategies and guidelines on animals sciences, breeding, welfare and ethics;

(ii) Developing ethical guidelines for establishing and enforcing ethical standards and guidelines for animal care and welfare;

(iii) Providing scientific advice and guidance to researchers, veterinarians and other stakeholders on animal related research, testing and breeding;

(iv) Ensuring proper compliance on animal related research, treatment, testing, husbandry and breeding;

(v) Overseeing and regulating the acquisition and breeding of animals for research, testing and educational purposes;
(vi) Overseeing management of animal colonies;
(vii) Ensuring compliance with local, national and international regulation related to animal welfare and ethics;
(viii) Guiding in establishing ethical review boards and committees responsible for approving research protocols involving animals;
(ix) Advising on design and maintenance of animal facilities to meet national and international standards;
(x) Promoting the use of Positive Reinforcement Techniques (PRT) and environmental enrichment of animals;
(xi) Identifying opportunities for innovation and improvement in ethical animal handling practices;
(xii) Facilitating training and capacity building animals sciences, breeding, welfare and ethics to veterinarians, researchers and other stakeholders;
(xiii) Ensuring the maintenance of animal health, research, breeding, welfare and ethics database;
(xiv) Organizing conferences, seminars and workshops to disseminate research findings related to laboratory animals;
(xv) Overseeing collaborative and contract research on laboratory animals;

3. Capacity Building, Partnerships & Grants Management.

(i) Formulating, implementing and reviewing policies, strategies and guidelines on all capacity building, partnership and grants management matters;
(ii) Developing framework for engagements on incubation and commercialization of products;
(iii) Coordinating development and update of an Institutional database on the Institute's intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
(iv) Overseeing development of training and capacity building materials for researchers and other stakeholders;
(v) Supporting the management of the Institute's intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
(vi) Enabling training and capacity building to researchers and other staff in the biomedical field;
(vii) Ensuring the institution complies with all applicable laws and regulations on good financial grants management and funder requirements;
(viii) Coordinating the development and submission of grant proposals, budgets, and reports to funding agencies;

(ix) Ensuring that grant-funded projects align with the organization's overall strategy;
(x) Guiding on the establishment of an innovation and incubation centre linking research and industry in the health products value chain;
(xi) Enabling partnerships and monitoring the performance of partnerships and grants;
(xii) Ensuring development of technical information for product marketing;
(xiii) Overseeing product training to stakeholders;
(xiv) Negotiating licenses on institutional Intellectual property rights, drafting license agreements, and monitoring compliance with those agreements;
(xv) Providing resource and knowledge management services including accessioning of all new books, classification and cataloging of the same and keeping custody of relevant literature, information, equipment and documentation for the institute.

(b) Person Specification

For appointment to this grade, a candidate must have: -

(i) At least twelve (12) years relevant work experience, five (5) years of which must have been in supervisory role in the Public or Private sector;
(ii) Bachelors Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iii) Masters Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(iv) Doctorate Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
(v) Attracted research Funding of not less than Kshs 50 million
(vi) Membership to a professional body and in good standing where applicable;
(vii) Evidence of at least fifteen (15) publications in refereed journals;
(viii) Management course lasting not less than four (4) weeks from a recognized institution
(ix) Proficiency in Computer Applications.

(x) Fulfill the requirements of Chapter Six of the constitution 2010.

(c) Key Competencies and skills

- Strategic and Analytical skills
- Communication and reporting skills
- Proposal writing skills
- Leadership skills
- Mentorship, coaching and ability to lead teams
- Research fundraising skills
- Interpersonal and negotiation skills
- Team player

VI. CHIEF RESEARCH SCIENTIST – JOB GRADE, KIP 2

(a) Job Specification

The duties and responsibilities of the officer will entail: -

1. Research and Product Development

i. Coordinating formulation, implementation and review of policies, strategies and guidelines on all Biomedical and Preclinical Research matters;
ii. Overseeing strategy on basic, pre-clinical and translational research using non-human primates and other experimental animals in liaison with the relevant government agencies;
iii. Guiding in the development of early warning systems for emerging and re-emerging diseases;
iv. Overseeing laboratory biosafety and biosecurity plans to manage the identified risks with respect to fieldwork and lab-based activities at the Institute;
v. Overseeing surveillance and monitoring of zoonotic diseases, including those that may pose a threat to human health by monitoring animal and environment to identify and track disease outbreaks;
vi. Supervising the development of new diagnostic tests and tools and conduct research to improve diagnostics for infectious diseases and allowing platforms for health information exchange, streamline diagnostic workflows and improve access to health care.
vii. Supervising pre-clinical and clinical studies to evaluate the safety and efficacy of bacteriophage (phage) therapy in different infection contexts and patient populations.

viii. Guiding on Antimicrobial Resistance (AMR) surveillance necessary for national advocacy on antimicrobial use and stewardship.
ix. Guiding studies on non-human primate conservation biology and primatology;
x. Coordinate the establishment and maintenance of a national non-human primate database on census, research affiliations, and geo-spatial distribution of non-human and related zoonotic diseases;
xi. Overseeing research on venom and anti-venom including snake bite disease;
xii. Overseeing sub-national and national data and statistics on snakebite trends, patterns and distribution to guide decision making processes;
xiii. Supervising snakebite advocacy and social mobilization activities including behavioral change components;
xiv. Supervising preclinical efficacy and safety tests of new antivenoms and those available in the market, and other biologics such as tetanus and rabies vaccines;
xv. Coordinating basic and pre-clinical research on reproductive health, infectious and non-communicable diseases using non-human primates;
xvi. Overseeing development and characterization for both non-human primate and other experimental animal models for priority diseases in Kenya;
xvii. Guiding in research fundraising activities;
xviii. Supervising dissemination of scientific findings through publications, conferences, seminars and workshops.
xix. Overseeing research on health technologies, drug & vaccine discovery and development and pre-clinical pharmacology & medicinal chemistry
xx. Supervising innovative drug delivery and molecular design strategies for targeting infectious and noninfectious diseases;
xxi. Overseeing the development and characterization of non-human primate as models for use in drug discovery and development, delivery, and toxicology in Kenya;
xxii. Overseeing preclinical validation of traditional knowledge-based products with claimed healing for efficacy using monkeys as models
xxiii. Supervising field research on primatology and wildlife ecology with focus on species behavioral ecology (Nutrition, Sociobiology & endocrinology), evolution, conservation and management;
xxiv. Guiding on establishment and maintenance of a national non-human primate database on their diversity (taxonomy), population status, and geo-spatial distribution for effective prioritization of research, conservation and management;
xxv. Overseeing in-situ health monitoring of primate populations and other wildlife and support the zoonosis surveillance activities for purposes of developing early warning systems and preparedness to respond to potential disease outbreaks and threats to endemic and critically endangered primate and other species;

xxvi. Playing a national advisory role on matters of primate conservation & management including mitigation of human-nonhuman primate conflicts or interaction threats;
xxvii. Overseeing studies on impacts of climate change on biodiversity (including primates and other species) and local communities and develop and implement sustainable conservation initiatives or climate actions to promote climate change response in terms of mitigation, adaptation and resilience;
xxviii. Participating in development of policies, processes and guidelines on innovation and incubation management
xxix. Coordinating incubation and acceleration services to institute startups and spin-offs, including access to funding, mentorship, networking, and other support services.
xxx. Guiding on the development of strategies for the research and management of the reproductive health research programs, knowledge generation and capacity building programs;
xxxi. Supervising reproductive disease surveillance in Kenya to obtain data on the current trends of reproductive diseases and current intervention strategies;
xxxii. Overseeing the development and characterization of both non-human primate and other experimental animal models for infectious and for emerging and re-emerging diseases
xxxiii. Overseeing research in non-communicable diseases for intervention and prevention strategies using non-human primates (NHPs) and other experimental models
xxxiv. Supporting the development of strategies for the management and prevention of the non-communicable diseases, knowledge generation and capacity building programs;
xxxv. Overseeing laboratory quality assurance services;
xxxvi. Coordinating collection, analysis and interpretation of biological and health science data across multiple research entities in the institute.
xxxvii. Supervising the design of various new computational tools for bioinformatics and assemble and prepare data structures and determine an effective data analysis framework.

2. Animal Science, Welfare and Ethics

(i) Coordinating formulation, implementation and review of policies, strategies and guidelines on animals sciences, breeding, welfare and ethics;
(ii) Developing and implementing ethical guidelines for establishing and enforcing ethical standards and guidelines for animal care and welfare;

(iii) Providing scientific advice and guidance to researchers, veterinarians and other stakeholders on animal related research, testing and breeding;
(iv) Spearheading proper compliance on animal related research, treatment, testing, husbandry and breeding;
(vi) Overseeing and regulating the acquisition and breeding of animals for research, testing and educational purposes;
(vii) Overseeing management of animal colonies;
(viii) Ensuring compliance with local, national and international regulation related to animal welfare and ethics;
(ix) Participating in establishing ethical review boards and committees responsible for approving research protocols involving animals;
(x) Advising on design and maintenance of animal facilities to meet national and international standards;
(xi) Promoting the use of Positive Reinforcement Techniques (PRT) and environmental enrichment of animals;
(xii) Identifying opportunities for innovation and improvement in ethical animal handling practices;
(xiii) Facilitating training and capacity building animals sciences, breeding, welfare and ethics to veterinarians, researchers and other stakeholders;
(xiv) Overseeing the maintenance and updating of animal health, research, breeding, welfare and ethics database;
(xv) Conducting conferences, seminars and workshops to disseminate research findings related to laboratory animals;
(xvi) Overseeing collaborative and contract research on laboratory animals.

