3. **Capacity Building:** Spearheading, developing, and coordinating internal training and awareness programs to foster a robust culture of privacy across all operational units.

algorithms, or research projects, and managing their submission to the Office of the Data Protection Commissioner.

5. **Regulatory Liaison:** Serving as the principal and independent point of contact for the ODPC on all regulatory matters, cooperation initiatives, and system audits.
6. **Data Subject Grievance Redress:** Handling inquiries, requests for access, and complaints from data subjects regarding how KIPRE processes their information.
7. **Breach Management:** Coordinating internal procedures to detect, investigate, and mitigate data breaches, ensuring mandatory reporting to the Data Commissioner within 72 hours when necessary.

To safeguard the independence required for this role under the Act, you will report directly to the Director General (KIPRE) on all critical data protection risks and compliance issues. The Institute will provide you with the necessary tools, operational access, and professional development resources required to execute this mandate effectively.

Please signify your acceptance of this additional appointment and its accompanying terms by signing and returning the duplicate copy of this letter to the Head Human Resource and Administration office.

Congratulations on this expanded responsibility. We have full confidence that your analytical background will greatly strengthen KIPRE's data governance framework.

Yours Sincerely,

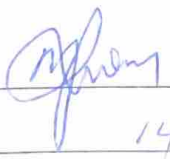

Dr. Peter Mwethera PhD, MBS

Director General
