RE: REQUEST FOR RESOURCE PERSONS TO SUPPORT INSTITUTIONAL DATA GOVERNANCE AND DATA PROTECTION SENSITISATION

The Kenya Institute of Primate Research (KIPRE) is a Semi-Autonomous Government Agency (SAGA) established under Legal Notice No. 273 of 2017 pursuant to the Science, Technology and Innovation Act, No. 28 of 2013. The Institute operates under the Ministry of Health, State Department for Public Health and Professional Standards, and its mandate is to improve human health through biomedical and pre-clinical research.

The Institute is undertaking the development and institutionalisation of an Institutional Data Governance Framework (IDGF), a key deliverable under its Strategic Plan 2023–2027, scheduled for implementation within the current financial year.

To guide this process, KIPRE has developed the Institutional Data Governance Framework Development Plan (IDGFDP), which provides a structured roadmap for establishing and implementing the Framework across the Institute. An important initial activity is the establishment of a network of Data Governance Champions drawn from the Institute's directorates, divisions, departments and sections. The Champions will help identify existing data governance practices, institutional strengths, operational gaps, risks and priority areas for improvement. The findings will inform a subsequent consultant-led institutional data governance assessment and the development of the initial Framework.

In view of the legal and regulatory dimensions of this initiative, KIPRE kindly requests the Kenya School of Law to nominate two suitably qualified resource persons with expertise in data protection law, regulatory compliance and institutional governance to support the planned engagement.

The planned engagement will comprise three complementary sessions:

1. **Introduction to institutional data governance**: This session will be jointly facilitated by resource persons from the Kenya School of Law (KSL) and the National Commission for Science, Technology and Innovation (NACOSTI). It will establish a common understanding of institutional data governance, legal accountability and research-sector obligations.

2. **Fact-finding engagement with Data Governance Champions:** The resource persons will jointly facilitate this session, with support from KIPRE's Data Science and Analytics Section (DSAS) and Data Protection Officer (DPO) Office. The engagement will involve facilitated discussions to identify existing data governance practices, institutional strengths, operational gaps, risks and priority areas requiring further assessment and improvement.

3. **Staff sensitisation on the Data Protection Act, 2019:** This session will be led by resource persons from KSL and will focus on the Institute's legal obligations and the practical responsibilities of staff handling personal data. Key areas will include the lawful processing of personal data, confidentiality, data subject rights, institutional accountability and measures for strengthening compliance with applicable data protection requirements.

Through this engagement, KIPRE seeks to strengthen the capacity of its Data Governance Champions, enhance staff awareness of data protection obligations and establish a preliminary evidence base to inform the subsequent institutional data governance assessment and development of the Framework.

The proposed activities are tentatively scheduled for late November or early December 2026, subject to consultation and confirmation of availability with KSL and NACOSTI. The specific dates, programme and logistical arrangements will be agreed upon in consultation with the respective institutions.

KIPRE values the opportunity to collaborate with the Kenya School of Law in strengthening institutional capacity in data governance, data protection and regulatory compliance. We would appreciate your favourable consideration of this request and the nomination of two suitably qualified resource persons to support this important institutional initiative.

Please accept the assurances of our highest consideration.

Yours faithfully,

_____

Dr. Peter Gichuhi Mwethera, PhD, MBS
Director General
KENYA INSTITUTE OF PRIMATE RESEARCH