3. Capacity Building, Partnerships and Grants Management

i. Coordinating formulation, implementation and review of policies, strategies and guidelines on all capacity building, partnership and grants management matters;
ii. Developing framework for engagements on Incubation and commercialization of products
iii. Participating in the Institute's intellectual property portfolio, including patents, trademarks, copyrights, and trade secrets among others;
iv. Assessing and offering training to scientists, researchers and healthcare professionals in the biomedical field.
v. Participating in ensuring the institution complies with all applicable laws, regulations, and funder requirements.

vi. Developing and submitting grant proposals, budgets, and reports to funding agencies, ensuring that all requirements are met and that the organization's interests are represented.
vii. Participating in ensuring that grant-funded projects align with the organization's overall strategy
viii. Guiding on the establishment of an innovation and incubation centre linking research and industry in the health products value chain.
ix. Participating in executing partnership and grant agreements.
x. Guiding on the establishment of an incubation centre linking research and industry in the health products value chain;
xi. Monitoring the performance of partnerships and grants.
xii. Providing support and guidance to institute stakeholders on entrepreneurial skills and best practices, including business development, marketing, fundraising, and product development
xiii. Negotiating licenses for clients' IP rights, drafting license agreements, and monitoring compliance with those agreements.
xiv. Guiding the entry of KIPRE into partnerships and collaborations with other similar institutions or professional organizations locally and internationally
xv. Facilitating KIPRE in the development and submission of proposals.
xvi. Providing support and guidance to institute stakeholders on funding opportunities and grant applications, including identifying and pursuing grant opportunities, developing grant proposals, and managing grant project
xvii. Providing resource and knowledge management services including accessioning of all new books, classification and cataloging of the same and keeping custody of relevant literature, information, equipment and documentation for the institute.

(b) Person Specification

i. At least fifteen (15) years relevant work experience, five (5) years of which must have been in senior management position in the Public or Private sector;
ii. Bachelor's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;
iii. Master's Degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical

medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

iv. Doctorate degree in any of the following disciplines: - Biomedical Sciences, Public Health, Environmental Sciences, Conservation Biology, Biology, Veterinary Medicine, Animal Sciences, Medicine, Pharmacy, nursing, clinical medicine, Primatology, Anthropology, Biostatistics, Bioinformatics, Computational Biology or equivalent qualification from a recognized Institution;

v. Evidence of at least twenty (20) publications in refereed journals

vi. Attracted research Funding of not less than Kshs 80 million

vii. Leadership course lasting not less than four (4) weeks from a recognized institution

viii. Membership to a professional body and in good standing where applicable;

ix. Proficiency in Computer Applications.

x. Fulfill the requirements of Chapter Six of the constitution 2010;

(a) Key Competencies and Skills

- Leadership skills.
- Communication skills.
- Mentorship Skills.
- Problem solving.
- Strategic thinking.
- Conflict management.
- Interpersonal skills.
- Organizational skills.
- Negotiation skills.
- Team building

2.19 CAREER GUIDELINE FOR LABORATORY TECHNICIANS

a. Job Purpose

The Research function entails: Performing laboratory experiments; maintenance of laboratory records; archiving of experimental samples and specimens; assisting in field work; Laboratory quality assurance and control; and and preparation of experimental laboratory reagents;

b. Functions

This cadre is responsible for the following functions:

i. Participate in planning, developing, implementing, interpreting and reviewing of medical laboratory policies, standards, guidelines, programs and scientific proposals;
ii. Support in management and coordinating of laboratory services;
iii. Provide diagnostic medical laboratory services to support preventive, promotive, curative and palliative health care services and research;
iv. Design and develop the necessary laboratory infrastructure needed for biobanking
v. Perform biobanking activities
vi. Manage of research samples and specimens;
vii. Assist in field research activities
viii. Support research through provision of laboratory services;
ix. Provide specifications, evaluation and validation of laboratory equipment, reagents and chemicals;
x. Support in establishment and maintenance systems for preserving samples for future and database referencing;
xi. Ensure biosafety and biosecurity practices of laboratory services;
xii. Maintain laboratory records, data and information;
xiii. Ensure quality assurance and control in laboratory services;
xiv. Enforce proper procedure for disposal of laboratory waste and ensuring containment of hazardous materials; and
xv. Provide technical advice to the management on recruitment of new laboratory staff, capacity building and continuous training for staff and students.
xvi. Support of research through ensuring general cleanliness and wellness of laboratory work environments.
xvii. Preparation of laboratory reagents;
xviii. Laboratory sample reception and accessioning.
xix. Record and reporting of results.
xx. Dispatch the results.
xxi. Routine and daily maintenance of laboratory equipment.
xxii. Support adherence to biosafety and biosecurity guidelines.
xxiii. Support compliance with quality assurance and control guidelines in laboratory services.
xxiv. Enforce proper procedure for disposal of laboratory waste and ensuring containment of hazardous materials.

c. Grading Structure

The Career Guidelines establishes three (3) grades of Laboratory Technicians who will be designated and graded as follows:

S/No	DESIGNATION	KIP GRADE
1.	Laboratory Technician	9
2.	Senior Laboratory Technician	8
3.	Principal Laboratory Technician	7

Note: *The grades of Laboratory Technician/Senior KIP 9/8 will form a common establishment for the purpose of this Career Guideline.*

d. Recognized Qualifications

The following are the Recognized Qualification for this cadre:

i. Certificate in any of the following fields: Medical Laboratory Sciences, Laboratory Sciences, Laboratory Technology, Medical Laboratory Technology or equivalent qualification from a recognized Institution.
ii. Diploma in any of the following disciplines: - Medical, Biomedical Laboratory Science, Environmental, Conservation or equivalent qualification from a recognized Institution.
iii. Registration Certificate issued by the Kenya Medical Laboratory Technicians and Technologists Board (KMLTTB) where applicable.
iv. Valid practicing license from Kenya Medical Laboratory Technicians and Technologists Board where applicable.
v. Proficiency in Computer Applications.
vi. Relevant work experience.
vii. Fulfill the requirements of Chapter Six of the Constitution.

JOB AND PERSON SPECIFICATIONS

I. LABORATORY TECHNICIAN, JOB GRADE KIP 9

This is the entry and training grade for this cadre. An officer at this level will work under the guidance and supervision of a Senior Officer.

a. Job Specifications

The duties and responsibilities at this level will entail:

i. Collecting, preparing and store research samples and specimen;
ii. Assisting in maintaining laboratory records and equipment;
iii. Assisting in performing analytical and diagnostic work;
iv. Ensuring clean and safe working environment;
v. Assisting in designing and developing the necessary laboratory infrastructure needed for biobanking
vi. Performing biobanking activities
vii. Assisting in preparing reagents and materials;
viii. Handling and disposing laboratory waste;
ix. Collecting, preparing and storing research samples and specimen; and
x. Assisting in field work.

b. Person Specification

For appointment to this grade, a candidate must have: -

i. Diploma in any of the following fields: Medical Laboratory Sciences, Laboratory sciences, Laboratory Technology, Medical Laboratory Technology or any other equivalent qualification from a recognized Institution;
ii. Registration Certificate issued by the Kenya Medical Laboratory Technicians and Technologists Board (KMLTTB) where applicable;
iii. Valid practicing license from Kenya Medical Laboratory Technicians and Technologists Board where applicable;
iv. Proficiency in computer applications;
v. Demonstrated work performance and results; and
vi. Fulfill the requirements of Chapter Six of the Constitution.

c. Key Skills and Competencies

- Planning and supervisory skills
- Analytical skills
- Communication and reporting skills
- Interpersonal skills
- Team player
- Mentorship skills

II. SENIOR LABORATORY TECHNICIAN, JOB GRADE KIP 8

a. Job Specifications

The duties and responsibilities at this level will entail:

i. Implementing laboratory standards and procedures;
ii. Participating in disinfection, sterilization and waste management in the laboratory to ensure safe working environment;
iii. Maintain records of tests and samples;
iv. Cleaning laboratory equipment to ensure quality results in laboratory sampling and testing;
v. Maintaining a clean and safe working environment to avoid contamination of final products;
vi. Designing and develop the necessary laboratory infrastructure needed for biobanking
vii. Performing biobanking activities
viii. Participating in preparation of reagents to ensure quality in service delivery;
ix. Performing simple analytical and diagnostic work;
x. Ensure compliance to regulatory requirements and licensure;
xi. Ensuring waste segregation and disposal; and
xii. Collecting samples in the field and maintaining field data.

b. Person Specification

For appointment to this grade, a candidate must have: -

i. At least four (4) years relevant work experience;
ii. Diploma in any of the following fields: Medical Laboratory Sciences, Laboratory Sciences, Laboratory Technology, Medical Laboratory Technology or any other equivalent qualification from a recognized Institution;
iii. Registration Certificate issued by the Kenya Medical Laboratory Technicians and Technologists Board (KMLTTB) where applicable;
iv. Valid practicing license from Kenya Medical Laboratory Technicians and Technologists Board where applicable;
v. Proficiency in computer applications;
vi. Demonstrated work performance and results; and
vii. Fulfill the requirements of Chapter Six of the Constitution.

c. Key Skills and Competencies

- Communication
- Reporting skills
- Interpersonal skills
- Team player
- Mentorship skills

III. PRINCIPAL LABORATORY TECHNICIAN JOB GRADE KIP 7

a. Job Specifications

The duties and responsibilities at this level will entail:

i. Implementing laboratory standards and procedures;
ii. Supervising and guiding laboratory technicians, interns and students;
iii. Collecting, receiving, processing and storing of sample to ensure integrity for future use;
iv. Maintaining laboratory equipment for smooth running of the procedures;
v. Ensuring clean and safe working environment to avoid contamination of final products;
vi. Designing and develop the necessary laboratory infrastructure needed for biobanking
vii. Performing biobanking activities
viii. Preparing and storing laboratory reagents;
ix. Maintain records of tests and samples;
x. Supporting field research activities
xi. Ensure compliance to regulatory requirements and licensure;
xii. Performing analytical and diagnostic procedures in the laboratory to contribute to efficiency in service delivery; and
xiii. Ensuring that all laboratory waste is disinfected and disposed appropriately to avoid environmental contamination

b. Person Specification

For appointment to this grade, a candidate must have: -

i. At least eight (8) years relevant work experience;
ii. Diploma in any of the following fields: Medical Laboratory Sciences, Laboratory Sciences, Laboratory Technology, Medical Laboratory Technology or any other equivalent qualification from a recognized Institution;
iii. Registration Certificate issued by the Kenya Medical Laboratory Technicians and Technologists Board (KMLTTB) where applicable;
iv. Valid practicing license from Kenya Medical Laboratory Technicians and Technologists Board where applicable;
v. Proficiency in computer applications;
vi. Demonstrated work performance and results; and
vii. Fulfill the requirements of Chapter Six of the Constitution.

c. Key Skills and Competencies

- Planning and supervisory skills
- Analytical skills
- Communication and reporting skills
- Interpersonal skills
- Team player
- Mentorship skills

2.20 CAREER GUIDELINE FOR ANIMAL HEALTH PERSONNEL

a. Job Purpose

The job holders perform daily husbandry, care, restraint and observation of laboratory animals in routine and experimental programs; provide technical assistance and laboratory animal welfare; support field related activities; and related duties as assigned by research scientists and veterinarians.

b. Functions

This cadre is responsible for the following functions:

(i) Perform daily husbandry (watering, feeding etc), care, restraint and observation of laboratory animals in routine and experimental programs, under supervision of a senior officer;

(ii) Provide limited technical assistance in the clinical care of laboratory animals and collection of routine clinical and experimental data, under supervision of a senior officer;

(iii) Assist in ensuring animal housing standards remain responsive to needs of the animals;

(iv) Assist in maintaining the welfare of laboratory animals as per national and international standards;

(v) Ensure general cleanliness of the animal houses/cages and surrounding environment;

(vi) Ensure proper disposal of animal waste as per the waste management and disposal guidelines.

(vii) Maintain an inventory of animal species;

(viii) Maintain an inventory of animal feeds and other supplies for the animal house;

(ix) Ensure proper breeding cycles of animals;

(x) Make the animals available according to researchers' needs.

(xi) Liaise with the researchers regarding their animal research needs;

(xii) Ensure proper transport and storage of laboratory animal samples and biobanking;

(xiii) Manage the infrastructural, operational, facility management, maintenance, and logistics coordination of research facilitation at the established institutional field site.

(xiv) In collaboration with research scientists support the field research station operations, logistical co-ordination of the implementation of field project activities at the site.
(xv) Provide the necessary basic needs for researchers at the field research station for smooth implementation of projects.
(xvi) Work towards promoting good working relationship between the field research station, the mother institution, local neighboring communities and both local and international scientific community.
(xvii) Provide a conducive work environment for all research scientist carrying out research at the respective field site.

c. Grading Structure and Scope

The Career Guideline establishes three (3) grades for Animal Health Assistants and three (3) grades of Animal Health Technicians positions that will be designated and graded as follows:

S/No	DESIGNATION	KIP GRADE
1.	Animal Health Assistant	12
2.	Senior Animal Health Assistant	11
3.	Principal Animal Health Assistant	10
4.	Animal Health Technician	9
5.	Senior Animal Health Technician	8
6.	Principal Animal Health Technician	7

Note: *The grades of Animal Health Assistant/Senior, KIP 12/11 and Animal Health Technician/Senior, 9/8 will form a common establishment for the purpose of this Career Guideline.*

d. Recognized Qualifications

The following are the recognized qualifications for the purpose of this career guideline:

(i) K.C.S.E certificate or equivalent from a recognized Institution;
(ii) Certificate in any of the following fields: - Animal Science, Animal Health, Animal Husbandry, Conservation Biology, Animal Ecology, Community Conservation, Biomedical research, environmental conservation or equivalent qualification from a recognized Institution.
(iii) Diploma in any of the following fields: Animal Science, Animal Health, Animal Husbandry, Conservation Biology, Animal Ecology, Community Conservation,

Biomedical research, environmental conservation or equivalent qualification from a recognized Institution.

(iv) Membership to Kenya Veterinary Board, where applicable.
(v) Proficiency in computer application.
(vi) Fulfill the requirement of Chapter Six of the constitution.

JOB AND PERSON SPECIFICATIONS

ANIMAL HEALTH ASSISTANTS

I. ANIMAL HEALTH ASSISTANT, JOB GRADE KIP 12

This is the entry and training grade for K.C.S.E Certificate holders. An officer at this level works under the guidance and supervision of a Senior Officer.

(a) Job Specifications

The duties and responsibilities of the officer will entail: -

(i) Performing daily husbandry (watering, feeding etc), care, restraint and observation of laboratory animals in routine and experimental programs, under supervision of a senior officer;

(ii) Providing limited technical assistance in the clinical care of laboratory animals and collection of routine clinical and experimental data, under supervision of a senior officer;

(iii) Assisting in ensuring animal housing standards remain responsive to needs of the animals;

(iv) Assisting in maintaining and reporting the welfare of laboratory animals as per national and international standards;

(v) Ensuring general cleanliness of the animal houses/cages and surrounding environment;

(vi) Ensuring proper disposal of animal waste as per the waste management and disposal guidelines.

(vii) In collaboration with research scientists support the field research station operations, logistical co-ordination of the implementation of field project activities at the site.

(b) Person Specification

For appointment to this grade, a candidate must have: -

(i) K.C.S.E certificate or equivalent from a recognized Institution;
(ii) Proficiency in computer applications; and
(iii) Fulfill the requirement of Chapter Six of the constitution.

(c) Key Skills and Competencies

- Planning and Organizing skills
- Communication skills
- Interpersonal skills
- Team player

II. SENIOR ANIMAL HEALTH ASSISTANT, JOB GRADE KIP 11

(a) Job Specifications

The duties and responsibilities of the officer will entail: -

(i) Performing daily husbandry (watering, feeding etc), care, restraint and observation of laboratory animals in routine and experimental programs, under supervision of a senior officer;

(ii) Providing limited technical assistance in the clinical care of laboratory animals and collection of routine clinical and experimental data, under supervision of a senior officer;

(iii) Assisting in ensuring animal housing standards remain responsive to needs of the animals;

(iv) Assisting in maintaining and reporting the welfare of laboratory animals as per national and international standards;

(v) Ensuring general cleanliness of the animal houses/cages and surrounding environment;

(vi) Ensuring proper disposal of animal waste as per the waste management and disposal guidelines;

(vii) In collaboration with research scientists support the field research station operations, logistical co-ordination of the implementation of field project activities at the site.

(b) Person Specification

For appointment to this grade, a candidate must have: -

(i) At least four (4) years of relevant work experience

(ii) K.C.S.E certificate or equivalent from a recognized Institution;
(iii) Assistant or equivalent position in the Public or Private sector;
(iv) Proficiency in computer applications;
(v) Fulfill the requirement of Chapter Six of the constitution.

(c) Key Skills and Competencies

- Planning and Organizing skills
- Communication skills
- Interpersonal skills
- Team player

III. SENIOR ANIMAL HEALTH ASSISTANT, JOB GRADE KIP 10

(a) Job Specifications

The duties and responsibilities of the officer will entail: -

(i) Performing daily husbandry (watering, feeding etc), care, restraint and observation of laboratory animals in routine and experimental programs, under supervision of a senior officer;

(ii) Providing limited technical assistance in the clinical care of laboratory animals and collection of routine clinical and experimental data, under supervision of a senior officer;

(iii) Assisting in ensuring animal housing standards remain responsive to needs of the animals;

(iv) Assisting in maintaining and reporting the welfare of laboratory animals as per national and international standards;

(v) Ensuring general cleanliness of the animal houses/cages and surrounding environment;

(vi) Ensuring proper disposal of animal waste as per the waste management and disposal guidelines;

(vii) In collaboration with research scientists support the field research station operations, logistical co-ordination of the implementation of field project activities at the site.

(viii) Supervising junior staff.

(b) Person Specification

For appointment to this grade, a candidate must have: -

(i) At least eight (8) years of relevant work experience;
(ii) K.C.S.E certificate or equivalent from a recognized Institution;

(iii) Certificate in Animal Science, Animal Health, Animal Husbandry, Conservation Biology, Animal Ecology, Community Conservation, Biomedical research, environmental conservation or equivalent from a recognized Institution;
(iv) Membership to Kenya Veterinary Board;
(v) Proficiency in computer applications; and
(vi) Fulfill the requirement of Chapter Six of the constitution.

(c) Key Skills and Competence

- Planning and organizing Skills
- Communication Skills
- Interpersonal skills
- Team player

ANIMAL HEALTH TECHNICIANS

IV. ANIMAL HEALTH TECHNICIAN, JOB GRADE KIP 9

(a) Job Specifications

The duties and responsibilities of the officer will entail: -

(i) Performing daily husbandry (watering, feeding etc), care, restraint and observation of laboratory animals in routine and experimental programs, under supervision of a senior officer;

(ii) Providing technical assistance in the clinical care of laboratory animals and collection of routine clinical and experimental data, under supervision of a senior officer;

(iii) Organizing and segregating animals according to sex and breeding needs;

(iv) Assisting in ensuring animal housing standards remain responsive to needs of the animals;

(v) Assisting in ensuring proper transport and storage of laboratory animal samples and biobanking;

(vi) Assisting in maintaining and reporting the welfare of laboratory animals as per national and international standards;

(vii) Ensuring general cleanliness/sanitation of the animal houses/cages and surrounding environment;
(viii) Ensuring proper disposal of animal waste as per the waste management and disposal guidelines;

(ix) Assisting in maintaining an inventory of animal species;

(x) Assisting in maintaining an inventory of animal feeds and other supplies for the animal house;
(xi) Assisting in ensuring proper breeding cycles of animals;
(xii) Making the animals available according to researchers' needs.
(xiii) Liaising with the researchers regarding their animal research needs;
(xiv) Managing the infrastructural, operational, facility management, maintenance, and logistics coordination of research facilitation at the established institutional field site.
(xv) In collaboration with research scientists support the field research station operations, logistical co-ordination of the implementation of field project activities at the site.
(xvi) Providing the necessary basic needs for researchers at the field research station for smooth implementation of projects.
(xvii) Supervising junior staff.

(b) Person Specification

For appointment to this grade, a candidate must have: -

(i) K.C.S.E certificate or equivalent from a recognized Institution;
(ii) Diploma in Animal Science, Animal Health, Animal Husbandry, Conservation Biology, Animal Ecology, Community Conservation, Biomedical research, environmental conservation or equivalent from a recognized Institution;
(iii) Membership to Kenya Veterinary Board;
(iv) Proficiency in computer applications; and
(v) Fulfill the requirement of Chapter Six of the constitution.

(c) Key Skills and Competence

- Planning and organizing Skills
- Communication Skills
- Interpersonal skills
- Team player

V. SENIOR ANIMAL HEALTH TECHNICIAN, JOB GRADE KIP 8

(a) Job Specifications

The duties and responsibilities at this level will entail: -

(i) Performing daily husbandry (watering, feeding etc), care, restraint and observation of laboratory animals in routine and experimental programs, under supervision of a senior officer;

(ii) Providing technical assistance in the clinical care of laboratory animals and collection of routine clinical and experimental data, under supervision of a senior officer;

(iii) Organizing and segregating animals according to sex and breeding needs;

(iv) Assisting in ensuring animal housing standards remain responsive to needs of the animals;

(v) Assisting in maintaining and reporting the welfare of laboratory animals as per national and international standards;

(vi) Ensuring proper transport and storage of laboratory animal samples and biobanking;

(vii) Ensuring general cleanliness/sanitation of the animal houses/cages and surrounding environment;

(viii) Ensuring proper disposal of animal waste as per the waste management and disposal guidelines;

(ix) Assisting in maintaining an inventory of animal species;

(x) Assisting in maintaining an inventory of animal feeds and other supplies for the animal house;

(xi) Assisting in ensuring proper breeding cycles of animals;

(xii) Making the animals available according to researchers' needs.

(xiii) Liaising with the researchers regarding their animal research needs;

(xiv) Managing the infrastructural, operational, facility management, maintenance, and logistics coordination of research facilitation at the established institutional field site.

(xv) In collaboration with research scientists support the field research station operations, logistical co-ordination of the implementation of field project activities at the site.

(xvi) Providing the necessary basic needs for researchers at the field research station for smooth implementation of projects.

(xvii) Supervising junior staff.

(b) Person Specification

For appointment to this grade, a candidate must have: -

(i) At least four (4) years of relevant work experience

(ii) K.C.S.E certificate or equivalent from a recognized Institution;

(iii) Diploma in Animal Science, Animal Health, Animal Husbandry, Conservation Biology, Animal Ecology, Community Conservation, Biomedical research, environmental conservation or equivalent from a recognized Institution;
(iv) Membership to Kenya Veterinary Board;
(v) Proficiency in computer applications; and
(vi) Fulfill the requirement of Chapter Six of the constitution.

(c) Key Skills and Competence

- Planning and organizing Skills
- Communication Skills
- Interpersonal skills
- Team player

VI. PRINCIPAL ANIMAL HEALTH TECHNICIAN, JOB GRADE KIP 7

(a) Job Specifications

The duties and responsibilities at this level will entail: -

(i) Performing daily husbandry (watering, feeding etc), care, restraint and observation of laboratory animals in routine and experimental programs, under supervision of a senior officer;

(ii) Providing technical assistance in the clinical care of laboratory animals and collection of routine clinical and experimental data, under supervision of a senior officer;

(iii) Organizing and segregating animals according to sex and breeding needs;

(iv) Ensuring animal housing standards remain responsive to needs of the animals;

(v) Maintaining and reporting the welfare of laboratory animals as per national and international standards;

(vi) Ensuring general cleanliness/sanitation of the animal houses/cages and surrounding environment;

(vii) Ensuring proper disposal of animal waste as per the waste management and disposal guidelines;

(viii) Ensuring proper transport and storage of laboratory animal samples and biobanking;

(ix) Maintaining an inventory of animal species;

(x) Maintaining an inventory of animal feeds and other supplies for the animal house;

(xi) Supervises the organization and segregation of animals according to sex and breeding needs;
(xii) Ensuring proper breeding cycles of animals;
(xiii) Making the animals available according to researchers' needs.
(xiv) Liaising with the researchers regarding their animal research needs;
(xv) Managing the infrastructural, operational, facility management, maintenance, and logistics coordination of research facilitation at the established institutional field site.
(xvi) In collaboration with research scientists support the field research station operations, logistical co-ordination of the implementation of field project activities at the site.
(xvii) Providing the necessary basic needs for researchers at the field research station for smooth implementation of projects.
(xviii) Supervising junior staff.

(b) Person Specification

For appointment to this grade, a candidate must have:-

(i) At least eight (8) years of relevant work experience;
(ii) K.C.S.E certificate or equivalent from a recognized Institution;
(iii) Diploma in Animal Science, Animal Health, Animal Husbandry, Conservation Biology, Animal Ecology, Community Conservation, Biomedical research, environmental conservation or equivalent from a recognized Institution;
(iv) Membership to Kenya Veterinary Board;
(v) Proficiency in computer applications; and
(vi) Fulfill the requirement of Chapter Six of the constitution.

(c) Key Skills and Competencies

(i) Planning and supervisory skills
(ii) Analytical skills
(iii) Communication and reporting skills
(iv) Interpersonal skills
(v) Team player
(vi) Mentorship skills

2.21 CAREER GUIDELINES FOR LEGAL OFFICERS

a) Job Purpose

This cadre is responsible for provision of legal advice, litigation, conveyance, preparations of contracts and Board Secretariat Services.

b) Functions

The functions of this cadre are to:

i). Formulate and implement strategies on all legal matters;

ii). Provide legal opinion or advice on governance matters within the Institute;

iii). Interpret legal instruments and statutes for the Institute;

iv). Authenticate documents issued to the Institute as collateral, securities or support documents for loans and undertake conveyance;

v). Ensure full compliance with Law, legislative issues, policies and procedures as stipulated by the statutes;

vi). Conduct legal research, investigation, preparation of witnesses for pre-trial and hearing;

vii). Develop concept papers, preparing legal briefs and opinions as well as development of effective defence strategies, arguments and testimony in preparation for legal proceedings of cases in liaison with external lawyers;

viii). Maintain an up-to-date record of gazetted matters which relate to the Institute;

ix). Ensure the Institute complies with statutory and other regulatory requirements by undertaking periodic legal compliance audit;

x). Ensure the Institute is represented in Court and arbitrations as may be required;

xi). Draft and review contracts and other documents to ascertain fairness to the Institute and conformity with the law;

xii). Coordinate all litigations in liaison with the State Law Office.

xiii). Draw and process legal notices and other gazettement that is to be issued by the Institute;

xiv). Coordinate and undertake the review of laws, by-laws and regulations relating to the Institute;

xv). Participate in the negotiations of agreements and contracts between the Institute and other parties/organizations;

xvi). Keep custody of all legal instruments for the Institute.

xvii). Be the custodian of the seal of the Organization and account to the Board for its use;

xviii). Provide guidance to the Board on their duties and responsibilities and on matters of corporate governance;

xix). Assist the Board in;

- carrying out Board induction and training,
- updating the board charters,
- preparation of board work plans,
- carrying out Board evaluation,
- governance audit, and
- Implementation of the code of conduct and ethics;

xx). Ensure timely preparation and circulation of Board papers;

xxi). Maintain and update the register of conflicts of interest; and

xxii). Ensure legal returns are promptly filed with the relevant authorities;

c) Grading Structure

The Career Guidelines establish three (3) grades for paralegal officers, five (5) grades for Legal Officers and one (1) grade for Corporation Secretary designated and graded as follows: -

S/No.	Designation	KIP Grade
1.	Paralegal Officer	9
2.	Senior Paralegal Officer	8
3.	Principal Paralegal Officer	7
4.	Legal Officer	7

5.	Senior Legal Officer	6
6.	Principal Legal Officer	5
7.	Assistant Director, Legal Services	4
8.	Deputy Director, Legal Services	3
9.	Corporation Secretary and Director Legal Services	2

The position of Para-Legal Officer/Senior, GRADE KIP 9/8 and the position of Legal Officer/Senior, GRADE KIP 7/6 will form common establishment for the purpose of this career guideline.

d) Recognized Qualifications

The following are the recognized qualifications for the purpose of this Career Guidelines:

i). Diploma in Law from a recognized institution

ii). Bachelors of Laws (LL. B) degree from a recognized institution.

iii). Masters degree in Law (LL.M), Masters in Social Sciences, Master of Business Administration, Corporate Governance or equivalent qualification from a recognized Institution.

iv). Postgraduate Diploma in Law (Advocates Training Programme) from the Kenya School of Law;

v). Membership to the Law Society of Kenya (LSK) and in good standing;

vi). Membership to the Institute of Certified Secretaries (ICS) and in good standing;

vii). Admission to the Roll of Advocates of the High Court of Kenya;

viii). Current Advocates Practicing Certificate;

ix). Leadership course lasting not less than four (4) weeks from a recognized Institution;

x). Management Course lasting not less than four (4) weeks from a recognized institution;

xi). Supervisory Course lasting not less than two (2) weeks from a recognized institution;

xii). Proficiency in computer applications; and

xiii). Fulfilled the provisions of Chapter Six of the Constitution.

JOB AND PERSON SPECIFICATIONS

I. PARALEGAL OFFICER, GRADE KIP 9

(a) Job Specification

This is the entry and training grade for diploma holders in this cadre. An officer in this level will work under the guidance of a senior officer.

Duties and responsibilities at this level will entail assisting in:

i). Reviewing and retrieving files for relevant action.
ii). Opening legal files
iii). Photocopying file documents
iv). Filing contract and court documents
v). Responding to queries regarding specific issues
vi). Facilitating payments of legal fees
vii). Serving legal documents to clients and stakeholder
viii). Collaborating with the Senior Legal Assistant, monitoring all security documents; Terms and Expiry
ix). Obtaining the Kenya Gazette weekly and perusing, preparing and submitting reports on any matter touching on the Institute.

(b) Person Specifications

i). Diploma in Law, Paralegal Studies or Administration (with bias in Legal matters) from a recognized institution
ii). Proficiency in Computer Applications
iii). A Current process server certificate or its equivalent
iv). Fulfillment of the Chapter 6 of Kenyan Constitution

(c) Skills and Competencies

i). Interpersonal skills;

ii). Communication skills;

iii). Ability to work independently and in a team;

iv). Ability to meet deadlines;

v). Ability to supervise others;

vi). Customer focus;

vii). Escalating any complex ICT- related faults for further action.

viii). Develop checklists for reoccurring problems.

ix). Developing recommendations for procedures to prevent problems.

(b) Person Specifications

For appointment to this grade, a candidate must have:

i). Diploma in any of the following disciplines: Computer Science, Computer Engineering, Information Technology, Business Information Technology or equivalent qualification from a recognized institution;

ii). Fulfilled the requirements of Chapter Six (6) of the Constitution.

(c) Skills and Competencies

i). Interpersonal skills;

ii). Communication skills;

iii). Ability to work independently and in a team;

iv). Ability to meet deadlines;

v). Ability to supervise others;

vi). Customer focus;

II. SENIOR ICT ASSISTANT, GRADE KIP 8

(a) Job Specification

Duties and responsibilities at this level will entail:

i). Carrying out installations, configuring and maintaining computer hardware, software, systems, networks and other equipment;

ii). Implementing computer systems and providing user support;

iii). Undertaking scheduled maintenance upgrades and conducting periodic preventive maintenance of ICT equipment;

iv). Investigating, diagnosing and solving computer software and hardware faults;

v). Investigating and troubleshooting ICT issues and performing root cause analysis of reported cases;

vi). Assisting in design of training programmes;

vii). Undertaking relocation and movement of ICT equipment to minimize damage; and

viii). Providing first point of contact for providing technical support and assistance

(b) Person Specifications

For appointment to this grade, a candidate must have:

i). A minimum of four (4) years relevant work experience;

ii). Diploma in any of the following disciplines: Computer Science, Computer Engineering, Information Technology, Business Information Technology or equivalent qualification from a recognized institution;

iii). Fulfilled the requirements of Chapter Six (6) of the Constitution.

(c) Skills and Competencies

i). Interpersonal skills;

ii). Communication skills;

iii). Ability to work independently and in a team;

iv). Ability to meet deadlines;

v). Ability to supervise others;

vi). Customer focus;

vii). Report/Minute writing skills;

III. PRINCIPAL ICT ASSISTANT, GRADE KIP 7

(a) Job Specification

Duties and responsibilities at this level will entail:

i). Carrying out installations, configuring and maintaining computer hardware, software, systems, networks and other equipment;

ii). Implementing computer systems and providing user support;

iii). Undertaking scheduled maintenance upgrades and conducting periodic preventive maintenance of ICT equipment;

iv). Investigating, diagnosing and solving computer software and hardware faults;

v). Investigating and troubleshooting ICT issues and performing root cause analysis of reported cases;

vi). Assisting in design of training programmes;

vii). Undertaking relocation and movement of ICT equipment to minimize damage;

viii). Providing first point of contact for providing technical support and assistance

ix). Assist in monitoring network performance;

x). Assist in maintaining support systems and training of end users on emerging technologies; and

xi). Assist in Developing specifications for programs

(b) Person Specifications

For appointment to this grade, a candidate must have:

iv). At least eight (8) years relevant work experience;

v). Diploma in any of the following disciplines: Computer Science, Computer Engineering, Information Technology, Business Information Technology or equivalent qualification from a recognized institution;

vi). Fulfilled the requirements of Chapter Six (6) of the Constitution.

(c) Skills and Competencies

i). Interpersonal skills;

ii). Communication skills;

iii). Ability to work independently and in a team;

iv). Ability to meet deadlines;

v). Ability to supervise others;

vi). Customer focus;

vii). Report/Minute writing skills;

IV. INFORMATION COMMUNICATION TECHNOLOGY OFFICER, GRADE KIP 7

(a) Job Specification

This is the entry and training grade for degree holders in this cadre. An officer at this level will work under the guidance of a senior officer.

Duties and responsibilities at this level will entail assisting in:

i). Receiving and installing ICT equipment;

ii). Configuring and testing of computer hardware and software including network appliances;

iii). Performing routine backups;

iv). Website maintenance;

vi). Managing helpdesk application and generation of quarterly reports;

vii). Installing necessary hardware and software upgrades into ICT network;

viii). Documenting and reporting on standards, compliance including ISO and Risk Assessment;

ix). Monitoring network performance; and

x). Maintaining support systems and training of end users on emerging technologies.

xi). Developing specifications for programs

(b) Person Specifications

For appointment to this grade, a candidate must have:

i). Bachelor's degree in any of the following fields: - Information Technology, Computer Science, Computer Engineering or equivalent qualification from a recognized institution;

ii). Fulfilled the requirements of Chapter Six (6) of the Constitution.

(c) Skills and Competencies

i). Interpersonal skills;

ii). Communication skills;

iii). Ability to meet deadlines;

iv). Customer focus;

V. SENIOR INFORMATION COMMUNICATION TECHNOLOGY OFFICER, GRADE KIP 6

a) Job Specification

Duties and responsibilities at this level will entail:

i). Configuring ICT systems and installing the necessary software's and

ii). network settings

iii). Testing and evaluating new technology;

iv). Maintaining documentation and inventory of applications, systems, networks including software, licenses and contract renewals and ICT equipment;

v). Deploying and maintaining of Data centers for Optimal Power performance Air Conditioners and network appliances;

vi). Monitoring integrity in use of ICT facilities;

vii). Maintenance of computers, networks including LAN, VLANS appliances, routers, switches, firewall and security applications;

viii). Updating the website and Intranet as necessary as per the needs of the Institute and in liaison with Communication Department;

ix). Deploying of updated and new applications from the test environment to live;

x). Server and storage management and configuration including installing new and upgrading of existing servers, patch management on applications, systems and appliances;

xi). Performing regular security monitoring to identify and intercept any intrusions;

xii). Monitoring and evaluating performance of operations of hardware and software, recommending changes to improve systems and network configurations and determining hardware or software requirements;

b) Person Specifications

For appointment to this grade, a candidate must have:

i). At least four (4) years relevant work experience;

ii). Bachelors degree in any of the following fields: Information Technology, Computer Science, Computer Engineering or equivalent qualification from a recognized institution;

iii). Qualifications in either of the following areas: Certified Information Security Management (CISM), Certified Information Systems Auditor (CISA), or equivalent Database Management skills (MSSQL/ORACLE/MYSQL/IBM) Web development certifications (PHP, HTML, ASP) or relevant qualifications from a recognized institution.

iv). Membership to a professional body where applicable and in good standing;

v). Supervisory Course lasting not less than two (2) weeks from a recognized institution.

vi). Fulfilled the requirements of Chapter Six (6) of the Constitution.

c) Skills and Competencies

i). Interpersonal skills;

ii). Communication skills;

iii). Ability to work independently and in a team;

iv). Ability to plan and prioritize tasks;

v). Ability to meet deadlines;

vi). Ability to supervise others;

vii). Problem solving skills;

viii). Analytical skills;

ix). Customer focus;

x). Decision making skills;

xi). Report/Minute writing skills;

VI. PRINCIPAL INFORMATION COMMUNICATION TECHNOLOGY OFFICER, GRADE KIP 5

(a) Job Specification

Duties and responsibilities at this level will entail:

i). Coordinating the implementation of network security measures;

ii). Establishing appropriate operational procedures, tools and resources to ensure safety of the Institute's ICT Assets;

v). Installing of server software and upgrading of existing servers;

vi). Designing, maintenance, management and development of the Corporate network infrastructure, associated network services, platform infrastructure and core ICT business services;

vii). Ensuring technical and operational support for systems and infrastructure including networks, servers, website, Intranet email, Accounting Systems, database and other Institute's ICT related applications;

viii). Implementing measures to continually ensure electronic security of sensitive and critical Institute's information;

ix). Managing incidents and service requests requiring third level support logged by users through the Institute's ICT help desk;

x). Preparing schedules for preventive maintenance and preventive maintenance reports;

xi). Ensuring implementation of ICT policies and procedures.

xii). Ensuring ICT projects are implemented with agreed specifications;

xiii). Reviewing results of feasibility studies and recommend areas of automation;

xiv). Ensuring compliance with relevant statutory regulations

xv). Coordinating systems development and implementation;

xvi). Coordinating and undertaking performance appraisals; and

xvii). Participating in planning and budgeting for the ICT function.

(b) Person Specifications

For appointment to this grade, a candidate must have:

i). At least eight (8) years relevant work experience, of which three (3) years must have been in a supervisory position in public or private sector;

ii). Bachelors degree in any of the following fields: Information Technology, Computer Science, Computer Engineering or equivalent qualification from a recognized institution;

iii). Masters degree in any of the following fields: Information Technology, Computer Science, Computer Engineering or equivalent qualification from a recognized institution;

iv). Qualifications in either of the following areas: Certified Information Security Management (CISM), Certified Information Systems Auditor (CISA), or equivalent Database Management skills (MSSQL/ORACLE/MYSQL/IBM) Web development certifications (PHP, HTML, ASP) or relevant qualifications from a recognized institution.

v). Membership to a professional body where applicable and in good standing;

vi). Management course lasting not less than four (4) weeks from a recognized institution;

vii). Fulfilled the requirements of Chapter Six (6) of the Constitution.

(c) Skills and Competencies

i). Interpersonal skills;

ii). Communication skills;

iii). Ability to work independently and in a team;

iv). Administrative capabilities;

v). Ability to plan and prioritize tasks;

vi). Problem solving skills;

vii). Analytical skills;

viii). Customer focus;

ix). Negotiation skills;

x). Decision making skills;

xi). Report/Minute writing skills;

VII. ASSISTANT DIRECTOR, INFORMATION COMMUNICATION TECHNOLOGY, GRADE KIP 4

(a) Job Specification

Duties and responsibilities at this level will entail:

i). Formulating and implementing ICT policies, procedures and systems;

ii). Planning, designing, implementing and aligning ICT strategies for effective management of services at all levels;

iii). Overseeing the Institute's intranet and internet issues;

iv). Membership with relevant professional body where applicable;

v). Supervisory Skills course lasting not less than two (2) weeks from a recognized institution;

vi). Management Course lasting not less than four (4) weeks from a recognized institution;

vii). Leadership Course lasting not less than six (4) weeks from a recognized institution; and

viii). Proficiency in computer applications.

ix). Fulfill the requirements of Chapters six (6) of the Constitution

JOB AND PERSONS SPECIFICATIONS

II. KNOWLEDGE MANAGEMENT ASSISTANT, GRADE KIP 9

(a) Job Specification

This is the entry and training level for diploma holders in this cadre. An officer in this cadre will work under the supervision and guidance of a senior officer.

Duties and responsibilities will entail assisting in:

i). Drafting reports on digitization of all materials to establish an e-resources center;

ii). Preparing knowledge management reports;

iii). Updating the knowledge managementinformation system (IS);

iv). Drafting of quarterly and annual performance contract reports; and

v). Collecting and collating data on archival or disposal of dormant/obsolete records and resources;

(b) Person Specification

For appointment to this grade, an officer must have:

i). Diploma in any of the following disciplines; Library Studies, Information Science, knowledge management, or equivalent qualification from a recognized institution;

ii). Proficiency in computer application; and

iii). Fulfilled the requirements of Chapters six (6) of the Constitution.

(c) Skills and Competencies

i). Interpersonal skills;

ii). Communication skills;

iii). Ability to work independently and in a team;

iv). Ability to meet deadlines;

v). Ability to supervise others;

vi). Customer focus;

III. SENIOR KNOWLEDGE MANAGEMENT ASSISTANT GRADE KIP 8

(a) Job Specification

i). Drafting reports on digitization of all materials to establish an e-resources center;

ii). Assisting in preparing knowledge management reports;

iii). Updating the knowledge management information system (IS);

iv). Drafting of quarterly and annual performance contract reports;

v). Collecting and collating data on archival or disposal of dormant/obsolete records and resources;

vi). Maintaining a database on subscriptions to international journals; and

vii). Updating knowledge and information resources.

(b) Person Specification

For appointment to this grade, an officer must have:

i). Minimum of four (4) years relevant work experience;

ii). Diploma in any of the following disciplines; Library Studies, Information Science, knowledge management, or equivalent qualification from a recognized institution;

iii). Membership with relevant professional body where applicable;

iv). Proficiency in computer application; and

v). Fulfilled the requirements of Chapters six (6) of the Constitution.

(c) Skills and Competencies

i). Interpersonal skills;

ii). Communication skills;

iii). Ability to work independently and in a team;

iv). Ability to meet deadlines;

v). Ability to supervise others;

vi). Customer focus;

vii). Report/Minute writing skills;

IV. PRINCIPAL KNOWLEDGE MANAGEMENT ASSISTANT GRADE KIP 7

(a) Job Specification

i). Drafting reports on digitization of all materials to establish an e-resources center;

ii). Assisting in preparing knowledge management reports;

iii). Updating the knowledge management information system (IS);

iv). Drafting of quarterly and annual performance contract reports;

v). Collecting and collating data on archival or disposal of dormant/obsolete records and resources;

vi). Maintaining a database on subscriptions to international journals;

vii). Updating knowledge and information resources.

viii). Assisting in monitoring the implementation of Knowledge Management Strategy and other initiatives;

ix). Assisting in developing new ideas, approaches, practices and procedures in knowledge management; and

x). Assisting in identifying requisites books and periodicals; and

(b) Person Specification

For appointment to this grade, an officer must have:

i). Minimum of eight (8) years relevant work experience;

ii). Diploma in any of the following disciplines; Library Studies, Information Science, knowledge management, or equivalent qualification from a recognized institution;

iii). Membership with relevant professional body where applicable;

iv). Proficiency in computer application; and

v). Fulfilled the requirements of Chapters six (6) of the Constitution.

(c) Skills and Competencies

i). Interpersonal skills;

ii). Communication skills;

iii). Ability to work independently and in a team;

iv). Ability to meet deadlines;

v). Ability to supervise others;

vi). Customer focus;

vii). Report/Minute writing skills;

V. KNOWLEDGE MANAGEMENT OFFICER, GRADE KIP 7

(a) Job Specification

This is the entry and training level for degree holders in this cadre. An officer in this cadre will work under the supervision and guidance of a senior officer.

Duties and responsibilities will entail assisting in:

i). Collecting information for the development of knowledge management strategy/guidelines;

ii). Drafting reports on KIP's projects, impacts and outcomes;

iii). Assisting in gathering data, information and documentation of the same for the purpose of knowledge management;

iv). Collecting data on existing resource to inform its relevancy, accuracy and applicability in the institution and the sector;

v). Assisting in the identification, collection, documentation, and storing of tacit/implicit knowledge and converting it into shared knowledge;

vi). Monitoring the implementation of Knowledge Management Strategy and other initiatives;

vii). Developing new ideas, approaches, practices and procedures in knowledge management;

viii). Identifies requisites books and periodicals; and

ix). Assisting in preparing of e-resources for public access.

(b) Person Specification

For appointment to this grade, a person must have:

i). Bachelor's degree in any of the following disciplines; Library Studies, Information Science, knowledge management, or other relevant and equivalent qualification from a recognized and accredited institution;

ii). Proficiency in computer applications; and

iii). Fulfilled the provisions of Chapter Six of the Constitution.

(c) Skills and Competencies

i). Interpersonal skills;

ii). Communication skills;

iii). Ability to meet deadlines;

iv). Customer focus;

VI. SENIOR KNOWLEDGE MANAGEMENT OFFICER, GRADE KIP 6

(a) Job Specification

i). Initiating the development of knowledge management information system (IS);

ii). Proposing mechanisms to disseminate knowledge and information on Primate Research;

iii). Undertaking information searches from electronic databases;

iv). Participating in the development of a knowledge and data management system to preserve corporate memory;

v). Analyzing reports on KIPRE's projects, impacts and outcomes;

vi). Reviewing data on existing resource to inform its relevancy, accuracy and applicability in the institution and the sector;

vii). Monitoring the implementation of Knowledge Management Strategy and other initiatives;

viii). Developing new ideas, approaches, practices and procedures in knowledge management; and

ix). Assisting in preparing of e-resources for public access

x). Sensitizing staff on knowledge management.

(b) Person Specification

For appointment to this grade, a person must have:

i). At least four (4) years relevant work experience;

ii). Bachelor's degree in any of the following disciplines; Library Studies, Information Science, knowledge management, or equivalent qualification from a recognized institution

iii). Membership with relevant professional body where applicable;

iv). Supervisory Skills course lasting not less than two (2) weeks from a recognized institution;

v). Proficiency in computer applications; and

vi). Fulfilled the provisions of Chapter Six of the Constitution.

(c) Skills and Competencies

i). Interpersonal skills;

ii). Communication skills;

iii). Ability to work independently and in a team;

iv). Ability to plan and prioritize tasks;

v). Ability to meet deadlines;

vi). Ability to supervise others;

vii). Problem solving skills;

viii). Analytical skills;

ix). Customer focus;

x). Decision making skills;

xi). Report/Minute writing skills;

VII. PRINCIPAL KNOWLEDGE MANAGEMENT OFFICER, GRADE KIP 5

(a) Job Specification

i). Initiating development, implementation and reviewing of policies, strategies, and procedures on knowledge management;

ii). Recommending proposals on the development ofknowledge managementinformation system (IS);

iii). Evaluating proposals on mechanisms to disseminate knowledge and information;

iv). Coordinating the development of a knowledge and data management system to preserve corporate memory;

v). Managing automation of systems and other information sources;

vi). Coordinating the selection and acquisition of information in consultation with researchers and other professionals;

vii). Managing information materials such as books, periodicals, video cassettes, audio-tapes, computer databases and CD-ROM, micro-filmed materials and other relevant documents;

viii). Proving guidance on regulations relating to provision of information in the Institute; and

ix). Coordinating digitization of all materials to establish an E-Resource Centre.

(b) Person Specification

i). For appointment to this grade, a person must have:

ii). At least eight (8) years' work experience, three (3) of which must have been in a supervisory position in public or private sector;

iii). Bachelor's degree in any of the following disciplines; Library Studies, Information Science, knowledge management, or equivalent qualification from a recognized institution

iv). Master's degree in any of the following disciplines: - Library Studies, Information Science, knowledge management, Business Administration or equivalent qualification from a recognized and accredited institution of higher learning;

v). Membership with relevant professional body where applicable;

vi). Management Course lasting not less than four (4) weeks from a recognized institution;

vii). Proficiency in computer applications; and

viii). Fulfilled the provisions of Chapter Six of the Constitution.

(c) Skills and Competencies

i). Interpersonal skills;

ii). Communication skills;

iii). Ability to work independently and in a team;

iv). Ability to plan and prioritize tasks;

v). Ability to meet deadlines;

vi). Ability to supervise others;

vii). Problem solving skills;

viii). Analytical skills;

ix). Customer focus;

x). Decision making skills;

xi). Report/Minute writing skills;

VIII. ASSISTANT DIRECTOR, KNOWLEDGE MANAGEMENT OFFICER, GRADE KIP 4

(a) Job Specification

Duties and responsibilities at this level will entail:

i). Initiating the development of knowledge management strategy/guidelines;

ii). Ensuring all materials in the Library are in good and readable condition;

iii). Ensuring development of regulations relating to provision of information in the Institute;

iv). Developing outreach programmes as part of the Knowledge Sharing strategy in the Authority;

v). Analyzing and availing information on KIP's projects, impacts and outcomes;

vi). Reviewing the existing resource to evaluate its relevancy, accuracy and applicability in the institution and the sector;

vii). Identifying, collecting, documenting and storing tacit/implicit knowledge and converting it into shared knowledge;

viii). Managing and maintaining knowledge and information resources;

ix). Sensitizing staff and stakeholders on knowledge management strategy guidelines;

x). Coordinating linkage with sector on matters; and

xi). Developing knowledge management proposals.

(b) Person Specification

i). At least ten (10) years relevant work experience four (4) of which should have been in a supervisory role in public or private sector;

ii). Bachelor's degree in any of the following disciplines; Library Studies, Information Science, knowledge management, or equivalent qualification from a recognized institution

iii). Master's degree in any of the following disciplines: - Library Studies, Information Science, knowledge management, Business Administration or equivalent qualification from a recognized institution;

iv). Membership with relevant professional body where applicable;

v). Management Course lasting not less than four (4) weeks from a recognized institution;

vi). Proficiency in computer applications; and

vii). Fulfilled the provisions of Chapter Six of the Constitution.

(c) Skills and Competencies

i). Interpersonal skills;

ii). Communication skills;

iii). Ability to work independently and in a team;

iv). Ability to plan and prioritize tasks;

v). Ability to meet deadlines;

vi). Ability to supervise others;

vii). Problem solving skills;

viii). Analytical skills;

ix). Customer focus;

x). Decision making skills;

xi). Report/Minute writing skills;

IX. DEPUTY DIRECTOR, RESOURCE CENTRE, GRADE KIP 3

(a) Job Specification

Duties and responsibilities at this level will entail:

i). Developing, implementing and reviewing policies, strategies, and procedures on knowledge management;

ii). Initiating the development of knowledge management information system (IS);

iii). Providing information on Institute's projects, impacts and outcomes;

iv). Managing the process of gathering data, information, and documentation;

v). Managing and maintaining knowledge and information resources;

vi). Coordinating the selection and acquisition of knowledge and information in consultation/ partnership with researchers and other professionals;

vii). Reviewing the existing resource to evaluate its relevancy, accuracy and applicability in the institution and the sector;

viii). Identifying, collecting, documenting, and storing tacit/implicit knowledge and converting it into shared knowledge;

ix). Coordinating digitization of all materials to establish an e-resources center;

x). Coordinating linkage and subscription to local and international journals and other institutions;

(xi) Ensure Institute motor vehicles are maintained and in good working condition;
(xii) Undertake calibration of research equipment;
(xiii) Coordinate Installation, testing and commissioning of electrical, biomedical and mechanical equipment;

(xiv) Oversee outsourced installation and maintenance contracts;
(xv) Ensure uninterrupted availability of power and water;
(xvi) Coordinate surveying and valuation of Institute land and physical assets; and
(xvii) Plan and implement capacity building programs for Engineering and Maintenance staff.

(c) Grading Structure

The career guidelines establish three (3) grades for Technicians graded as follows:

S/No.	DESIGNATION	GRADE KIP
1.	Technicians	9
2.	Senior Technician	8
3.	Principal Technician	7

***NOTE**: The grades of Technician/Senior, KIP 9/8 will form a common establishment for the purpose of this Career Guideline.*

(d) Recognized qualifications

The following are the recognized qualifications for the purpose of this Career Guideline:

(i) Diploma in any of the following Engineering disciplines: Mechanical, Civil, Building, Biomedical, Electrical/Electronic or its equivalent qualification from a recognized Institution.
(ii) Higher Diploma in any of the following Engineering disciplines: - Mechanical, Civil, Building, Biomedical, Electrical/Electronic or its equivalent qualification from a recognized Institution.
(iii) Registration by Engineers Board of Kenya as a Professional Engineer.
(iv) Valid Annual Practicing License from the Engineers Board of Kenya.
(v) Member of the Institute of Engineers of Kenya (MIEK) or any other recognized Institution.
(vi) Supervisory Course lasting not less than two (2) weeks from a recognized Institution.
(vii) Management Course lasting not less than four (4) weeks from a recognized Institution.
(viii) Leadership Course lasting not less than four (4) weeks from a recognized Institution.
(ix) Proficiency in computer application.

(x) Fulfilled the requirements of Chapter Six (6) of the Constitution.

JOB AND PERSONS SPECIFICATIONS

I. TECHNICIAN, GRADE KIP 9

This is the entry and training grade for this cadre. An officer at this level will work under guidance and supervision of a Senior Technician and maybe deployed in any of the following functional areas:

i. Civil Engineering, Infrastructure and Buildings.
ii. Electrical/Electronics/Biomedical.

(a) Job Specifications

In **Civil Engineering, Infrastructure and Buildings**, duties and responsibilities will entail:

(i) Conducting inspection, repair and maintenance of buildings and utilities;
(ii) Preparing work plans for building and infrastructure repair and maintenance;
(iii) Implementing repair and maintenance schedules for buildings and utilities; and
(iv) Participating in supervision of repair and maintenance for buildings and utilities.

In **Electrical/Electronics/Biomedical**, duties and responsibilities will entail:

(i) Installing, inspecting and testing installations in the institute;
(ii) Preparing repair and maintenance schedules in the relevant sections for institute infrastructure, installations and equipment; and
(iii) Operating, maintaining and servicing equipment in the institute.

(b) Person Specifications

For appointment to this grade, a candidate must have:

(i) Diploma in any of the following Engineering disciplines: Mechanical, Civil, Building, Electrical/Electronics/Biomedical or its equivalent qualification from a recognized Institution;
(ii) Proficiency in computer application; and
(iii) Fulfilled the requirements of Chapter Six (6) of the Constitution.

(c) Key Skills and Competence

- Integrity.
- Manual dexterity.
- Communication and reporting skills.
- Interpersonal skills.
- Teamwork skills.

II. SENIOR TECHNICIAN, GRADE KIP 8

(a) Job specifications

In **Civil Engineering, Infrastructure and Buildings**, duties and responsibilities will entail:

(i) Conducting inspection of buildings and utilities for repair and maintenance;
(ii) Preparing of work plans for building and infrastructure repair and maintenance;
(iii) Preparing of repair and maintenance schedules for buildings and utilities;
(iv) Participating in supervision of repair and maintenance for buildings and utilities;
(v) Maintaining, repair of access roads, buildings, plumbing and drainage systems in the institute;
(vi) Operating, repairing and maintaining of institute utilities;
(vii) Preparing drawings for simple structures;
(viii) Assisting in preparation of Standard operating procedures for the department;
(ix) Assisting in supervision of construction and renovations in the institute; and
(x) Supervising technicians and artisans in repair and maintenance work.

In **Electrical/Electronic/Biomedical**, duties and responsibilities will entail:

(i) Installing, inspecting and testing installations in the institute;
(ii) Preparing repair and maintenance schedules in the relevant sections for institute infrastructure, installations and equipment;
(iii) Maintaining, repair, servicing and operating equipment in the institute;
(iv) Participating in design and preparation of specifications for simple structures and installations;
(v) Taking and updating inventory of institute assets; and

(vi) Servicing and calibrating institute equipment.

(b) Person Specifications

For appointment to this grade, an officer must have**:**

(i) At least four (4) years relevant work experience
(ii) Diploma in any of the following Engineering disciplines: Mechanical, Civil, Building, Electrical/Electronic or its equivalent qualification from a recognized Institution;
(iii) Proficiency in computer application;
(iv) Shown merit and ability as reflected in work performance and results; and
(v) Fulfilled the requirements of Chapter Six of the Constitution.

(c) Key Skills and Competence

- Integrity.
- Manual dexterity.
- Communication and reporting skills.
- Interpersonal skills.
- Teamwork skills.

III. PRINCIPAL TECHNICIAN, GRADE KIP 7

(a) Job Specifications

In **Civil Engineering, Infrastructure and Buildings**, duties and responsibilities will entail:

(i) Ensuring repair and maintenance of buildings and institute infrastructure is carried in accordance with the set standards and guidelines;
(ii) Planning and budgeting for repair and maintenance work;
(iii) Coordinate inspection of buildings and utilities and prepare documentation for repair and maintenance;
(iv) Preparing repair and maintenance schedules for buildings and utilities;
(v) Overseeing repair and maintenance for buildings and utilities;
(vi) Supervising of construction works;
(vii) Operating, repairing and maintenance of institute utilities;
(viii) Preparing drawings for buildings and infrastructure;
(ix) Taking and updating inventory of institute assets;

(x) preparation of Standard operating procedures repair and maintenance of buildings and utilities;
(xi) Ensuring uninterrupted availability of water in the institute;
(xii) Ensuring sewer and drainage systems in the institute are working optimally;
(xiii) Participating in preparation, review and updating of policies and guidelines for engineering infrastructure;
(xiv) Assisting in supervision of construction and renovations in the institute; and
(xv) Supervising building technologists, technicians and artisans in repair and maintenance work.

In **Electrical/Electronic/Biomedical**, duties and responsibilities will entail:

(i) Preparing and implementing repair and maintenance schedules in the relevant sections for institute infrastructure, installations and equipment;
(ii) Installing, inspecting and testing installations in the institute;
(iii) Maintaining and servicing equipment in the institute;
(iv) Participating in design and preparation of specifications for simple structures and installations and equipment;
(v) Taking and updating inventory of institute assets;
(vi) Servicing and calibrating institute equipment; and
(vii) Operation, repair and maintenance of institute utilities.

(b) Person Specifications

For appointment to this grade, an officer must have: -

(i) At least eight (8) years of relevant working experience;
(ii) Higher Diploma in any of the following Engineering disciplines: - Mechanical, Civil, Building, Electrical/Electronic or its equivalent qualification from a recognized Institution;
(iii) Diploma in any of the following Engineering disciplines: Mechanical, Civil, Building, Electrical/Electronic or its equivalent qualification from a recognized Institution;
(iv) Supervisory Course not lasting less than two (2) weeks from a recognized Institution;
(v) Proficiency in computer application;
(vi) Shown merit and ability as reflected in work performance and results; and
(vii) Fulfilled the requirements of Chapter Six (6) of the Constitution.

(c) Key Skills and Competence

- Leadership skills.
- Planning skills.
- Integrity.
- Manual dexterity
- Communication and reporting skills.
- Interpersonal skills.
- Teamwork skills.

iii. Proficiency in computer applications.
iv. Fulfilled the requirements of Chapter Six (6) of the Constitution.

JOB AND PERSON SPECIFICATION

I.ARTISAN GRADE KIP 12

This is the entry and training grade for this cadre. An officer at this level will work under direct supervision of a senior officer.

a. Job Specifications

Duties and responsibilities at this level entail:

The officer will work under the supervision of a senior officer in line with the area of specialization (Carpentry and Joinery, Turning and Fitting, Plumbing, Welding and Fabricating and Electrical).

b. Person Specifications

For appointment to this grade, a candidate must have:

i. The Kenya Certificate of Secondary Education (KCSE) mean grade D+ (Plus) or its equivalent qualification;

ii. National Trade Test III Certificate in any of the following areas of specialization: Carpentry and Joinery, Turning and Fitting, Plumbing, Welding and Fabricating or Electrical or its equivalent qualification from a recognized Institution;
iii. Proficiency in Computer Applications; and
iv. Fulfilled the requirements of Chapter Six (6) of the Constitution.

c. Key Competencies and Skills

i. Communication Skills;
ii. Interpersonal skills;
iii. Time management.
iv. Emotional intelligence;
v. Result oriented;
vi. Team player.

II. SENIOR ARTISAN , GRADE KIP 11

a. Job Specifications

Duties and responsibilities at this level entail:

i. Undertaking improvement works in specific area of specialization;
ii. Undertaking repair works and maintenance of Institute facilities equipment;
iii. Conducting general fitting;
iv. Preparing repair and maintenance schedule;
v. Maintaining of workshop and stores;
vi. Undertaking simple construction works; and
vii. Making sketches and estimates for simple structure.

b. Person Specifications

For appointment to this grade, an officer must have:

i. Served for a cumulative period of period of four(4) years relevant work experience in the grade of Artisan or in a comparable position in the Public or Private sector;
ii. The Kenya Certificate of Secondary Education (KCSE) mean grade D+ (Plus) or its equivalent qualification from a recognized Institution;
iii. National Trade Test II Certificate in any of the following areas of specialization: Carpentry and Joinery, Turning and Fitting, Plumbing, Welding and Fabrication, Electrical or its equivalent qualification from a recognized Institution;
iv. Shown merit and ability as reflected in work performance and results;
v. Proficiency in computer applications; and
vi. Fulfilled the requirements of Chapter Six (6) of the Constitution.

c. Key Competencies and Skills

i. Communication Skills;

ii. Interpersonal skills;
iii. Time management.
iv. Emotional intelligence;
v. Result oriented;
vi. Team player.

III. PRINCIPAL ARTISAN , GRADE KIP 10

a. Job Specifications

Duties and responsibilities at this level entail:

i. Undertaking improvement works in specific area of specialization;
ii. Undertaking repair works and maintenance of Institute facilities equipment;
iii. Conducting general fitting;
iv. Preparing repair and maintenance schedule;
v. Maintaining of workshop and stores;
vi. Undertaking simple construction works;
vii. Making sketches and estimates for simple structure;
viii. Modifying works; and
ix. Preparing progress reports.

b. Person Specifications

For appointment to this grade, an officer must have:

i. Served for a Served for a cumulative period of period of eight (8) years relevant work experience in the grade of Senior Artisan or in a comparable position in the Public or Private sector;
ii. The Kenya Certificate of Secondary Education (KCSE) mean grade D+ (Plus) or its equivalent qualification from a recognized Institution;
iii. National Trade Test II Certificate in any of the following areas of specialization: Carpentry and Joinery, Turning and Fitting, Plumbing, Welding and Fabrication, Electrical or its equivalent qualification from a recognized Institution;
iv. Shown merit and ability as reflected in work performance and results;
v. Proficiency in computer applications; and
vi. Fulfilled the requirements of Chapter Six (6) of the Constitution.

c. Key Competencies and Skills

- Communication Skills;
- Interpersonal skills;
- Time management.
- Emotional intelligence;
- Result oriented;

- Team player.

IV. SENIOR CRAFTSMAN, GRADE KIP 10

a. Job Specifications

Duties and responsibilities at this level entail:

i. Undertaking improvement works in specific area of specialization;
ii. Supervising repair works and maintenance of Institute facilities equipment;
iii. Conducting general fitting;
iv. Coordinating Preparation of repair and maintenance schedule;
v. Ensuring maintenance of workshop and stores;
vi. Supervising simple construction works;
vii. Making sketches and estimates for simple structure;
viii. Modifying works;
ix. Preparing and submitting progress reports; and
x. Making requisitioning for materials and keeping records of work undertaken

b. Person Specifications

For appointment to this grade, an officer must have:

i. Served for a cumulative period of eight (8) years relevant work experience three (3) of which should have been in the grade of Senior Artisan or in a comparable position in the public or private sector;
ii. The Kenya Certificate of Secondary Education (KCSE) mean grade D+ (Plus) or its equivalent qualification;
iii. National Trade Test I Certificate in any of the following areas of specialization: Carpentry and Joinery, Turning and Fitting, Plumbing, Welding and Fabricating or its equivalent qualification from a recognized Institution;
iv. Shown merit and ability as reflected in work performance and result;
v. Proficiency in computer applications; and
vi. Fulfilled the requirements of Chapter Six (6) of the Constitution.

c. Key Competencies and Scope

i. Communication Skills;
ii. Interpersonal skills;
iii. Time management.
iv. Emotional intelligence;
v. Result oriented;
vi. Team player.

V. SENIOR CRAFTSMAN, GRADE KIP 10

a. Job Specifications

Duties and responsibilities at this level entail:

i. Undertaking improvement works in specific area of specialization;
ii. Supervising repair works and maintenance of Institute facilities equipment;
iii. Conducting general fitting;
iv. Coordinating Preparation of repair and maintenance schedule;
v. Ensuring maintenance of workshop and stores;
vi. Supervising simple construction works;
vii. Making sketches and estimates for simple structure;
viii. Modifying works;
ix. Preparing and submitting progress reports; and
x. Making requisitioning for materials and keeping records of work undertaken.

b. Person Specifications

For appointment to this grade, an officer must have:

i. Served for a cumulative period of three (3) Years in comparable position in the public or private sector;
ii. The Kenya Certificate of Secondary Education (KCSE) mean grade D+ (Plus) or its equivalent qualification;
iii. National Trade Test 111 Certificate in any of the following areas of specialization: Carpentry and Joinery, Turning and Fitting, Plumbing, Welding and Fabricating or its equivalent qualification from a recognized Institution;
iv. Shown merit and ability as reflected in work performance and result;
v. Fulfilled the requirements of Chapter Six (6) of the Constitution.

c. Key Competencies and Scope

- Communication Skills;
- Interpersonal skills;
- Time management.
- Emotional intelligence;
- Result oriented;
- Team player.

VI. PRINCIPAL CRAFTSMAN, GRADE KIP 9

a. Job Specifications

Duties and responsibilities at this level entail:

i. Undertaking improvement works in specific area of specialization;
ii. Supervising repair works and maintenance of Institute facilities equipment;
iii. Conducting general fitting;
iv. Coordinating Preparation of repair and maintenance schedule;
v. Ensuring maintenance of workshop and stores;
vi. Supervising simple construction works;
vii. Making sketches and estimates for simple structure;
viii. Modifying works; and
ix. Preparing and submitting progress reports.

b. Person Specifications

For appointment to this grade, an officer must have:

1. Diploma in relevant field

OR

Served for a cumulative period of twelve (12) years relevant work experience three (3) of which should have been in the grade of Senior Crafts Man or in a comparable position in the public or private sector;

The Kenya Certificate of Secondary Education (KCSE) mean grade D+ (Plus) or its equivalent qualification;
